Answer Position Distribution by Character

b4: A=91 B=5 C=0 D=0 (uneven — dominant A)
caiden: A=156 B=25 C=7 D=0 (uneven — dominant A)
charlie: A=91 B=2 C=3 D=0 (uneven — dominant A)
miranda: A=25 B=11 C=0 D=0 (uneven — dominant A)
zeke: A=90 B=6 C=0 D=0 (uneven — dominant A)

Top 10 Questions Needing Rewrite

1. cm4-68-q1 — charlie / Volcano Trouble / 6-8 — difficulty 1/5
2. cm8-45-q1 — charlie / The Great Science Fair Mystery / 4-5 — difficulty 1/5
3. zkm1-45-q1 — zeke / The New Table / 4-5 — difficulty 1/5
4. zkm8-45-q1 — zeke / The Final Huddle / 4-5 — difficulty 1/5
5. cq2-k1-q3 — caiden / Focus or Distraction? / K-1 — difficulty 1/5
6. cq2-45-q1 — caiden / Focus or Distraction? / 4-5 — difficulty 1/5
7. cq3-k1-q3 — caiden / Time Tracker / K-1 — difficulty 1/5
8. cq4-k1-q1 — caiden / Reset and Return / K-1 — difficulty 1/5
9. cq4-k1-q2 — caiden / Reset and Return / K-1 — difficulty 1/5
10. cq4-45-q1 — caiden / Reset and Return / 4-5 — difficulty 1/5

B4 — Detailed Audit

1. b4m1-k1-q1 (b4 · week 1 · K-1)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: B-4 sees a kid with tight fists and a frown. What feeling might they have?

- A. Sleepy
- B. Angry '
- C. Silly
- D. Ready for a snack

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

2. b4m1-k1-q2 (b4 · week 1 · K-1)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: B-4 sees a kid smiling big and bouncing on their toes. What feeling might they have?

- A. Happy '
- B. Angry
- C. Sleepy
- D. Confused

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

3. b4m1-k1-q3 (b4 · week 1 · K-1)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A kid has quiet tears and a droopy face. What feeling might B-4 name?

- A. Sad '
- B. Excited
- C. Silly

D. Proud

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

4. b4m1-23-q1 (b4 · week 1 · 2-3)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student loses a game and says, "I don't care," but their eyes look watery. What might be happening?

A. They may feel disappointed '

B. They are definitely bored

C. They forgot what games are

D. They may need a minute before talking

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

5. b4m1-23-q2 (b4 · week 1 · 2-3)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A friend will not share a toy and a kid stomps their foot. What feeling fits the situation?

A. Frustrated '

B. Sleepy

C. Proud

D. Calm

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

6. b4m1-23-q3 (b4 · week 1 · 2-3)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A new student sits alone at lunch looking at the floor. What might they feel?

- A. Lonely or nervous '
- B. Extra hungry
- C. Like a superhero
- D. Nothing at all

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

7. b4m1-45-q1 (b4 · week 1 · 4-5)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student feels excited about presenting but also nervous. What should B-4 remember?

- A. People can feel more than one emotion at once '
- B. Only one feeling is allowed
- C. Nervous means they should quit
- D. Excited feelings cancel everything else

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

8. b4m1-45-q2 (b4 · week 1 · 4-5)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student wins a prize but notices a friend looks upset. What might they feel?

- A. Happy and worried at the same time '
- B. Mostly happy but still a little worried
- C. No feelings at all
- D. Angry at the prize

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

9. b4m1-45-q3 (b4 · week 1 · 4-5)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student is proud of their project but embarrassed to share it. What is true?

- A. Proud and embarrassed can both show up together '
- B. Embarrassed means the project is bad
- C. Proud feelings erase nervous feelings
- D. They might wait and share when they feel ready

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

10. b4m1-68-q1 (b4 · week 1 · 6-8)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student snaps at a friend after being corrected in front of the group. What should B-4 check first?

- A. What triggered the reaction and how intense the feeling became '
- B. Whether the student is just rude
- C. Whether the friend deserved it
- D. Whether everyone should ignore it

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

11. b4m1-68-q2 (b4 · week 1 · 6-8)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student had a rough morning and then a small comment sets them off. What does B-4 notice?

- A. Earlier stress can make the next trigger feel bigger '
- B. Small comments never matter

- C. Feelings reset every hour automatically
- D. The student chose to overreact on purpose

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

12. b4m1-68-q3 (b4 · week 1 · 6-8)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student's reaction feels way bigger than the situation. What should B-4 check?

- A. How intense the feeling got and what else was already going on '
- B. Whether the situation was funny
- C. Whether feelings should be ignored
- D. Whether someone else caused it on purpose

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

13. b4m2-k1-q1 (b4 · week 2 · K-1)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: If your heart beats fast and your body feels jumpy, what can help?

- A. Ask for help after trying one breath
- B. Take slow breaths '
- C. Do the easiest calm step first
- D. Keep making your body more jumpy

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

14. b4m2-k1-q2 (b4 · week 2 · K-1)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: B-4 sees butterflies in a kid's tummy before show-and-tell. What body clue is that?

- A. A nervous tummy clue '
- B. A hungry-for-pizza clue
- C. A robot-startup clue
- D. A nothing-is-happening clue

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

15. b4m2-k1-q3 (b4 · week 2 · K-1)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A kid yawns and their eyes feel heavy. What body signal might B-4 name?

- A. Tired '
- B. Angry
- C. Excited
- D. Silly

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

16. b4m2-23-q1 (b4 · week 2 · 2-3)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student's shoulders are tight before reading aloud. What feeling might match that signal?

- A. Nervous '
- B. Unsure what to do next
- C. Extra hungry
- D. Too sparkly

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

17. b4m2-23-q2 (b4 · week 2 · 2-3)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: After an unfair call in a game, a kid's jaw is clenched and fists are tight. What feeling fits?

- A. Frustrated or angry '
- B. Sleepy
- C. Proud
- D. Bored

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

18. b4m2-23-q3 (b4 · week 2 · 2-3)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student slumps their shoulders after making a mistake. What feeling might B-4 detect?

- A. Disappointed or sad '
- B. Extra excited
- C. Hungry
- D. Confused about lunch

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

19. b4m2-45-q1 (b4 · week 2 · 4-5)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student feels hot, tense, and ready to argue. What is the best first reset?

- A. Pause and take space before responding '

- B. Send the text immediately
- C. Argue faster
- D. Pretend nothing happened

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

20. b4m2-45-q2 (b4 · week 2 · 4-5)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student cannot sit still — legs bouncing, fingers tapping. What reset fits the signal?

- A. A short movement break '
- B. Hold breath until dizzy
- C. Stare at the ceiling for an hour
- D. Ignore the body completely

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

21. b4m2-45-q3 (b4 · week 2 · 4-5)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student's brain feels buzzy and they cannot think straight. What should B-4 suggest first?

- A. Slow breathing to settle the nervous system '
- B. Speed-read everything twice as fast
- C. Add five more tasks
- D. Wait until the buzz gets louder

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

22. b4m2-68-q1 (b4 · week 2 · 6-8)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: Why should someone notice body signals early?

- A. Early signals help prevent a bigger reaction '
- B. Waiting until feelings peak gives more control
- C. Ignoring signals helps them fade faster
- D. Body signals only matter after someone else notices

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

23. b4m2-68-q2 (b4 · week 2 · 6-8)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: B-4 notices a student's voice getting louder and their face heating up. What is this?

- A. An early warning sign before escalation '
- B. Proof they are fine
- C. A sign to ignore everything
- D. A random glitch with no meaning

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

24. b4m2-68-q3 (b4 · week 2 · 6-8)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student catches their shoulders creeping up and jaw tightening. What is the smart next move?

- A. Use a reset before the reaction gets bigger '
- B. Wait until they snap, then fix it
- C. Tell themselves feelings are not real
- D. Push through without noticing

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

25. b4m3-k1-q1 (b4 · week 3 · K-1)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: A friend drops their crayons. What is a brave choice?

- A. Help pick them up '
- B. Laugh and walk away
- C. Wait to help until someone else starts
- D. Pretend the floor did it

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

26. b4m3-k1-q2 (b4 · week 3 · K-1)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: A classmate looks sad and alone at recess. What is a brave choice?

- A. Ask if they want to play '
- B. Watch from far away and hope someone else helps
- C. Point and stare
- D. Pretend you did not see them

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

27. b4m3-k1-q3 (b4 · week 3 · K-1)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: The teacher asks everyone to line up quietly. What is a brave choice?

- A. Try your best to follow directions '
- B. Keep running in circles

C. Stay in line and take one small calm breath

D. Blame the line for being slow

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

28. b4m3-23-q1 (b4 · week 3 · 2-3)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: You do not understand the directions. What is a brave choice?

A. Ask for help '

B. Guess and feel upset

C. Push the paper away

D. Say the directions are broken

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

29. b4m3-23-q2 (b4 · week 3 · 2-3)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: You feel nervous about trying a new activity. What is a brave choice?

A. Try one small part of it '

B. Quit before you start

C. Make fun of the activity

D. Wait for someone else to do everything

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

30. b4m3-23-q3 (b4 · week 3 · 2-3)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: You see a classmate struggling with a task. What is a brave choice?

- A. Offer to help or get a grown-up '
- B. Walk away quickly
- C. Laugh because it looks hard
- D. Copy their work instead

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

31. b4m3-45-q1 (b4 · week 3 · 4-5)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: A student is afraid to try because they might be wrong. What brave choice helps most?

- A. Try one small step first '
- B. Quit before starting
- C. Make fun of the activity
- D. Wait for someone else to do it

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

32. b4m3-45-q2 (b4 · week 3 · 4-5)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 finds a glowing Brave Choice button. It only works when someone picks the helpful choice, even when the easy choice is tempting.

Question: A hard assignment makes a student want to avoid it completely. What brave choice fits?

- A. Open the assignment and do the first small part '
- B. Wait and hope it feels easier later
- C. Say homework is illegal
- D. Wait until panic feels fun

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Scenario: B-4 opens the Oops Repair Lab after someone makes a mistake. The lab does not erase mistakes. It helps repair them.

Question: Someone says "just kidding" after being mean. Does that fix it?

- A. No — you still need to apologize '
- B. Yes — jokes erase everything
- C. Only if you say it three times
- D. No — repair still matters after a joke

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

67. b4m6-45-q1 (b4 · week 6 · 4-5)

Mission: Oops Repair Lab [b4-oops-repair-lab]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: B-4 opens the Oops Repair Lab after someone makes a mistake. The lab does not erase mistakes. It helps repair them.

Question: What makes an apology stronger?

- A. A specific action to repair the harm '
- B. Saying it as fast as possible

- C. Making the other person apologize too
- D. Explaining why it was not a big deal

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

68. b4m6-45-q2 (b4 · week 6 · 4-5)

Mission: Oops Repair Lab [b4-oops-repair-lab]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: B-4 opens the Oops Repair Lab after someone makes a mistake. The lab does not erase mistakes. It helps repair them.

Question: You borrowed something without asking and broke it. Best repair?

- A. Tell them, apologize, and offer to replace or fix it '
- B. Put it away and avoid talking about it
- C. Say it was already broken when you found it
- D. Wait and hope they forget

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

69. b4m6-45-q3 (b4 · week 6 · 4-5)

Mission: Oops Repair Lab [b4-oops-repair-lab]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 opens the Oops Repair Lab after someone makes a mistake. The lab does not erase mistakes. It helps repair them.

Question: What makes repair real?

- A. Changing your behavior next time '
- B. Saying sorry once really fast
- C. Waiting until an adult notices
- D. Explaining why the other person overreacted

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's Focus Flame glows when the learner combines feeling awareness, body signals, brave choice, calm-down move, and reflection.

Question: After a tough conversation, what reflection question helps?

- A. What feeling did I have and what helped? '
- B. Who was the worst person in the room?
- C. What words helped me stay respectful?
- D. Why are feelings so annoying?

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

93. b4m8-45-q3 (b4 · week 8 · 4-5)

Mission: The Focus Flame Finale [b4-focus-flame-finale]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's Focus Flame glows when the learner combines feeling awareness, body signals, brave choice, calm-down move, and reflection.

Question: Brave choice plus calm body equals...

- A. A better next decision '
- B. An automatic perfect day
- C. More practice choosing a better next step
- D. Proof that feelings are useless

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

94. b4m8-68-q1 (b4 · week 8 · 6-8)

Mission: The Focus Flame Finale [b4-focus-flame-finale]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4's Focus Flame glows when the learner combines feeling awareness, body signals, brave choice, calm-down move, and reflection.

Question: Which full cycle shows strong self-regulation?

- A. Notice signal, name feeling, pause, choose strategy, reflect '
- B. React fast, explain later, avoid repair
- C. Ignore feeling, push harder, shut down
- D. Blame someone, quit, move on

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

95. b4m8-68-q2 (b4 · week 8 · 6-8)

Mission: The Focus Flame Finale [b4-focus-flame-finale]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's Focus Flame glows when the learner combines feeling awareness, body signals, brave choice, calm-down move, and reflection.

Question: Which step comes right after "pause" in the regulation cycle?

- A. Choose a strategy '
- B. Blame someone else
- C. Pretend nothing happened
- D. Quit the activity

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

96. b4m8-68-q3 (b4 · week 8 · 6-8)

Mission: The Focus Flame Finale [b4-focus-flame-finale]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: B-4's Focus Flame glows when the learner combines feeling awareness, body signals, brave choice, calm-down move, and reflection.

Question: Why practice the full regulation cycle?

- A. It builds habits for future hard moments '
- B. Repeated practice builds stronger habits
- C. It helps you recover faster when upset happens
- D. It replaces asking for help

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

CAIDEN — Detailed Audit

1. cq1-k1-q1 (caiden · week 1 · K-1)

Mission: What Comes First? [quest-1]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious

Correct answer position: B

Scenario: Caiden has homework, a drawing idea, and a camp bag to pack. Camp starts soon.

Question: What should Caiden do first?

- A. Start a new drawing
- B. Pack the items he needs for camp '
- C. Look for a snack
- D. Wait until later

Reason: correct answer stands out too easily; appropriate simplicity for K-1

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. cq1-k1-q2 (caiden · week 1 · K-1)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: C

Scenario: Caiden feels overwhelmed because his room is messy. B-4 says to pick one small step.

Question: What is the best first step?

- A. Clean the whole room at once
- B. Throw everything under the bed
- C. Pick up the clothes first '
- D. Give up

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

3. cq1-k1-q3 (caiden · week 1 · K-1)

Mission: What Comes First? [quest-1]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The teacher is explaining the challenge. Caiden also wants to sharpen his pencil and tell a joke.

Question: What should Caiden focus on first?

- A. Listening to directions '
- B. Telling the joke
- C. Sharpening his pencil loudly
- D. Looking around the room

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. cq1-23-q1 (caiden · week 1 · 2-3)

Mission: What Comes First? [quest-1]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden wants to draw a superhero before camp starts. What should he do first?

- A. Start coloring
- B. Find paper and pencils '
- C. Show his friend
- D. Hang it on the wall

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

5. cq1-23-q2 (caiden · week 1 · 2-3)

Mission: What Comes First? [quest-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: C

Scenario: (none)

Question: Caiden needs his backpack, water bottle, and homework. What should he pack?

- A. Only homework
- B. Only backpack
- C. All three important items '
- D. Only one item and hope for the best

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

6. cq1-23-q3 (caiden · week 1 · 2-3)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 3/5 · Priority: high

Flags: guessable_without_scenario, answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: Caiden has 10 minutes before leaving. What should happen first?

- A. Start with a short ready-to-leave checklist
- B. Pack his camp bag '
- C. Finish one quick prep step first
- D. Delay until the last minute

Reason: guessable without reading scenario; includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

7. cq1-45-q1 (caiden · week 1 · 4-5)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Caiden has \$8. A notebook costs \$3 and markers cost \$6. He needs both for art class tomorrow.

Question: Can he afford both items today?

- A. No — together they cost \$9 '
- B. Yes — \$8 is enough for both
- C. Yes — \$3 and \$6 equal \$8 exactly
- D. No — he can only afford the markers

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

8. cq1-45-q2 (caiden · week 1 · 4-5)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Math homework takes 25 minutes. Caiden has 40 minutes before dinner.

Question: After homework, how many minutes does he have left?

- A. 15 minutes '
- B. 25 minutes
- C. 65 minutes
- D. 5 minutes

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

9. cq1-45-q3 (caiden · week 1 · 4-5)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: A quiz needs 20 minutes of study tonight. A project due in 5 days needs 45 minutes. Caiden has 30 free minutes tonight.

Question: What is the smartest first step?

- A. Study for the quiz — it is more urgent and fits tonight '
- B. Start the full project — it takes longer
- C. Split 15 minutes on each and hope that is enough
- D. Start a small quiz review after science if time remains

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

10. cq1-68-q1 (caiden · week 1 · 6-8)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden has 90 minutes after school. Math takes 35 minutes, reading takes 25, and packing takes 20.

Question: How many minutes will he have left if he completes all three?

- A. 10 minutes '
- B. 80 minutes
- C. 0 minutes — he is 10 minutes short
- D. 25 minutes

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

11. cq1-68-q2 (caiden · week 1 · 6-8)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Camp tokens: trail mix 7, drink 5, sticker 4. Caiden has 12 tokens and must buy food first.

Question: What is the best spending plan?

- A. Trail mix and drink — costs 12, no tokens left '
- B. All three items — costs 16 tokens
- C. Sticker and drink only — saves the most tokens
- D. Trail mix only — leaves 5 tokens unused

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

12. cq1-68-q3 (caiden · week 1 · 6-8)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Science project due tomorrow (needs 50 min). Reading log due Friday (needs 30 min). Comic due next week (needs 40 min). Caiden has 60 minutes tonight.

Question: Which plan uses his time best?

- A. Full science project tonight — most urgent '
- B. Comic first — it is the most fun
- C. 30 min science + 30 min reading — ignores that science needs 50
- D. Reading log first — due before the comic only

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

13. cq2-k1-q1 (caiden · week 2 · K-1)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Caiden is writing in his journal. His tablet keeps lighting up beside him.

Question: What should Caiden do?

- A. Check every notification
- B. Move the tablet away until he finishes '
- C. Stop writing
- D. Open a game

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

14. cq2-k1-q2 (caiden · week 2 · K-1)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Caiden wants to finish homework, but a game is open on his screen.

Question: What is the best choice?

- A. Play the game first
- B. Close the game and finish homework '
- C. Do both at the same time
- D. Quit homework

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

15. cq2-k1-q3 (caiden · week 2 · K-1)

Mission: Focus or Distraction? [quest-2]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, joke_or_impossible_distractor, answer_length_imbalance

Correct answer position: B

Scenario: Caiden feels wiggly during quiet reading time.

Question: What is a healthy focus move?

- A. Run around the room
- B. Take a quiet breath and look back at the page '

C. Talk to a friend

D. Hide the book

Reason: joke distractors reduce challenge; correct answer stands out too easily

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

16. cq2-23-q1 (caiden · week 2 · 2-3)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: (none)

Question: Caiden is doing homework. His tablet starts playing videos. What should he do?

A. Pause videos and finish one homework section

B. Turn off the tablet and focus '

C. Set homework aside without a plan

D. Switch tasks every few minutes

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

17. cq2-23-q2 (caiden · week 2 · 2-3)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: What is a distraction?

A. Something helping you focus

B. Something taking attention away '

C. A teacher

D. A task list used at the right time

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

18. cq2-23-q3 (caiden · week 2 · 2-3)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: (none)

Question: Which helps focus?

- A. Background music with no lyrics
- B. Five games open
- C. Quiet workspace '
- D. Constant texting

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. cq2-45-q1 (caiden · week 2 · 4-5)

Mission: Focus or Distraction? [quest-2]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, guessable_without_scenario, too_easy_for_grade_4_plus

Correct answer position: B

Scenario: (none)

Question: Caiden is reading, but his phone keeps buzzing. What is the best choice?

- A. Check every message
- B. Put the phone away until finished '
- C. Ignore reading
- D. Open social media

Reason: correct answer stands out too easily; guessable without reading scenario; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

20. cq2-45-q2 (caiden · week 2 · 4-5)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: (none)

Question: Which is a focus strategy?

- A. Working in short chunks '
- B. Switching tasks every minute
- C. Leaving assignments unfinished
- D. Multitasking constantly

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

21. cq2-45-q3 (caiden · week 2 · 4-5)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: B

Scenario: (none)

Question: What happens when distractions increase?

- A. Focus improves
- B. Tasks take longer '
- C. Memory improves
- D. Nothing changes

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

22. cq2-68-q1 (caiden · week 2 · 6-8)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: C

Scenario: (none)

Question: Caiden needs to study for a test. Which environment supports focus?

- A. TV playing
- B. Group chat open
- C. Organized workspace '
- D. Gaming stream

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

23. cq2-68-q2 (caiden · week 2 · 6-8)

Mission: Focus or Distraction? [quest-2]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why is task switching difficult?

- A. The brain loses momentum '
- B. It makes learning easier
- C. It improves memory
- D. It reduces mistakes

Reason: guessable without reading scenario; thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

24. cq2-68-q3 (caiden · week 2 · 6-8)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: (none)

Question: What is attention control?

- A. Choosing where focus goes '
- B. Doing many tasks at once
- C. Avoiding all work
- D. Working faster without thinking

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

25. cq3-k1-q1 (caiden · week 3 · K-1)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 10 minutes before the group leaves. He needs his water bottle, pencil, and notebook.

Question: What should he do?

- A. Grab the three things he needs '
- B. Start coloring a new page
- C. Talk for 20 minutes
- D. Sit down and wait

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

26. cq3-k1-q2 (caiden · week 3 · K-1)

Mission: Time Tracker [quest-3]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: What helps Caiden know when to leave?

- A. A clock '
- B. A snack
- C. A pillow
- D. A comic book

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

27. cq3-k1-q3 (caiden · week 3 · K-1)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, guessable_without_scenario, answer_length_imbalance

Correct answer position: B

Scenario: Caiden still needs to put on shoes and pack his folder.

Question: Camp starts in 15 minutes. What should Caiden do first?

- A. Start a cartoon
- B. Put on shoes and pack his folder '
- C. Take a nap
- D. Draw a new picture

Reason: correct answer stands out too easily; guessable without reading scenario

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

28. cq3-23-q1 (caiden · week 3 · 2-3)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: (none)

Question: Camp starts in 15 minutes. Caiden still needs to put on shoes and pack his folder. What should he do first?

- A. Do a one-minute readiness check first
- B. Pack the folder and put on shoes '
- C. Pack one item, then continue prep
- D. Delay until someone reminds him

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

29. cq3-23-q2 (caiden · week 3 · 2-3)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: guessable_without_scenario

Correct answer position: C

Scenario: (none)

Question: Caiden has 5 minutes before leaving. Which task fits best?

- A. Clean his whole room
- B. Start a long movie
- C. Fill his water bottle '
- D. Build a toy city

Reason: guessable without reading scenario; includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

30. cq3-23-q3 (caiden · week 3 · 2-3)

Mission: Time Tracker [quest-3]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: What helps Caiden know when to leave?

- A. A clock '
- B. A snack
- C. A pillow
- D. A comic book

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

31. cq3-45-q1 (caiden · week 3 · 4-5)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: Homework takes 20 minutes. Packing takes 5 minutes. The bus comes in 30 minutes. Can Caiden finish both?

- A. Yes, because 25 minutes is less than 30 '
- B. No, because 25 minutes is more than 30
- C. No, because homework takes all day
- D. Yes, because time does not matter

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

32. cq3-45-q2 (caiden · week 3 · 4-5)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: (none)

Question: Caiden has 30 minutes. Reading takes 15 minutes and cleaning takes 20 minutes. What should he notice?

- A. He has enough time for both
- B. He needs 35 minutes for both '
- C. Reading takes 30 minutes
- D. Cleaning takes 5 minutes

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

33. cq3-45-q3 (caiden · week 3 · 4-5)

Mission: Time Tracker [quest-3]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, answer_length_imbalance

Correct answer position: A

Scenario: (none)

Question: Which is the best time plan?

- A. Start with the most urgent task '
- B. Wait until the last second
- C. Do nothing
- D. Start five things at once

Reason: guessable without reading scenario

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

34. cq3-68-q1 (caiden · week 3 · 6-8)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: Caiden has 90 minutes. Science takes 45, math takes 20, and reading takes 25. Can he complete all three?

- A. Yes, exactly 90 minutes '
- B. No, it takes 100 minutes
- C. No, it takes 60 minutes
- D. Yes, with 30 minutes left

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

35. cq3-68-q2 (caiden · week 3 · 6-8)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: Caiden has 40 minutes before practice. He has a 30-minute assignment and needs 15 minutes to get ready. What should he do?

- A. Do a short assignment chunk before the get-ready timer
- B. Complete part of the assignment and set a timer to get ready '
- C. Ignore practice
- D. Delay and hope he can rush both later

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

36. cq3-68-q3 (caiden · week 3 · 6-8)

Mission: Time Tracker [quest-3]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why is estimating time useful?

- A. It helps plan tasks realistically '
- B. It makes tasks disappear
- C. It means deadlines do not matter
- D. It helps avoid all work

Reason: guessable without reading scenario; thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

37. cq4-k1-q1 (caiden · week 4 · K-1)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, joke_or_impossible_distractor

Correct answer position: C

Scenario: Caiden gets frustrated when his answer is wrong. His face feels hot.

Question: What is a strong focus move?

- A. Rip the paper
- B. Blame someone else
- C. Take a breath and try again '
- D. Quit the activity forever

Reason: joke distractors reduce challenge; correct answer stands out too easily

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

38. cq4-k1-q2 (caiden · week 4 · K-1)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, joke_or_impossible_distractor, answer_length_imbalance

Correct answer position: A

Scenario: Caiden notices his attention drifting during reading.

Question: What is the best focus reset?

- A. Take one breath and return to the sentence '
- B. Close the book forever

- C. Talk loudly
- D. Hide the book

Reason: joke distractors reduce challenge; correct answer stands out too easily

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

39. cq4-k1-q3 (caiden · week 4 · K-1)

Mission: Reset and Return [quest-4]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden starts drawing during directions and misses the first step.

Question: What should he do next?

- A. Pretend he heard everything
- B. Ask for the direction again '
- C. Blame someone else
- D. Stop participating

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

40. cq4-23-q1 (caiden · week 4 · 2-3)

Mission: Reset and Return [quest-4]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden gets a question wrong. What should he do next?

- A. Take a short break and come back with a plan
- B. Take a breath and try again '
- C. Wait and hope the feeling passes
- D. Throw his pencil

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

41. cq4-23-q2 (caiden · week 4 · 2-3)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden feels frustrated because his drawing is not perfect. What can help?

- A. Rip it up
- B. Take a short break '
- C. Say he is bad at art
- D. Set it aside without choosing a next step

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

42. cq4-23-q3 (caiden · week 4 · 2-3)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: What does reset mean?

- A. Pause and get ready to try again '
- B. Give up
- C. Ignore everyone
- D. Make a mess

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

43. cq4-45-q1 (caiden · week 4 · 4-5)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, guessable_without_scenario, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden loses a game and feels embarrassed. What is the best next step?

- A. Blame someone else
- B. Notice the feeling and try again calmly '
- C. Stop talking all day
- D. Break the rules

Reason: correct answer stands out too easily; guessable without reading scenario; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

44. cq4-45-q2 (caiden · week 4 · 4-5)

Mission: Reset and Return [quest-4]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Caiden's teacher gives feedback on his comic. What should he do first?

- A. Listen and look for one thing to improve '
- B. Throw it away
- C. Say feedback is bad
- D. Refuse to change anything

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

45. cq4-45-q3 (caiden · week 4 · 4-5)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Which thought helps Caiden recover?

- A. I can learn from this '
- B. I always fail
- C. Everyone is against me
- D. I should stop trying

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

46. cq4-68-q1 (caiden · week 4 · 6-8)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Caiden receives critical feedback on a project he worked hard on. What response shows emotional regulation?

- A. He pauses, listens, and chooses one improvement '
- B. He argues immediately
- C. He deletes the whole project
- D. He refuses to participate

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

47. cq4-68-q2 (caiden · week 4 · 6-8)

Mission: Reset and Return [quest-4]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why is pausing helpful when emotions are strong?

- A. It gives the brain time to choose a better response '
- B. It makes problems vanish
- C. It means feelings are wrong
- D. It avoids responsibility

Reason: guessable without reading scenario; thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

48. cq4-68-q3 (caiden · week 4 · 6-8)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Which is an example of flexible thinking?

- A. Trying a new strategy after the first one fails '
- B. Doing the same thing even when it does not work
- C. Refusing help
- D. Ignoring directions

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option

length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

49. cq5-k1-q1 (caiden · week 5 · K-1)

Mission: Build the Plan [quest-5]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Caiden feels overwhelmed because his room is messy.

Question: What is the best first step?

- A. Clean the whole room at once
- B. Pick up the clothes first '
- C. Throw everything under the bed
- D. Give up

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

50. cq5-k1-q2 (caiden · week 5 · K-1)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden wants to finish a project before Friday. Today is Monday.

Question: What should he do?

- A. Wait until Friday morning
- B. Make a small plan for each day '
- C. Forget about it
- D. Do only the fun parts

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

51. cq5-k1-q3 (caiden · week 5 · K-1)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: Caiden needs to pack for camp. What should he do first?

- A. Make a list '
- B. Hide his backpack
- C. Watch TV
- D. Forget everything

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

52. cq5-23-q1 (caiden · week 5 · 2-3)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: (none)

Question: Caiden needs to pack for camp. What should he do first?

- A. Make a list '
- B. Check the bag and list missing items
- C. Watch TV
- D. Forget everything

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

53. cq5-23-q2 (caiden · week 5 · 2-3)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: (none)

Question: Which item belongs in a camp bag?

- A. Water bottle '
- B. Pillow from bed
- C. TV remote
- D. A random extra with no plan

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

54. cq5-23-q3 (caiden · week 5 · 2-3)

Mission: Build the Plan [quest-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: What helps Caiden remember steps?

- A. A checklist '
- B. A loud noise
- C. A messy room
- D. A broken pencil

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

55. cq5-45-q1 (caiden · week 5 · 4-5)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: Caiden is making a comic. What should happen first?

- A. Print copies
- B. Write the story idea '
- C. Sell it
- D. Color the final page first

Reason: guessable without reading scenario

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

56. cq5-45-q2 (caiden · week 5 · 4-5)

Mission: Build the Plan [quest-5]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: guessable_without_scenario

Correct answer position: B

Scenario: (none)

Question: Caiden has three tasks: outline story, sketch panels, add color. What is the best order?

- A. Color, sketch, outline
- B. Outline, sketch, color '
- C. Sketch, color, outline
- D. Sell, color, outline

Reason: guessable without reading scenario; includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

57. cq5-45-q3 (caiden · week 5 · 4-5)

Mission: Build the Plan [quest-5]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why does a plan help?

- A. It breaks a big task into steps '
- B. It helps track what is done and what is next
- C. It makes mistakes easier to catch and fix
- D. It lets you skip everything

Reason: guessable without reading scenario; thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

58. cq5-68-q1 (caiden · week 5 · 6-8)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario

Correct answer position: A

Scenario: (none)

Question: Caiden is preparing a presentation. Which plan is strongest?

- A. Research, outline, create slides, practice '
- B. Create slides, guess facts, present
- C. Practice before knowing the topic
- D. Wait until the morning it is due

Reason: guessable without reading scenario

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

59. cq5-68-q2 (caiden · week 5 · 6-8)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario

Correct answer position: B

Scenario: (none)

Question: Caiden is designing a game idea. What should happen first?

- A. Launch the final game
- B. Create a plan or wireframe '
- C. Sell merchandise
- D. Ignore feedback

Reason: guessable without reading scenario

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

60. cq5-68-q3 (caiden · week 5 · 6-8)

Mission: Build the Plan [quest-5]

Type: multiple_choice · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus, lacks_reasoning_skill

Correct answer position: A

Scenario: (none)

Question: What is the purpose of organizing a project into steps?

- A. To reduce confusion and track progress '
- B. To make it harder
- C. To avoid finishing
- D. To skip planning

Reason: correct answer stands out too easily; limited reasoning demand for band; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

61. cq6-k1-q1 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 5 camp tokens. A fruit cup costs 3 tokens.

Question: How many tokens will he have left after buying the fruit cup?

- A. 2 tokens '
- B. 5 tokens
- C. 8 tokens
- D. 0 tokens

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

62. cq6-k1-q2 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: The snack shop has water and a giant glow sticker. Caiden is thirsty after hiking.

Question: What should Caiden buy first?

- A. Water '
- B. Glow sticker
- C. Both right now
- D. Nothing at all

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

63. cq6-k1-q3 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 4 tokens. Juice costs 2 and a cookie costs 2.

Question: Can he buy both with his tokens?

- A. Yes, that equals 4 '
- B. No, he needs 6

C. Only if he trades shoes

D. Cookies are free

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

64. cq6-k1-q4 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 reminds Caiden that campfire s'mores cost 3 tokens tomorrow.

Question: What is a smart move today?

A. Save some tokens for tomorrow '

B. Set a small savings amount before spending

C. Buy one item now and keep a reserve

D. Spend everything without checking tomorrow's plan

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

65. cq6-k1-q5 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A friend says, "Buy the huge candy bag!" Caiden only has 5 tokens.

Question: What should Caiden do?

A. Pause and check the price '

B. Compare two options before deciding

C. Take one breath and choose based on plan

D. Grab something quickly without checking cost

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

66. cq6-k1-q6 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: guessable_without_scenario

Correct answer position: A

Scenario: Caiden wants chips (3 tokens) and a pencil (2 tokens). He has 4 tokens.

Question: What fits his tokens?

A. Chips OR pencil, not both '

B. Pick the item that best matches today's goal

C. Choose one now and plan the other later

D. Try to buy both and ignore the budget

Reason: guessable without reading scenario; appropriate simplicity for K-1

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

67. cq6-k1-q7 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden lines up at the snack shop. The line is long and he feels rushed.

Question: What helps him decide calmly?

A. Grab the first thing

B. Take a breath and look at prices '

C. Check one need first, then pick a snack

D. Knock over the line and rush ahead

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

68. cq6-k1-q8 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden spent 2 tokens and has 3 left. A friend asks to borrow 2 for a toy.

Question: What is a kind and smart choice?

A. Share 1 token and keep some saved '

B. Give all tokens away

C. Keep every token and walk off

D. Trade his lunch

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

69. cq6-23-q1 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 12 tokens for snack shop day. He wants trail mix (7) and a drink (5).

Question: What should he do first?

A. Add the prices before buying '

B. Check total and compare with his token limit

- C. List need vs want before paying
- D. Buy first and hope the total works out

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

70. cq6-23-q2 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two snacks cost the same: apple slices (4) or granola bar (4).

Question: Which choice shows good planning?

- A. Pick the one that fuels his hike '
- B. Buy both blindly
- C. Choose the loudest package
- D. Flip a coin in the air

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

71. cq6-23-q3 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden planned to save 5 tokens for the craft booth.

Question: A flashy toy costs 5 tokens right now. What is best?

- A. Stick to his plan and save '
- B. Change plans on impulse
- C. Borrow tokens
- D. Take the toy without paying

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

72. cq6-23-q4 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 15 tokens. Snacks cost 6, 4, and 3.

Question: Which combo stays at or under 15?

- A. $6 + 4 + 3 = 13$ '
- B. $6 + 4 + 6 = 16$

C. $15 + 3 = 18$

D. Buy all three twice

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

73. cq6-23-q5 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A “deal” sign says buy two cookies for 9 tokens. One cookie is 5.

Question: Is the deal better if Caiden only wants one?

A. Buy one for 5 tokens '

B. Buy two anyway

C. Buy five cookies

D. Ignore all prices

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

74. cq6-23-q6 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's friend spent all tokens and feels sad.

Question: What can Caiden do?

A. Share a small snack, keep his plan '

B. Give away his whole budget

C. Laugh at his friend

D. Ignore him completely

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

75. cq6-23-q7 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: B-4 asks Caiden to list: need, want, save.

Question: Which list is strongest?

A. Water (need), sticker (want), 4 tokens (save) '

B. Candy, candy, candy

C. Nothing, nothing, nothing

D. Buy everything now

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

76. cq6-23-q8 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 8 tokens left after buying lunch. A game booth opens later for 6.

Question: What should he do?

A. Keep 6+ tokens for the booth '

B. Spend all 8 on stickers

C. Lose his tokens on purpose

D. Buy lunch again

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

77. cq6-45-q1 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: Caiden has 20 tokens. He wants a sandwich (8), smoothie (6), and souvenir pen (9).

Question: Which plan fits his budget?

A. Sandwich + smoothie = 14, save 6 '

B. All three items = 23

C. Buy pen twice

D. Spend 20 on one sticker

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

78. cq6-45-q2 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Store A: trail mix 7 tokens. Store B: trail mix 5 tokens, same size.

Question: What does comparison shopping show?

- A. Store B saves 2 tokens '
- B. Prices never matter
- C. Always pick Store A
- D. Buy from both stores

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

79. cq6-45-q3 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden could spend 10 tokens now on arcade plays or save for a 15-token camp hoodie.

Question: What is a saving strategy?

- A. Skip some arcade plays and track savings '
- B. Set a weekly savings target toward the hoodie
- C. Choose one smaller treat and keep saving
- D. Spend all tokens now and restart later

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

80. cq6-45-q4 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden's list: water, snack, gift for sibling. He has 18 tokens.

Question: Which order is smartest?

- A. Needs first, gift if budget allows '
- B. Gift first, skip water
- C. Random grabbing
- D. Buy only gifts

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

81. cq6-45-q5 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A “limited” snack costs 12 tokens. Regular snack is 6 and fills him up.

Question: What shows self-control?

- A. Pick the regular snack that fits goals '
- B. Buy limited only because of the sign
- C. Buy both no matter what
- D. Leave camp angry

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

82. cq6-45-q6 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden and a teammate share 25 tokens for team snacks.

Question: What is fair planning?

- A. Agree on items and split cost before buying '
- B. Set a shared list and confirm totals together
- C. Assign spending roles before getting in line
- D. Spend separately without discussing fairness

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

83. cq6-45-q7 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: After spending, Caiden has 4 tokens left. Unexpected craft activity costs 5.

Question: What is his best move?

- A. See if he can earn 1 token or swap a plan '
- B. Pretend he has 10
- C. Take supplies without asking
- D. Quit the craft

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

84. cq6-45-q8 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4 asks why a budget helps at the snack shop.

Question: What is the best answer?

- A. It guides choices so money lasts for goals '
- B. It removes all fun
- C. It means never buying snacks
- D. It is only for adults

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

85. cq6-68-q1 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Caiden has 30 tokens. Option A: 3 small snacks (8 each). Option B: one meal deal (18) plus drink (5).

Question: Which option leaves more tokens saved?

- A. Meal deal + drink = 23, saves 7 '
- B. Three snacks = 24, saves 6
- C. Both save the same
- D. Neither costs tokens

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

86. cq6-68-q2 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden can spend 12 tokens on instant fun or save toward a 25-token workshop he wants next week.

Question: What is opportunity cost?

- A. Spending now means fewer tokens for the workshop '
- B. Workshops are free
- C. Instant fun has no cost

D. Saving is always wrong

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

87. cq6-68-q3 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A bundle advertises “20 tokens of value for 15!” Items he would not use are in the bundle.

Question: What should Caiden evaluate?

- A. Whether he would buy each item alone '
- B. Only the bright packaging
- C. How fast the line moves
- D. What his friend buys

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

88. cq6-68-q4 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden delayed buying snacks to join a free hike. He feels hungry mid-hike.

Question: What does delayed gratification teach?

- A. Plan fuel before skipping purchases '
- B. Never join hikes
- C. Always buy everything first
- D. Ignore hunger completely

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

89. cq6-68-q5 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Peers pressure Caiden to “splurge day” and spend all tokens on candy.

Question: What decision shows leadership?

- A. Stick to his budget and explain why '
- B. Say he is saving for a goal and choose one item

- C. Offer a cheaper group option that still fits budget
- D. Spend everything to match peer pressure

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

90. cq6-68-q6 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden tracks: fixed costs (lunch 10), flexible (snack 0–8), savings goal (12).

Question: With 30 tokens, how much is flexible after lunch and savings?

- A. 8 tokens flexible '
- B. 30 tokens flexible
- C. 0 tokens always
- D. 22 tokens flexible

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

91. cq6-68-q7 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: A loyalty card offers 1 free snack after 5 purchases. Caiden rarely visits the shop.

Question: Is the card worth it?

- A. Probably not — he may not visit enough '
- B. Always worth it
- C. Never use cards
- D. Buy 5 snacks immediately

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

92. cq6-68-q8 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4 asks Caiden to reflect after snack shop day.

Question: Which reflection shows growth?

- A. I matched spending to my goals and adjusted once '
- B. I had no plan at all
- C. Price tags do not matter
- D. I will never plan again

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

93. cq7-k1-q1 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden is packing for a nature walk in 20 minutes. His bag is empty.

Question: Which item is missing from his bag?

- A. Water bottle '
- B. Small snack for the planned break
- C. Notebook for trail notes
- D. Bring nothing and guess what is needed

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

94. cq7-k1-q2 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 shows a picture of a sun hat, sunscreen, and water.

Question: Which picture shows camp walk supplies?

- A. Sun hat, sunscreen, water '
- B. Hat and water but no sunscreen
- C. Sunscreen and water but no hat
- D. Empty bag and no checklist

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

95. cq7-k1-q3 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden has shoes on but forgot his socks for a long hike.

Question: What should he grab first?

- A. Socks '
- B. Check feet gear before leaving
- C. Pack socks and confirm fit quickly
- D. Skip prep and rush outside

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

96. cq7-k1-q4 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The group leaves in 20 minutes. Caiden wants to play a game first.

Question: What should he do first?

- A. Pack his bag, then play if time '
- B. Play five minutes, then pack with a timer
- C. Ask a teammate to remind him after packing
- D. Skip prep and hope the team covers for him

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

97. cq7-k1-q5 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's bag has a snack but no water.

Question: What happens if he forgets water?

- A. He may get thirsty and tired '
- B. He may need extra breaks during the walk
- C. He might need to borrow from the group
- D. Water is optional on long hikes

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

98. cq7-k1-q6 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A counselor holds up a checklist: map, whistle, first-aid bandage.

Question: Which checklist is complete for a safe hike?

- A. Map, whistle, bandage '
- B. Only map
- C. Only whistle
- D. Nothing on the list

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

99. cq7-k1-q7 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden can pack a toy or his lunch box. Lunch is before the walk.

Question: Which should he pack for the walk?

- A. Lunch if he will need it '
- B. Only a toy
- C. Neither — empty bag
- D. A giant poster

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

100. cq7-k1-q8 (caiden · week 7 · K-1)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's friend asks him to find a missing flashlight before leaving.

Question: What is the most important task before leaving?

- A. Make sure his own bag is ready '
- B. Ignore the flashlight request and keep moving
- C. Ask a teammate to help locate it after his checklist
- D. Put the flashlight aside and do nothing else

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

101. cq7-23-q1 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's cabin checklist: water, trail map, rain poncho, permission slip.

Question: Which checklist is complete?

- A. All four items packed '
- B. Only water
- C. Only permission slip
- D. None of them

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

102. cq7-23-q2 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: The activity starts in 20 minutes. Caiden has not packed yet.

Question: What should he pack first?

- A. Safety items: water and whistle '
- B. Games only
- C. Extra shoes for fun
- D. Nothing — wing it

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

103. cq7-23-q3 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden forgot sunscreen. The hike is in open sun.

Question: What happens if he forgets sunscreen?

- A. He could get a sunburn '
- B. He may have to stop and find shade sooner
- C. He might need help from shared team supplies
- D. Sunscreen never helps in sun

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps

a little but misses the main goal | Select an option that delays the decision

104. cq7-23-q4 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: reading_comprehension · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Two bags: Bag A has water, snack, map. Bag B has comic, toy, sticker.

Question: Which bag is ready for the camp mission?

- A. Bag A '
- B. Bag B
- C. Both equally ready
- D. Neither — bring nothing

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

105. cq7-23-q5 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden helps his team. One person packs snacks, one packs maps.

Question: What is Caiden's job if he packs tools?

- A. Pack assigned tools and say when done '
- B. Pack everything randomly
- C. Pack nothing
- D. Switch jobs every second

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

106. cq7-23-q6 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks which task is most important before leaving.

Question: What is most important?

- A. Confirm everyone has water '
- B. Pick the best selfie spot
- C. Rename the cabin
- D. Sort stickers by color

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

107. cq7-23-q7 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden has 15 minutes. Packing takes 8 minutes; games take 12.

Question: What is realistic?

- A. Pack first — may skip long game '
- B. Long game then rush pack
- C. Do neither
- D. Pack during the bus ride only

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

108. cq7-23-q8 (caiden · week 7 · 2-3)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The counselor checks bags at the door.

Question: What shows responsibility?

- A. Show his packed checklist proudly '
- B. Do one last item check before showing his bag
- C. Ask for a quick partner check at the door
- D. Rush through without checking anything

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

109. cq7-45-q1 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden must gather: first-aid kit, team flag, water jugs, and activity cards.

Question: What is the best multi-step plan?

- A. Safety first, then team items, then cards '
- B. Cards first, skip water
- C. Grab random items
- D. Wait until activity starts

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

110. cq7-45-q2 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: One teammate forgot a rain poncho. Skies look gray.

Question: What should Caiden do?

- A. Offer spare poncho if he has one and tell counselor '
- B. Laugh and leave
- C. Take teammate's bag
- D. Ignore weather

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

111. cq7-45-q3 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Supply table: rope, batteries, bug spray, board game.

Question: Which items belong on the outdoor mission list?

- A. Rope, batteries, bug spray '
- B. Board game only
- C. Board game and rope only
- D. None of them

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

112. cq7-45-q4 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden's team splits: gather food, gather tools, check map route.

Question: Which task is most important before leaving?

- A. Check map route so the team knows the way '
- B. Sort food by color
- C. Polish tools for fun

D. Skip map — wander

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

113. cq7-45-q5 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: 20 minutes until launch. Packing 10 min, briefing 5 min, bathroom 5 min.

Question: Can he fit all three if he starts now?

A. Yes — 20 minutes total if he starts now '

B. No — needs 40 minutes

C. Only if he skips packing

D. Time does not matter

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

114. cq7-45-q6 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Caiden packed fast but forgot to charge the lantern batteries.

Question: What is the fix?

A. Swap in charged batteries from supply bin '

B. Borrow spares and confirm they work

C. Test lantern and backup before leaving

D. Ignore light needs and leave anyway

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

115. cq7-45-q7 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: Two checklists: detailed with times vs vague “bring stuff.”

Question: Which checklist is stronger?

- A. Detailed list with times '
- B. Vague list
- C. No list
- D. List of jokes only

Reason: correct answer stands out too easily; thin scenario for inference; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

116. cq7-45-q8 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4 debrief: what made supply mission smooth?

Question: Best reflection?

- A. We assigned roles and checked the list twice '
- B. We packed at the last second
- C. We skipped water
- D. We never planned

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

117. cq7-68-q1 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Limited wagon space. Items: water (critical), extra games (low), first-aid (critical), decor (low).

Question: What should Caiden load first?

- A. Critical items: water and first-aid '
- B. Decor and games first
- C. Random order
- D. Leave wagon empty

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

118. cq7-68-q2 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Forecast: afternoon storms. Morning is clear.

Question: How should Caiden plan ahead?

- A. Pack rain gear even if morning is clear '
- B. Skip rain gear — sun only
- C. Plan only for morning
- D. Ignore weather apps

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

119. cq7-68-q3 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Team of four, one first-aid kit. Two members trained, two not.

Question: Best coordination move?

- A. Assign a trained member to carry and teach location '
- B. Assign backup carrier and confirm handoff plan
- C. Keep the kit in one labeled place for team access
- D. Leave the kit behind and hope it is not needed

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

120. cq7-68-q4 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Supply run budget: 30 minutes, 3 stops. Stop A 12 min, B 8 min, C 15 min.

Question: Which plan fits?

- A. $A + B = 20$ min, skip C or swap C for faster errand '
- B. All three without adjusting
- C. Only stop C
- D. Wander until dark

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence

complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

121. cq7-68-q5 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, lacks_reasoning_skill

Correct answer position: A

Scenario: Duplicate supplies: two maps, one compass, zero spare batteries.

Question: What gap should Caiden fix first?

- A. Get spare batteries '
- B. More maps
- C. Remove compass
- D. Add more maps only

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

122. cq7-68-q6 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Leader asks for a “ready report” before departure.

Question: What belongs in the report?

- A. Packed items, missing items, who owns fixes '
- B. Only jokes
- C. Only complaints
- D. Nothing — wing it

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

123. cq7-68-q7 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden could help a friend fix a pack or reorganize the entire supply closet.

Question: With 10 minutes left, what is highest priority?

- A. Help friend fix pack — direct mission blocker '
- B. Do a quick blocker check, then continue own tasks
- C. Fix the highest-risk missing item first

D. Ignore blockers and spend time on low-priority tasks

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

124. cq7-68-q8 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: After the mission, gear is scattered. Next group leaves in an hour.

Question: What shows leadership?

A. Run a quick reset checklist for the next group '

B. Leave gear scattered

C. Take gear home

D. Blame the weather

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

125. cq8-k1-q1 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden has math practice and a reading page. Math is due first tomorrow.

Question: What should he do first?

A. Math practice '

B. Check both due times, then pick first

C. Start with one math problem to build momentum

D. Avoid both tasks until late evening

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

126. cq8-k1-q2 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden wants to draw comics before any homework.

Question: What helps him start homework?

A. Do a small homework part, then draw '

B. Set a 10-minute homework timer before drawing

- C. Ask for help after finishing one short step
- D. Skip homework and hope tomorrow works out

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

127. cq8-k1-q3 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Three tasks: sharpen pencils, read one page, put books in bag.

Question: Which order gets him ready?

- A. Read page, sharpen pencils, bag books '
- B. Bag books before reading
- C. Only sharpen pencils
- D. Skip everything

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

128. cq8-k1-q4 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 says, "Pick the task that is due soonest."

Question: What does due soonest mean?

- A. The one needed the earliest '
- B. The most fun one
- C. The loudest one
- D. None of them matter

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

129. cq8-k1-q5 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden feels stuck and wants to quit.

Question: What is a brave small step?

- A. Do one problem or one sentence '

- B. Do the easiest part first, then continue
- C. Take one breath and start a tiny step
- D. Avoid starting and hope stress goes away

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

130. cq8-k1-q6 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A tablet game lights up while Caiden reads.

Question: What protects focus?

- A. Move tablet away until reading is done '
- B. Play during reading
- C. Set a short reading block, then take a game break
- D. Put reading off without a restart plan

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

131. cq8-k1-q7 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 20 minutes before dinner. Homework might take 15 minutes.

Question: Is that enough time?

- A. Yes — start now '
- B. No — needs five hours
- C. Time does not matter
- D. Only if he skips dinner

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

132. cq8-k1-q8 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden finished math. Comic project is for next week.

Question: What should he do next?

- A. Reading due tomorrow '

- B. Comic project due next week
- C. Start a brand-new game
- D. Go to sleep at noon

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

133. cq8-23-q1 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Tasks: math (due tomorrow), reading (due tomorrow), comic (due Friday).

Question: Best order tonight?

- A. Math, reading, then comic if time '
- B. Comic first always
- C. Random order
- D. Skip all three

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

134. cq8-23-q2 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden estimates: math 20 min, reading 15 min, comic 40 min. He has 45 min.

Question: What is realistic tonight?

- A. Math + reading = 35 min, start comic another night '
- B. All three fully
- C. None — too hard
- D. Comic only

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

135. cq8-23-q3 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden keeps doodling instead of starting.

Question: What beats procrastination?

- A. Set a 5-minute start timer for math '
- B. Wait for perfect mood
- C. Clean entire room first
- D. Give up

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

136. cq8-23-q4 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Reading is easier; math is harder but due sooner.

Question: Which should come first?

- A. Math — due sooner and needs focus '
- B. Reading — easier so skip math
- C. Neither
- D. Flip coins

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

137. cq8-23-q5 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: B-4 suggests a list: task, minutes, due date.

Question: Why is the list helpful?

- A. It shows what fits in available time '
- B. It helps choose what to do first
- C. It makes time estimates easier to compare
- D. Lists waste time and should be skipped

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

138. cq8-23-q6 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden finished reading early. Comic still due Friday.

Question: Smart use of extra time?

- A. Start comic draft or review math '
- B. Play until midnight
- C. Redo reading for fun only
- D. Trash the comic plan

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

139. cq8-23-q7 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Friend invites Caiden to play outside. Homework half done.

Question: What shows balance?

- A. Finish a set chunk, then play '
- B. Agree on a play time after one task block
- C. Send a quick update, then complete one step
- D. Skip the task and leave it for midnight

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

140. cq8-23-q8 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden rushed math and made silly mistakes.

Question: What should he adjust?

- A. Add a 5-minute check step '
- B. Check the hardest problems first
- C. Use a checklist before submitting
- D. Submit fast without reviewing

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

141. cq8-45-q1 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Math 25 min, reading 20 min, comic panels 45 min. Available: 60 min before club.

Question: Best schedule?

- A. Math + reading = 45, comic later '
- B. Comic full 45 first
- C. All three fully in 60
- D. Skip club instead

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

142. cq8-45-q2 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Comic project due Friday; math quiz Thursday.

Question: How should due dates shape the week?

- A. Quiz prep before comic finishing '
- B. Only comic all week
- C. Ignore quiz
- D. Wait until Friday morning

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

143. cq8-45-q3 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden blocks: 4–4:30 math, 4:30–4:45 break, 4:45–5:05 reading.

Question: What is this called?

- A. Time blocking '
- B. Random guessing
- C. Permanent vacation
- D. Anti-homework

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

144. cq8-45-q4 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: He keeps checking messages during math.

Question: What protects the math block?

- A. Silence notifications until block ends '
- B. Check messages only at block breaks
- C. Use do-not-disturb during math
- D. Keep chat open and switch constantly

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

145. cq8-45-q5 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, guessable_without_scenario, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Reading is light; comic needs creativity. Energy is highest after snack.

Question: When should comic work go?

- A. After snack when energy is high '
- B. When he is exhausted
- C. Never
- D. During sleep

Reason: correct answer stands out too easily; guessable without reading scenario; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

146. cq8-45-q6 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Teacher moved comic deadline earlier. Math still due tomorrow.

Question: How should Caiden replan?

- A. Shrink comic scope tonight; keep math first '
- B. Drop math entirely
- C. Ignore new deadline
- D. Complain only

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

147. cq8-45-q7 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden estimates comic at 30 min; took 50 last time.

Question: What is realistic planning?

- A. Plan 50 minutes based on last time '
- B. Plan 5 minutes
- C. Never estimate
- D. Plan 0 minutes

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

148. cq8-45-q8 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks how Caiden avoided an all-nighter.

Question: Best answer?

- A. I spread tasks across days with a written plan '
- B. I used short daily blocks and adjusted once
- C. I asked for help when my estimate was off
- D. I waited until panic hour and improvised

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

149. cq8-68-q1 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Tasks: math set (45m), reading log (20m), comic script (60m), pack for camp (15m). Evening free: 90m.

Question: Strongest time-block plan?

- A. Math 45 + reading 20 + pack 15 = 80, comic tomorrow '

- B. Comic 60 only
- C. All four in 90 without cuts
- D. Pack only

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

150. cq8-68-q2 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden uses Pomodoro: 25 focus, 5 break. Math needs deep focus.

Question: How many focus blocks for 50-minute math?

- A. Two 25-minute focus blocks '
- B. One 5-minute block
- C. Ten breaks, zero focus
- D. Skip math

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

151. cq8-68-q3 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Group chat buzzes during reading. Reading quiz is tomorrow.

Question: What boundary shows maturity?

- A. Mute chat until reading block ends '
- B. Reply during a scheduled break instead
- C. Put phone away for one focused block
- D. Keep checking every message while reading

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

152. cq8-68-q4 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Comic script is creative; math is analytical. Energy dips after 8 p.m.

Question: How should he sequence?

- A. Math while fresh; comic earlier if possible '
- B. Hardest work at midnight
- C. Creative work when exhausted
- D. Random shuffle

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

153. cq8-68-q5 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden procrastinated comic; now two nights left.

Question: Best recovery plan?

- A. Minimum viable comic tonight + polish tomorrow '
- B. Pause and rebuild a smaller plan with one clear target
- C. Start an 80-page epic tonight
- D. Blame the calendar

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

154. cq8-68-q6 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Calendar shows: club Wed, camp pack Thu, comic Fri, math daily.

Question: What prevents Friday crunch?

- A. Draft comic Wed/Thu nights after math '
- B. Use two shorter draft sessions before Friday
- C. Block time and protect it from distractions
- D. Only work Friday 11 p.m.

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

155. cq8-68-q7 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Caiden tracks actual vs planned time for a week.

Question: Why track actual time?

- A. Improve future estimates and plans '
- B. Adjust next week's schedule with real data
- C. Spot where focus blocks were too short
- D. Ignore tracking and keep guessing

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

156. cq8-68-q8 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks for one habit that protects focus.

Question: Strongest habit?

- A. Start with hardest due task in a protected block '
- B. Use one protected block before checking messages
- C. Break large tasks into timed steps first
- D. Multitask five apps at once

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

157. cq9-k1-q1 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden is team leader. A teammate drops their craft supplies.

Question: What should Caiden say?

- A. "I can help you pick those up." '
- B. "Try picking up one side and I will get the other."
- C. "Let's ask a teammate to help us quickly."
- D. "Ignore it and leave the mess."

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for

help only after trying one small step

158. cq9-k1-q2 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Two friends argue about which path to take on the trail.

Question: How can Caiden help?

- A. Listen to both ideas, then suggest asking a counselor together
- B. Wait quietly and hope they figure it out
- C. Ask a counselor for help together '
- D. Pick one side and insult the other person

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

159. cq9-k1-q3 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious

Correct answer position: A

Scenario: A teammate feels nervous about the rope bridge.

Question: What should Caiden do?

- A. Encourage them and walk beside them '
- B. Say "hurry up!"
- C. Cross without them
- D. Make fun of them

Reason: correct answer stands out too easily; appropriate simplicity for K-1

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

160. cq9-k1-q4 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's team must carry a banner together.

Question: What makes a good leader here?

- A. Hold his side and cheer the team '
- B. Keep pace and check if teammates need support
- C. Coordinate steps so everyone lifts together
- D. Drop the banner and walk away

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for

help only after trying one small step

161. cq9-k1-q5 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks what leaders do.

Question: What is a good answer?

- A. Help the team and listen '
- B. Boss everyone meanly
- C. Only think about winning
- D. Ignore teammates

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

162. cq9-k1-q6 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden sees a teammate sitting alone at lunch.

Question: What should he do?

- A. Invite them to sit with the group '
- B. Point and laugh
- C. Ignore them
- D. Take their seat

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

163. cq9-k1-q7 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The team wins a small prize. Everyone helped.

Question: What should Caiden say?

- A. "Great job, team!" '
- B. "I did it all alone."
- C. "Prize is mine only."
- D. Say nothing

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

164. cq9-k1-q8 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden must pick a teammate to go first in a relay.

Question: Fair choice?

- A. Someone who has not gone first yet '
- B. Only his best friend always
- C. Himself every time
- D. Pick nobody

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

165. cq9-23-q1 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden and co-leader Mia must share jobs: timer, cheer, supplies.

Question: What shows sharing leadership?

- A. Split jobs clearly and thank Mia '
- B. Take every job
- C. Let Mia do everything
- D. Argue until time is up

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

166. cq9-23-q2 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Teammates disagree on flag color for their banner.

Question: How do leaders solve disagreements?

- A. Listen to both ideas, then vote or blend '
- B. Pick favorite friend's idea only
- C. Rip the banner
- D. Quit the team

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

167. cq9-23-q3 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate keeps interrupting instructions.

Question: What should Caiden say?

- A. "Let's hear the full directions, then your idea."
- B. "Hold that thought; we will come back to it next."
- C. "Can we take turns so everyone gets heard?"
- D. "I am done listening, figure it out yourselves."

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

168. cq9-23-q4 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, caiden_needs_more_math_focus

Correct answer position: A

Scenario: One teammate is great at drawing; another at measuring.

Question: How can Caiden help the team?

- A. Assign drawing and measuring to those strengths
- B. Pair strong and learning teammates by task
- C. Rotate jobs after each clear checkpoint
- D. Assign random jobs and skip planning

Reason: guessable without reading scenario

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

169. cq9-23-q5 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: The team is behind schedule.

Question: What should Caiden do first?

- A. Check the plan and assign quick next steps
- B. Panic and blame
- C. Give up

D. Start a new unrelated game

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

170. cq9-23-q6 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate says, "I cannot do it."

Question: Best response?

A. "Let's try one small part together." '

B. "Yes you can — go alone."

C. "You are out."

D. Ignore them

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

171. cq9-23-q7 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious

Correct answer position: A

Scenario: Caiden notices someone left out of a team photo.

Question: What shows responsibility?

A. Ask them to join before the photo '

B. Take photo without them

C. Laugh about it

D. Delete the photo

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

172. cq9-23-q8 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks what makes a good camp leader.

Question: Strongest answer?

- A. Listens, helps, and stays calm '
- B. Loudest voice wins
- C. Never asks for help
- D. Only cares about prizes

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

173. cq9-45-q1 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Two teammates argue about who carries the heavy water jug.

Question: How should Caiden resolve it?

- A. Suggest switching every few minutes '
- B. Let one person carry all day
- C. Drop the jug
- D. Leave team

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

174. cq9-45-q2 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Team challenge: build a raft. Ideas clash — tape vs rope design.

Question: What should Caiden do?

- A. Combine best parts and test a small model '
- B. Pick randomly
- C. Destroy both ideas
- D. Quit challenge

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

175. cq9-45-q3 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate made a mistake that slowed the team.

Question: What should Caiden say?

A. "Mistakes happen — let's fix it together." '

B. "You ruined everything."

C. Publicly shame them

D. Ignore the problem

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

176. cq9-45-q4 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden must delegate: navigator, builder, timekeeper.

Question: Best delegation?

A. Match roles to skills and confirm understanding '

B. Assign randomly without talking

C. Do all roles himself

D. Skip roles

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

177. cq9-45-q5 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Team morale drops after a lost round.

Question: What leadership move helps?

- A. Name one thing the team did well and next step '
- B. Complain about judges
- C. Give up
- D. Blame one person

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

178. cq9-45-q6 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden disagrees with a counselor's safety rule.

Question: What shows maturity?

- A. Ask respectfully why, then follow rule '
- B. Break rule to win
- C. Encourage team to break it
- D. Mock counselor

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

179. cq9-45-q7 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: Two quiet teammates have good ideas but do not speak up.

Question: How can Caiden help?

- A. Ask each for one idea in round-robin '
- B. Only call on loud members

C. Ignore quiet members

D. Finish without them

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

180. cq9-45-q8 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 4/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: B-4 debrief: how did Caiden handle disagreement?

Question: Best reflection?

A. We listened, blended ideas, and tried a test '

B. We paused, clarified goals, and chose one next step

C. We had no plan

D. We blamed each other and stopped

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

181. cq9-68-q1 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Team must cross a puzzle bridge in 15 minutes. Skills vary widely.

Question: How should Caiden coordinate?

A. Assign sub-teams with clear checkpoints '

B. Everyone does random tasks

C. Leader does everything

D. Skip puzzle

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

182. cq9-68-q2 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Teammate wants to shortcut a safety checkpoint.

Question: What should Caiden do?

- A. Hold the line on safety and explain why '
- B. Allow shortcut to win
- C. Mock safety rules
- D. Leave team

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

183. cq9-68-q3 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Conflict: two strong planners both want to direct.

Question: Best leadership judgment?

- A. Split phases: one plans route, one plans gear '
- B. Let them argue
- C. Remove both
- D. Cancel mission

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

184. cq9-68-q4 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Team receives unclear instructions from staff.

Question: What should Caiden do?

- A. Ask staff to repeat and confirm with team '
- B. Guess and rush
- C. Blame teammates
- D. Ignore instructions

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

185. cq9-68-q5 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate is upset after harsh feedback from another member.

Question: How should Caiden respond?

- A. Private check-in, then facilitate calm talk '
- B. Ignore feelings
- C. Take sides publicly
- D. Kick someone off team

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

186. cq9-68-q6 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: Resources scarce: one extra rope, two possible uses.

Question: Decision process?

- A. Score options by safety and mission goal '
- B. Check risk, usefulness, then decide as a team
- C. Ask one clarifying question before choosing
- D. Choose randomly and skip safety review

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

187. cq9-68-q7 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden's team finishes early. Another team struggles nearby.

Question: What shows leadership?

- A. Offer one helper if staff approves '
- B. Taunt other team
- C. Pack up silently
- D. Take their supplies

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

188. cq9-68-q8 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: B-4 asks how leaders solve disagreements.

Question: Best summary?

- A. Loudest person decides
- B. Listen, clarify goals, agree on a testable plan '
- C. Take a breath and ask each person for one solution
- D. Walk away so the conflict grows

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

CHARLIE — Detailed Audit

1. cm1-k1-q1 (charlie · week 1 · K-1)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: What should Charlie do first?

- A. Look closely at the footprints '
- B. Look from the path and avoid disturbing clues
- C. Blame the hamster
- D. Step on the footprints

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. cm1-k1-q2 (charlie · week 1 · K-1)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Charlie sees the footprints go toward the lettuce. What did he notice?

- A. The tracks lead to the snack spot '
- B. The lettuce is singing
- C. The garden is on vacation
- D. The tracks are faint and need closer observation

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

3. cm1-k1-q3 (charlie · week 1 · K-1)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Charlie finds a tiny feather near the footprints. What should he do?

- A. Show a grown-up the clue without touching it '
- B. Mark the spot and show a grown-up
- C. Leave it where it is and document it

D. Use it as a pencil

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. cm1-23-q1 (charlie · week 1 · 2-3)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: What clue should Charlie compare?

- A. The shape of the footprints '
- B. The color of Charlie's shoes
- C. The lunch menu
- D. The sound of the bell

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

5. cm1-23-q2 (charlie · week 1 · 2-3)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Charlie finds big footprints AND small footprints. What should he compare?

- A. The size and shape of each set '
- B. Which footprint is louder
- C. Which one tastes better
- D. Which one is newer than tomorrow

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

6. cm1-23-q3 (charlie · week 1 · 2-3)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: The footprints have three pointy marks. What might that mean?

- A. The animal might have three toes or claws '
- B. The animal definitely wears sneakers
- C. The garden made the marks for fun
- D. Three footprints means three hamsters

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

7. cm1-45-q1 (charlie · week 1 · 4-5)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Why should Charlie write down what he sees?

- A. So he can compare evidence later '
- B. So the footprints look cooler
- C. So he can skip the mystery
- D. So the garden feels famous

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

8. cm1-45-q2 (charlie · week 1 · 4-5)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Charlie draws the footprint shape in his notebook. Why is that smart?

- A. So he can compare it to animal track guides later '
- B. So the drawing wins an art contest
- C. So the footprints disappear
- D. So he can compare clues after leaving the scene

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

9. cm1-45-q3 (charlie · week 1 · 4-5)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: recall · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Before guessing who made the tracks, what else should Charlie record?

- A. Where the tracks start and end '
- B. His favorite sandwich
- C. How loud the hallway is
- D. The hamster's mood

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

10. cm1-68-q1 (charlie · week 1 · 6-8)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: What makes Charlie's conclusion stronger?

- A. Multiple pieces of matching evidence '
- B. The funniest theory
- C. The first idea he has
- D. A guess from across the playground

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

11. cm1-68-q2 (charlie · week 1 · 6-8)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Charlie finds footprints, nibbled lettuce, and a trail of seeds. What strengthens his case?

- A. All three clues point to the same kind of visitor '
- B. Three clues means three separate mysteries
- C. Seeds mean someone planted a garden inside the garden
- D. Lettuce crumbs prove the hamster is guilty

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

12. cm1-68-q3 (charlie · week 1 · 6-8)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: A classmate says, "Definitely the hamster!" What should Charlie ask?

- A. What evidence supports that theory? '
- B. Who has the funniest guess?
- C. Can we vote on it?
- D. Does the hamster look guilty?

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

13. cm2-k1-q1 (charlie · week 2 · K-1)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: What changed in Charlie's experiment?

- A. The bowl was in the same place
- B. The orange peel came off '
- C. Charlie used the same water
- D. Nothing changed at all

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

14. cm2-k1-q2 (charlie · week 2 · K-1)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: The whole orange floated. The peeled orange sank. What should Charlie notice?

- A. The orange acted differently after peeling '

- B. The water got tired
- C. One test is not enough to prove it every time
- D. Peeling made the bowl bigger

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

15. cm2-k1-q3 (charlie · week 2 · K-1)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: Charlie wants to try again. What should he change?

- A. Try a different bowl and different water together
- B. Wait and hope the result changes by itself
- C. Only one thing, like peeling or not peeling '
- D. Skip testing and guess

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

16. cm2-23-q1 (charlie · week 2 · 2-3)

Mission: The Floating Orange [charlie-floating-orange]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: What should Charlie do before dropping the peeled orange?

- A. Make a prediction '
- B. Repeat the test with one small change
- C. Ask a classmate to help check the setup
- D. Start a new mystery

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

17. cm2-23-q2 (charlie · week 2 · 2-3)

Mission: The Floating Orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: Charlie predicts the peeled orange will sink. Why is that a good prediction?

- A. It is based on what he already saw happen '
- B. It is the silliest guess
- C. It ignores the first test
- D. It changes two things at once

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

18. cm2-23-q3 (charlie · week 2 · 2-3)

Mission: The Floating Orange [charlie-floating-orange]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: joke_or_impossible_distractor

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: The peeled orange sank again. What should Charlie do next?

- A. Think about why peeling might matter '
- B. Pause and choose one new thing to test
- C. Say water is broken
- D. Write the result down and test again

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. cm2-45-q1 (charlie · week 2 · 4-5)

Mission: The Floating Orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: C

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: Why might the unpeeled orange float better?

- A. The orange is more colorful before peeling
- B. The bowl is extra full
- C. The peel can trap tiny pockets of air '
- D. Floating depends on luck each time

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

20. cm2-45-q2 (charlie · week 2 · 4-5)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: When Charlie removes the peel, what might he also remove?

- A. Some of the air pockets that helped it float '
- B. The orange's ability to be round
- C. All the water in the bowl
- D. The classroom lights

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

21. cm2-45-q3 (charlie · week 2 · 4-5)

Mission: The Floating Orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: Charlie tests a peeled orange and an unpeeled orange in the same bowl. Why is that fair?

- A. Only the peel is different — everything else stays the same '
- B. He used two different bowls on purpose
- C. He changed the water and the peel
- D. He only tested once

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

22. cm2-68-q1 (charlie · week 2 · 6-8)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: What variable did Charlie change?

- A. Whether the orange had a peel '
- B. How much water was in the bowl
- C. The temperature of the water
- D. Whether both oranges were the same size

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

23. cm2-68-q2 (charlie · week 2 · 6-8)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: Which hypothesis best fits Charlie's results?

- A. The orange floated because Charlie watched carefully
- B. Peeling changes how water and air interact with the orange
- C. The peel helps trap air, which affects whether the orange floats '
- D. The result cannot be explained with evidence

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

24. cm2-68-q3 (charlie · week 2 · 6-8)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Charlie drops an orange into water. It floats. Then he peels it, drops it again, and makes a face like the orange just revealed a secret.

Question: Charlie wants to test his hypothesis again. What should stay constant?

- A. The same bowl, water level, and orange size '
- B. A different fruit, bowl, and room each time
- C. Only the hypothesis — change everything else
- D. Use the same setup so the result is comparable

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

25. cm3-k1-q1 (charlie · week 3 · K-1)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: joke_or_impossible_distractor

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: What should Charlie do when he hears the squeak?

- A. Stop and listen carefully '
- B. Scream "ghost cabinet"
- C. Cover every window
- D. Blame his backpack

Reason: joke distractors reduce challenge; appropriate simplicity for K-1

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

26. cm3-k1-q2 (charlie · week 3 · K-1)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: The squeak sounds like it comes from the back corner. What should Charlie do?

- A. Look toward where the sound came from '
- B. Close his eyes and run
- C. Make a louder squeak
- D. Ignore the sound completely

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

27. cm3-k1-q3 (charlie · week 3 · K-1)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: Charlie hears the squeak again. What is he collecting?

- A. Clues about the sound '
- B. Lunch menus
- C. New jokes
- D. Extra homework

Reason: correct answer stands out too easily; appropriate simplicity for K-1

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

28. cm3-23-q1 (charlie · week 3 · 2-3)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: What can help Charlie solve the sound?

- A. Notice when it happens '
- B. Guess without listening
- C. Make a louder sound
- D. Take a breath and keep listening for the pattern

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

29. cm3-23-q2 (charlie · week 3 · 2-3)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: The squeak happens right after someone opens a cabinet. What should Charlie notice?

- A. The sound might be connected to the cabinet '
- B. The cabinet movement might be connected, so test it
- C. Opening things is illegal in science club
- D. The squeak only happens on Tuesdays in space

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

30. cm3-23-q3 (charlie · week 3 · 2-3)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: Charlie writes down each time he hears the squeak. Why?

- A. So he can spot a pattern '

- B. So the sound gets embarrassed
- C. So science club ends faster
- D. So nobody has to listen

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

31. cm3-45-q1 (charlie · week 3 · 4-5)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: Charlie hears the squeak every time the fan turns on. What does that tell him?

- A. The fan may be connected to the sound '
- B. The sound loves science club
- C. The floor is telling jokes
- D. The fan is definitely innocent

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

32. cm3-45-q2 (charlie · week 3 · 4-5)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: The squeak only happens when the fan wobbles. What is Charlie tracking?

- A. A pattern between movement and sound '
- B. Whether the fan or cabinet moved right before the squeak
- C. Whether the same trigger happened each time
- D. Whether ghosts prefer fans

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

33. cm3-45-q3 (charlie · week 3 · 4-5)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: A friend says the cabinet is haunted. What pattern evidence does Charlie have?

- A. The squeak matches the fan turning on, not the cabinet opening '
- B. The cabinet has a spooky label
- C. Nobody likes the cabinet
- D. The cabinet is the tallest furniture

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

34. cm3-68-q1 (charlie · week 3 · 6-8)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: What is the best evidence-based next step?

- A. Test whether the sound stops when the fan is off '
- B. Test the likely source before concluding
- C. Ignore the pattern
- D. Ask everyone to talk louder

Reason: inference at upper band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

35. cm3-68-q2 (charlie · week 3 · 6-8)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: Charlie turns off the fan and the squeak stops. What can he conclude?

- A. The fan was likely connected to the sound '
- B. The cabinet ghost took a break
- C. The fan setup likely needs adjustment or maintenance
- D. Patterns are not useful

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

36. cm3-68-q3 (charlie · week 3 · 6-8)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, insufficient_scenario_evidence

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: Why is "notice when it happens" stronger than "it happens sometimes"?

- A. Timing helps link the sound to a specific cause '
- B. Timing makes the sound scarier
- C. Timing means you can ignore the sound
- D. Timing only matters for music class

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

37. cm4-k1-q1 (charlie · week 4 · K-1)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: What should Charlie do next?

- A. Try again with help '
- B. Throw the volcano away
- C. Do one small change and test again
- D. Dump random supplies in at once

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

38. cm4-k1-q2 (charlie · week 4 · K-1)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Charlie's volcano made one tiny bubble. Is that a failure?

- A. No — it tells Charlie what to try next '
- B. No — one small result can still guide the next test
- C. No — it means the setup needs a better next step
- D. No — even tiny bubbles are useful evidence

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

39. cm4-k1-q3 (charlie · week 4 · K-1)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: recall · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Charlie wants a bigger reaction. Who should help him stay safe?

- A. A teacher or grown-up '
- B. Nobody — pour everything fast
- C. The volcano itself
- D. A teacher or lab helper nearby

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

40. cm4-23-q1 (charlie · week 4 · 2-3)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: What is the smart way to improve the volcano?

- A. Change one ingredient amount at a time '
- B. Change everything at once
- C. Stop measuring
- D. Change one measured amount at a time

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

41. cm4-23-q2 (charlie · week 4 · 2-3)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Charlie adds a little more vinegar and gets more bubbles. What should he do?

- A. Remember that change worked and try the next small tweak '
- B. Add every liquid in the room
- C. Stop testing because one bubble is enough
- D. Record the result and discuss the next test

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

42. cm4-23-q3 (charlie · week 4 · 2-3)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Why should Charlie not change vinegar AND baking soda at the same time?

- A. He would not know which change caused the result '
- B. Volcanoes only allow one ingredient total
- C. Measuring is boring
- D. Bubbles hate pairs of changes

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

43. cm4-45-q1 (charlie · week 4 · 4-5)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Why should Charlie measure the baking soda and vinegar?

- A. So he can compare what works best '
- B. So he can repeat the same test later
- C. So he can share clear results with teammates
- D. So testing is no longer needed

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

44. cm4-45-q2 (charlie · week 4 · 4-5)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Test A: 1 spoon baking soda, small bubble. Test B: 2 spoons, bigger bubble. What did Charlie learn?

- A. More baking soda might improve the reaction '
- B. He should repeat the test to confirm the pattern
- C. He may need to test vinegar next in a separate round
- D. Amount changes can never affect bubbles

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

45. cm4-45-q3 (charlie · week 4 · 4-5)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Charlie keeps a chart of each volcano try. Why is that useful?

- A. He can see which amounts gave the best eruption '
- B. Charts make volcanoes erupt automatically
- C. Charts replace safety rules
- D. Charts help him choose the next revision

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

46. cm4-68-q1 (charlie · week 4 · 6-8)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Charlie wants a stronger eruption. What should he keep the same?

- A. All variables except the one he is testing '
- B. Nothing at all
- C. Only the volcano name
- D. The funniest guess

Reason: correct answer stands out too easily; thin scenario for inference; too easy for grades 4+; inference at upper band

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

47. cm4-68-q2 (charlie · week 4 · 6-8)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: answer_length_imbalance, lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Charlie tests more vinegar while keeping baking soda and cup size the same. What is he doing?

- A. Testing one independent variable while controlling others '
- B. Changing every variable at once
- C. Avoiding measurement on purpose
- D. Running an unfair test

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

48. cm4-68-q3 (charlie · week 4 · 6-8)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: Three tries with the same weak bubble. What is the best scientific response?

- A. Analyze the data, adjust one variable, and test again '
- B. Keep one setup detail the same and test a new single change
- C. Ask for help reviewing the data before the next try
- D. Change every variable at once and guess

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

49. cm5-k1-q1 (charlie · week 5 · K-1)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: What does Charlie check first?

- A. If the plant got water and light '
- B. If the plant likes jokes
- C. If the pencil is tired
- D. If the wall is green

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

50. cm5-k1-q2 (charlie · week 5 · K-1)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: One plant has dry soil. What might have happened?

- A. It did not get enough water '
- B. It ate too much lunch
- C. It stayed up too late watching TV
- D. It turned into a pencil

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

51. cm5-k1-q3 (charlie · week 5 · K-1)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: Charlie waters the dry plant. What is he testing?

- A. Whether water helps the sad plant '
- B. Whether the plant got enough light too
- C. Whether soil likes colors
- D. Whether desks need water

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

52. cm5-23-q1 (charlie · week 5 · 2-3)

Mission: The Missing Plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: One plant is near the window and one is in the dark corner. What should Charlie notice?

- A. Light may be making a difference '
- B. The dark corner is cooler at games
- C. The window plant is showing off
- D. The plants are racing

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

53. cm5-23-q2 (charlie · week 5 · 2-3)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: The happy plant gets watered on schedule. The sad one was skipped twice. What might be the cause?

- A. The plant by the window might have extra light too
- B. Missing water could be hurting the sad plant '
- C. Both water and light should be checked one at a time
- D. Plant health is always random

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

54. cm5-23-q3 (charlie · week 5 · 2-3)

Mission: The Missing Plant [charlie-missing-plant]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: Charlie moves the sad plant closer to the window for one week. Why?

- A. To test if more light helps it recover '
- B. To make the plant famous

C. To keep conditions the same except light

D. To see if plants like field trips

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

55. cm5-45-q1 (charlie · week 5 · 4-5)

Mission: The Missing Plant [charlie-missing-plant]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: What evidence helps Charlie explain the wilted plant?

A. Differences in water, light, or soil '

B. The plant's favorite song

C. Charlie's lunch choice

D. The color of the desk

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

56. cm5-45-q2 (charlie · week 5 · 4-5)

Mission: The Missing Plant [charlie-missing-plant]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: The wilted plant's soil is dry AND it sits in shade. What should Charlie do first?

A. Test one change at a time — water OR light '

B. Change water, light, soil, and pot all at once

C. Decide the plant is hopeless

D. Only measure desk height

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

57. cm5-45-q3 (charlie · week 5 · 4-5)

Mission: The Missing Plant [charlie-missing-plant]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: After Charlie adds water, the plant perks up a little. What does that suggest?

- A. Lack of water was at least part of the cause '
- B. Water can be one key factor to test first
- C. The plant was pretending
- D. Light does not matter at all

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

58. cm5-68-q1 (charlie · week 5 · 6-8)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: What is the best investigation plan?

- A. Compare environmental conditions and change one factor at a time '
- B. Keep one plant as a comparison while testing one change
- C. Collect data before deciding the cause
- D. Stop observing after one day

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

59. cm5-68-q2 (charlie · week 5 · 6-8)

Mission: The Missing Plant [charlie-missing-plant]

Type: math · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, insufficient_scenario_evidence

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: Charlie records light hours, water amount, and soil moisture for both plants. Why?

- A. To compare conditions and spot which factor changed '
- B. To write a plant report card
- C. To prove plants have opinions
- D. To avoid testing anything

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

60. cm5-68-q3 (charlie · week 5 · 6-8)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Two classroom plants started the same. One is thriving. One looks like it just heard bad news. Charlie investigates what changed.

Question: A classmate says the sad plant is "just dramatic." What is Charlie's best response?

- A. Show the data on water and light differences '
- B. Agree without checking anything
- C. Ignore both plants
- D. Use observations instead of labels

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

61. cm6-k1-q1 (charlie · week 6 · K-1)

Mission: Robot Rescue [charlie-robot-rescue]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: What should Charlie check first?

- A. One robot part at a time '
- B. Shake the robot
- C. Call it a spaghetti machine
- D. Check battery connection after checking wheels

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

62. cm6-k1-q2 (charlie · week 6 · K-1)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Charlie checks the wheels. One looks loose. What should he do?

- A. Ask a grown-up to help tighten it safely '

- B. Pull the wheel off completely
- C. Ignore it and spin faster
- D. Paint the wheel a new color

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

63. cm6-k1-q3 (charlie · week 6 · K-1)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: After fixing the wheel, the robot goes straight. What did Charlie do?

- A. Found the problem and tested a fix '
- B. Tested one fix and observed the result
- C. Gave up without trying
- D. Changed every part at once

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

64. cm6-23-q1 (charlie · week 6 · 2-3)

Mission: Robot Rescue [charlie-robot-rescue]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Why should Charlie test one fix at a time?

- A. So he knows which fix worked '
- B. So he can compare results across each fix
- C. So he can guess faster
- D. So the wheels get dizzy

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

65. cm6-23-q2 (charlie · week 6 · 2-3)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Charlie swaps the left and right wheel cables. The robot still spins. What did he learn?

- A. That fix did not solve the problem '
- B. That cable swap alone was not the root issue
- C. He should test the next likely cause
- D. Debugging is useless

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

66. cm6-23-q3 (charlie · week 6 · 2-3)

Mission: Robot Rescue [charlie-robot-rescue]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Charlie writes down each fix he tries. Why?

- A. So he remembers what already failed or worked '
- B. So he can avoid repeating the same failed step
- C. So he can choose the next test based on evidence
- D. So the notebook gets heavier

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

67. cm6-45-q1 (charlie · week 6 · 4-5)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: The robot turns right when both wheels should move forward. What should Charlie inspect?

- A. The wheel or motor connection '
- B. The classroom clock
- C. The color of the robot
- D. The snack table

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

68. cm6-45-q2 (charlie · week 6 · 4-5)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: answer_length_imbalance, lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Charlie notices the right motor wire is unplugged. What is the likely cause?

- A. Only the left motor is getting power, so the robot turns '
- B. One side likely has weaker power or connection
- C. Motors work better when unplugged
- D. The wire is decorative

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

69. cm6-45-q3 (charlie · week 6 · 4-5)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Charlie plugs in the wire and tests again. The robot drives forward. What step is that?

- A. Observe the result after a fix '
- B. Skip testing and celebrate
- C. Change five more parts
- D. Run one more check to confirm the fix is stable

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

70. cm6-68-q1 (charlie · week 6 · 6-8)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: What is the strongest debugging process?

- A. Identify the problem, test one cause, observe the result '

- B. Change five things and hope
- C. Restart once, then verify one component at a time
- D. Use observations instead of assumptions

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

71. cm6-68-q2 (charlie · week 6 · 6-8)

Mission: Robot Rescue [charlie-robot-rescue]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Charlie's robot spins left. He checks: power, wheel connection, motor wire, and code. Which order is best?

- A. Start with simple physical checks before changing code '
- B. Change code first, ignore hardware
- C. Check everything randomly
- D. Check known failure points before less likely causes

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

72. cm6-68-q3 (charlie · week 6 · 6-8)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance, lacks_reasoning_skill

Correct answer position: A

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices."

Question: Two fixes did not work. One fix made the robot go straight. What should Charlie document?

- A. Which fix worked and what the symptom was before and after '
- B. Which test changed behavior and which did not
- C. Nothing — move on
- D. A short log so future troubleshooting is faster

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

73. cm7-k1-q1 (charlie · week 7 · K-1)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: What should Charlie's team do if the tower falls?

- A. Try again together '
- B. Pause and rebuild with one change
- C. Blame the marshmallow
- D. Eat the whole tower

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

74. cm7-k1-q2 (charlie · week 7 · K-1)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: One teammate holds the base while another adds sticks. What are they doing?

- A. Working together to keep the tower steady '
- B. Hiding marshmallows from the teacher
- C. Competing to eat the fastest
- D. Ignoring the tower completely

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

75. cm7-k1-q3 (charlie · week 7 · K-1)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: The tower leans a little. What should the team do?

- A. Notice the wobble and fix the bottom '
- B. Add more height right away
- C. Knock it down for fun
- D. Pretend it is not leaning

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

76. cm7-23-q1 (charlie · week 7 · 2-3)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: What helps the team improve the tower?

- A. Notice what made it fall '
- B. Build the same thing again without looking
- C. Argue about whose marshmallow is best
- D. Close their eyes

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

77. cm7-23-q2 (charlie · week 7 · 2-3)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: Charlie suggests a wider base. His teammate adds diagonal sticks. What is happening?

- A. The team is combining ideas to make a stronger design '
- B. They are ignoring each other
- C. They are building two separate towers
- D. They forgot the assignment

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

78. cm7-23-q3 (charlie · week 7 · 2-3)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: Version 1 fell. Version 2 stood taller but wobbled. What should Version 3 focus on?

- A. Stability before adding more height '
- B. Being the tallest immediately

C. Using fewer sticks on purpose

D. Stopping after Version 1

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

79. cm7-45-q1 (charlie · week 7 · 4-5)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: Why should Charlie test a small tower before making it taller?

A. To find weak spots early '

B. To make the sticks nervous

C. To avoid teamwork

D. To learn what fails before full height attempts

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

80. cm7-45-q2 (charlie · week 7 · 4-5)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: A teammate notices the middle joint is loose. What should the team do?

A. Use the feedback and reinforce that joint '

B. Ignore the comment and build higher

C. Argue until time runs out

D. Start over without talking

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

81. cm7-45-q3 (charlie · week 7 · 4-5)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: The team's tallest try fell. Their medium try stayed up. What is the smart next step?

- A. Build on the stable medium design and improve it '
- B. Only chase height without stability
- C. Stop iterating
- D. Document what was stable in the medium try

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

82. cm7-68-q1 (charlie · week 7 · 6-8)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: What is the best design strategy?

- A. Build a prototype, test it, revise the design '
- B. Start with one idea, then revise from test results
- C. Make it tall before making it stable
- D. Ignore feedback

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

83. cm7-68-q2 (charlie · week 7 · 6-8)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: Charlie's team documents each version: height, wobble, and what changed. Why?

- A. To compare prototypes and choose the best next revision '
- B. To impress the marshmallows
- C. To avoid building anything
- D. Because towers require poetry

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

84. cm7-68-q3 (charlie · week 7 · 6-8)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: One teammate wants height, another wants stability. What is the best team move?

- A. Test a prototype that balances both, then revise '
- B. Split up and build competing towers silently
- C. Only build for height
- D. Give up because ideas differ

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

85. cm8-k1-q1 (charlie · week 8 · K-1)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: Which project should Charlie trust more?

- A. The one that watched carefully and kept track '
- B. The one with the biggest poster
- C. The one with the funniest title
- D. The one closest to snacks

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

86. cm8-k1-q2 (charlie · week 8 · K-1)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: One student measured plant height every day. Why is that helpful?

- A. It shows what changed over time '
- B. It makes the plant taller instantly

- C. It replaces watering
- D. It turns plants into music fans

Reason: thin scenario for inference; appropriate simplicity for K-1

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

87. cm8-k1-q3 (charlie · week 8 · K-1)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: A project says "music wins" but nobody wrote anything down. What should Charlie think?

- A. That is not strong evidence '
- B. It must be true because it sounds exciting
- C. Claims need notes and measurements to be trusted
- D. Snacks prove the result

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

88. cm8-23-q1 (charlie · week 8 · 2-3)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: What makes a science fair test fair?

- A. Testing things the same way except for one change '
- B. Changing everything
- C. Picking the answer first
- D. Only writing down exciting results

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

89. cm8-23-q2 (charlie · week 8 · 2-3)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: Project A gave both plants the same water and light. Project B did not. Which is fairer?

- A. Project A — both plants were treated the same except music '
- B. Project B is weaker because conditions changed unpredictably
- C. Neither — fair tests do not exist
- D. Both — if the poster is big enough

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

90. cm8-23-q3 (charlie · week 8 · 2-3)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: One project tested three plants with music and three in silence. Why is that better than one plant each?

- A. More plants give stronger evidence '
- B. Plants perform better in groups for applause
- C. Larger samples reduce one-plant luck effects
- D. Three plants means three posters

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

91. cm8-45-q1 (charlie · week 8 · 4-5)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: What should Charlie compare?

- A. The evidence and how each test was done '
- B. Poster glitter levels
- C. Who talked louder
- D. Which plant looked cooler

Reason: correct answer stands out too easily; thin scenario for inference; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

92. cm8-45-q2 (charlie · week 8 · 4-5)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: The music project kept a chart of heights. The silence project only has a drawing. Which evidence is stronger?

- A. The chart with measured data '
- B. The drawing with no measurements
- C. Both are equal because art is science
- D. Neither — guess based on favorite song

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

93. cm8-45-q3 (charlie · week 8 · 4-5)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: Both projects ran two weeks. One changed water amounts halfway through. Why does that matter?

- A. Changing water mid-test makes the results less fair '
- B. Water changes make posters shinier
- C. It does not matter at all
- D. Plants prefer surprise water

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

94. cm8-68-q1 (charlie · week 8 · 6-8)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: Which claim is strongest?

- A. The claim supported by repeated, fair evidence '
- B. The claim with the most confident speaker
- C. The claim that sounds surprising
- D. The claim with no measurements

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

95. cm8-68-q2 (charlie · week 8 · 6-8)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: The music project tested 6 plants with controlled light, water, and soil. The silence project used 1 plant near a window. What is Charlie's best critique?

- A. The music project has stronger sample size and controlled variables '
- B. The silence project wins because it is simpler
- C. Sample size matters when judging reliability
- D. Window location does not affect plants

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

96. cm8-68-q3 (charlie · week 8 · 6-8)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two science fair projects claim opposite results. One says plants grow better with music. Another says silence wins. Charlie has to judge the evidence without making the plants perform a concert.

Question: A judge says, "I love music, so the music project wins." What should Charlie argue?

- A. Personal preference is not the same as scientific evidence '
- B. Judges should score based on evidence quality
- C. Loud opinions are better than data
- D. Evidence only matters for grown-ups

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

MIRANDA — Detailed Audit

1. ms-k1-q1 (miranda · week 1 · K-1)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: What was missing from the board?

- A. A backpack
- B. The schedule card '
- C. A lunch box
- D. A pencil

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

2. ms-k1-q2 (miranda · week 1 · K-1)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: Where did Miranda find the card?

- A. Under the folders '
- B. In the cafeteria
- C. On the playground
- D. In a backpack

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

3. ms-k1-q3 (miranda · week 1 · K-1)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, insufficient_scenario_evidence

Correct answer position: B

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: Why were the students confused?

- A. They were tired
- B. They did not know what was next '
- C. They lost pencils

D. They wanted lunch

Reason: correct answer stands out too easily; thin scenario for inference

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

4. ms-23-q1 (miranda · week 1 · 2-3)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Before the Focus Flame activity began, students kept asking, "What are we doing next?" Miranda looked at the front board. The morning schedule card was missing. She remembered seeing the teacher carry a stack of folders near the reading table. Miranda checked near the folders and found the schedule card tucked underneath.

Question: What was missing from the board?

- A. A backpack
- B. The schedule card
- C. A lunch box
- D. A pencil

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

5. ms-23-q2 (miranda · week 1 · 2-3)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Before the Focus Flame activity began, students kept asking, "What are we doing next?" Miranda looked at the front board. The morning schedule card was missing. She remembered seeing the teacher carry a stack of folders near the reading table. Miranda checked near the folders and found the schedule card tucked underneath.

Question: Where did Miranda find the missing card?

- A. Under the folders
- B. In the cafeteria
- C. Inside a backpack
- D. On the playground

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

6. ms-23-q3 (miranda · week 1 · 2-3)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Before the Focus Flame activity began, students kept asking, "What are we doing next?" Miranda looked at the front board. The morning schedule card was missing. She remembered seeing the teacher carry a stack of folders near the reading table. Miranda checked near the folders and found the schedule card tucked underneath.

Question: Why were the students confused?

- A. They were tired
- B. They did not know what was next '
- C. They lost their pencils
- D. They wanted lunch

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

7. ms-45-q1 (miranda · week 1 · 4-5)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Before the Focus Flame activity began, Miranda noticed the classroom felt unsettled. Several students asked, "What are we doing next?" The morning schedule card was no longer posted on the board. Miranda remembered seeing the teacher carry a stack of folders from the board area to the reading table. Instead of interrupting the class, Miranda scanned the room and found one corner of the schedule card tucked beneath the folders.

Question: What detail first helped Miranda understand the problem?

- A. Students were asking what came next '
- B. The teacher was absent
- C. The lights were off
- D. Students were running outside

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

8. ms-45-q2 (miranda · week 1 · 4-5)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Before the Focus Flame activity began, Miranda noticed the classroom felt unsettled. Several students asked, "What are we doing next?" The morning schedule card was no longer posted on the board. Miranda remembered seeing the teacher carry a stack of folders from the board area to the reading table. Instead of interrupting the class, Miranda scanned the room and found one corner of the schedule card tucked beneath the folders.

Question: Which evidence helped Miranda find the schedule card?

- A. A noise in the hallway
- B. The teacher carrying folders from the board area '
- C. A student pointing at the playground
- D. A note on the door

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

9. ms-45-q3 (miranda · week 1 · 4-5)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Before the Focus Flame activity began, Miranda noticed the classroom felt unsettled. Several students asked, "What are we doing next?" The morning schedule card was no longer posted on the board. Miranda remembered seeing the teacher carry a stack of folders from the board area to the reading table. Instead of interrupting the class, Miranda scanned the room and found one corner of the schedule card tucked beneath the folders.

Question: What character trait did Miranda use?

- A. Careful observation '
- B. Anger
- C. Guessing
- D. Avoiding the problem

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

10. ms-68-q1 (miranda · week 1 · 6-8)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: B

Scenario: At the start of the Focus Flame activity, Miranda observed that several students seemed uncertain about the classroom routine. The daily schedule card, which usually helped students prepare for transitions, was no longer displayed. Miranda reconstructed the sequence of events: the teacher had gathered materials near the board, carried folders to the reading table, and then started the activity. Based on the position of the folders and the partially visible corner of the card, Miranda inferred that the schedule card had been moved accidentally.

Question: Which evidence best supports Miranda's conclusion?

- A. Students were sitting quietly
- B. The schedule card was partly visible beneath the folders '
- C. The cafeteria was closed
- D. The clock was broken

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

11. ms-68-q2 (miranda · week 1 · 6-8)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: At the start of the Focus Flame activity, Miranda observed that several students seemed uncertain about the classroom routine. The daily schedule card, which usually helped students prepare for transitions, was no longer displayed. Miranda reconstructed the sequence of events: the teacher had gathered materials near the board, carried folders to the reading table, and then started the activity. Based on the position of the folders and the partially visible corner of the card, Miranda inferred that the schedule card had been moved accidentally.

Question: Why does the missing schedule matter?

- A. It makes transitions less predictable '
- B. It makes the room colder
- C. It changes lunch time
- D. It helps students ignore directions

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

12. ms-68-q3 (miranda · week 1 · 6-8)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: At the start of the Focus Flame activity, Miranda observed that several students seemed uncertain about the classroom routine. The daily schedule card, which usually helped students prepare for transitions, was no longer displayed. Miranda reconstructed the sequence of events: the teacher had gathered materials near the board, carried folders to the reading table, and then started the activity. Based on the position of the folders and the partially visible corner of the card, Miranda inferred that the schedule card had been moved accidentally.

Question: What does “inferred” mean in this passage?

- A. Guessed without evidence
- B. Used clues to reach a conclusion '
- C. Asked someone to leave
- D. Forgot important details

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

13. mst-k1-q1 (miranda · week 2 · K-1)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Miranda counted the line. Caiden was missing. She saw his jacket on a chair and told the facilitator.

Question: Who was missing from the line?

- A. Miranda
- B. Caiden '
- C. The teacher
- D. Nobody

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

14. mst-k1-q2 (miranda · week 2 · K-1)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda counted the line. Caiden was missing. She saw his jacket on a chair and told the facilitator.

Question: What did Miranda see on the chair?

- A. Caiden's jacket '
- B. A sandwich
- C. A basketball
- D. A notebook only

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

15. mst-k1-q3 (miranda · week 2 · K-1)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Miranda counted the line. Caiden was missing. She saw his jacket on a chair and told the facilitator.

Question: What safe choice did Miranda make?

- A. She told the facilitator '
- B. She ran away alone
- C. She hid
- D. She ignored it

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps

a little but misses the main goal | Select an option that delays the decision

16. mst-23-q1 (miranda · week 2 · 2-3)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden was not in the line after the ceremony. Miranda looked around carefully. She saw Caiden's notebook on a chair and heard a sound near the hallway. Miranda told an adult and walked with the group to check safely.

Question: Who was missing from the line?

- A. Miranda
- B. Caiden '
- C. B-4
- D. Charlie

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

17. mst-23-q2 (miranda · week 2 · 2-3)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden was not in the line after the ceremony. Miranda looked around carefully. She saw Caiden's notebook on a chair and heard a sound near the hallway. Miranda told an adult and walked with the group to check safely.

Question: What did Miranda see on the chair?

- A. Caiden's notebook '
- B. A snack
- C. A toy
- D. A jacket

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

18. mst-23-q3 (miranda · week 2 · 2-3)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Caiden was not in the line after the ceremony. Miranda looked around carefully. She saw Caiden's notebook on a chair and heard a sound near the hallway. Miranda told an adult and walked with the group to check safely.

Question: What safe choice did Miranda make?

- A. She ran alone
- B. She told an adult '
- C. She waited nearby and hoped someone else noticed
- D. She ignored it

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

19. mst-45-q1 (miranda · week 2 · 4-5)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: After the ceremony, Miranda noticed Caiden was no longer standing with the group. His notebook was still on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway. Instead of searching alone, she told the facilitator what she noticed and helped the group retrace the last place Caiden had been seen.

Question: What clue suggested Caiden left quickly?

- A. His notebook and water bottle were left behind '
- B. He packed his bag neatly
- C. The lights turned off
- D. Miranda found a map

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

20. mst-45-q2 (miranda · week 2 · 4-5)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: After the ceremony, Miranda noticed Caiden was no longer standing with the group. His notebook was still on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway. Instead of searching alone, she told the facilitator what she noticed and helped the group retrace the last place Caiden had been seen.

Question: Why did Miranda tell the facilitator?

- A. It was the safest choice '
- B. She wanted an adult to search while she kept observing
- C. She was not sure what the sound meant yet
- D. She needed permission before retracing steps

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

21. mst-45-q3 (miranda · week 2 · 4-5)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: B

Scenario: After the ceremony, Miranda noticed Caiden was no longer standing with the group. His notebook was still on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway. Instead of searching alone, she told the facilitator what she noticed and helped the group retrace the last place Caiden had been seen.

Question: What does “retrace” mean?

- A. Draw a picture
- B. Follow back through the steps '
- C. Skip the activity
- D. Make a guess

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

22. mst-68-q1 (miranda · week 2 · 6-8)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When the ceremony ended, Miranda immediately noticed a change in the group's pattern: Caiden was absent, but his notebook remained on the chair beside his water bottle. Rather than assume he had simply left, Miranda identified the last confirmed location where Caiden had been seen and reported the information to the facilitator. Her goal was not to solve the situation alone but to provide useful observations so the adults could respond quickly and safely.

Question: Which detail is most important evidence?

- A. Caiden's belongings were left behind '
- B. Miranda reported what she saw to the facilitator
- C. The ceremony had just ended
- D. Miranda identified the last confirmed location

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

23. mst-68-q2 (miranda · week 2 · 6-8)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When the ceremony ended, Miranda immediately noticed a change in the group's pattern: Caiden was absent, but his notebook remained on the chair beside his water bottle. Rather than assume he had simply left, Miranda identified the last confirmed location where Caiden had been seen and reported the information to the

facilitator. Her goal was not to solve the situation alone but to provide useful observations so the adults could respond quickly and safely.

Question: What does Miranda's response show?

- A. She understands safety and responsibility '
- B. She wants to solve the mystery alone
- C. She assumes Caiden left on purpose without checking
- D. She waits for someone else to notice first

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

24. mst-68-q3 (miranda · week 2 · 6-8)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When the ceremony ended, Miranda immediately noticed a change in the group's pattern: Caiden was absent, but his notebook remained on the chair beside his water bottle. Rather than assume he had simply left, Miranda identified the last confirmed location where Caiden had been seen and reported the information to the facilitator. Her goal was not to solve the situation alone but to provide useful observations so the adults could respond quickly and safely.

Question: Why is "last confirmed location" important?

- A. It helps adults know where to begin checking '
- B. It proves Caiden was hiding
- C. It makes the mystery harder
- D. It replaces asking for help

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

25. mcl-k1-q1 (miranda · week 3 · K-1)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Miranda found a smudged note. One word was missing. A picture of a library door helped her figure it out.

Question: What was missing from the note?

- A. A word '
- B. The whole note
- C. Miranda's pencil
- D. A backpack

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

26. mcl-k1-q2 (miranda · week 3 · K-1)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a smudged note. One word was missing. A picture of a library door helped her figure it out.

Question: What picture helped Miranda?

- A. A library door '
- B. A soccer ball
- C. A pizza
- D. A rain cloud

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

27. mcl-k1-q3 (miranda · week 3 · K-1)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a smudged note. One word was missing. A picture of a library door helped her figure it out.

Question: Where did the clue probably point?

- A. The library '
- B. The pool
- C. The bus
- D. The moon

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

28. mcl-23-q1 (miranda · week 3 · 2-3)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a note with one word missing. The note said, "Meet by the ____ after lunch." She looked at the picture beside the note. It showed a tree. Miranda knew the missing word was tree.

Question: What was missing from the note?

- A. A word '
- B. A pencil
- C. A backpack
- D. A snack

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than

physical evidence | Select a true detail that is less relevant to the problem

29. mcl-23-q2 (miranda · week 3 · 2-3)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a note with one word missing. The note said, "Meet by the ____ after lunch." She looked at the picture beside the note. It showed a tree. Miranda knew the missing word was tree.

Question: What picture helped Miranda?

- A. A tree '
- B. A chair
- C. A shoe
- D. A clock

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

30. mcl-23-q3 (miranda · week 3 · 2-3)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a note with one word missing. The note said, "Meet by the ____ after lunch." She looked at the picture beside the note. It showed a tree. Miranda knew the missing word was tree.

Question: What word completed the note?

- A. tree '
- B. lunch
- C. book
- D. door

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

31. mcl-45-q1 (miranda · week 3 · 4-5)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda found a clue note on the floor. One word had been smudged: "Meet by the ____ after lunch." Next to the sentence was a small drawing of branches and leaves. Miranda compared the drawing to places around the school and realized the note probably pointed to the tree near the playground.

Question: What helped Miranda figure out the missing word?

- A. The drawing of branches and leaves '
- B. A loud bell
- C. A lunch tray

D. A classroom door

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

32. mcl-45-q2 (miranda · week 3 · 4-5)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a clue note on the floor. One word had been smudged: "Meet by the ____ after lunch." Next to the sentence was a small drawing of branches and leaves. Miranda compared the drawing to places around the school and realized the note probably pointed to the tree near the playground.

Question: What does "smudged" mean?

A. Blurry or rubbed away '

B. Very loud

C. Easy to hear

D. Carefully folded

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

33. mcl-45-q3 (miranda · week 3 · 4-5)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a clue note on the floor. One word had been smudged: "Meet by the ____ after lunch." Next to the sentence was a small drawing of branches and leaves. Miranda compared the drawing to places around the school and realized the note probably pointed to the tree near the playground.

Question: Where did the clue probably point?

A. The tree near the playground '

B. The cafeteria sink

C. The library desk

D. The gym closet

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

34. mcl-68-q1 (miranda · week 3 · 6-8)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda discovered a clue note with a partially smudged location: "Meet by the ____ after lunch."

Although the missing word was unreadable, a small sketch beside the sentence showed branches, leaves, and a curved trunk. Miranda used context clues from both the sentence and the drawing to infer that the intended meeting place was the old tree near the playground.

Question: Which clue most strongly supports the answer?

- A. The sketch of branches, leaves, and trunk '
- B. The word lunch
- C. The note being on the floor
- D. The sentence being short

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

35. mcl-68-q2 (miranda · week 3 · 6-8)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Miranda discovered a clue note with a partially smudged location: "Meet by the ____ after lunch."

Although the missing word was unreadable, a small sketch beside the sentence showed branches, leaves, and a curved trunk. Miranda used context clues from both the sentence and the drawing to infer that the intended meeting place was the old tree near the playground.

Question: What strategy did Miranda use?

- A. Context clues '
- B. Using one clue without checking others
- C. Ignoring evidence
- D. Asking everyone to stop

Reason: inference at upper band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

36. mcl-68-q3 (miranda · week 3 · 6-8)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Miranda discovered a clue note with a partially smudged location: "Meet by the ____ after lunch."

Although the missing word was unreadable, a small sketch beside the sentence showed branches, leaves, and a curved trunk. Miranda used context clues from both the sentence and the drawing to infer that the intended meeting place was the old tree near the playground.

Question: What does "intended" mean here?

- A. Planned or meant '
- B. Forgotten
- C. Missing from view for now
- D. Broken

Reason: inference at upper band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

ZEKE — Detailed Audit

1. zkm1-k1-q1 (zeke · week 1 · K-1)

Mission: The New Table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: What should Zeke say first?

- A. Can I play too? '
- B. Move over now
- C. This game looks boring
- D. I am taking that chair

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. zkm1-k1-q2 (zeke · week 1 · K-1)

Mission: The New Table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: The kids say yes. What should Zeke do next?

- A. Sit down and listen to how the game works '
- B. Grab the cards and change the rules
- C. Tell everyone he is the winner already
- D. Walk away because they said yes too slowly

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

3. zkm1-k1-q3 (zeke · week 1 · K-1)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: One kid looks shy at the table. What kind move can Zeke make?

- A. Say hi and ask their name '
- B. Ignore them and only talk to the loudest kid
- C. Tell them to go sit somewhere else

D. Copy everything they do without speaking

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. zkm1-23-q1 (zeke · week 1 · 2-3)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: Zeke wants to join the game. What is the best move?

A. Ask politely and wait for an answer '

B. Grab the cards

C. Tell everyone he is the boss

D. Walk away without trying

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

5. zkm1-23-q2 (zeke · week 1 · 2-3)

Mission: The New Table [zeke-new-table]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: The group looks busy. What friendly words could Zeke try?

A. Can I join the next round? '

B. You have to let me play now

C. Your game looks stupid

D. Say nothing and stare until someone notices

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

6. zkm1-23-q3 (zeke · week 1 · 2-3)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: Someone says "maybe later." What should Zeke do?

- A. Ask for a time to check back in
- B. Wait politely and try again when there is a pause '
- C. Find another activity, then try once more later
- D. Take the cards anyway

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

7. zkm1-45-q1 (zeke · week 1 · 4-5)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus, lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: The group is in the middle of a round. What should Zeke do?

- A. Wait for a pause, then ask to join the next round '
- B. Interrupt and demand a turn
- C. Sit down without asking
- D. Say the rules are bad

Reason: correct answer stands out too easily; limited reasoning demand for band; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

8. zkm1-45-q2 (zeke · week 1 · 4-5)

Mission: The New Table [zeke-new-table]

Type: reading_comprehension · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: Zeke notices everyone is focused on the game. What social clue is Zeke reading?

- A. They need a moment before new players join '
- B. They definitely hate him already
- C. They want him to grab a chair silently
- D. They are trying to make him leave school

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

9. zkm1-45-q3 (zeke · week 1 · 4-5)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: The group welcomes Zeke but one kid does not smile. What is a respectful move?

- A. Join in and include that kid with a friendly hello '
- B. Call them out for being rude
- C. Only talk to the kids who smiled first
- D. Complain that the group is not fun enough

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

10. zkm1-68-q1 (zeke · week 1 · 6-8)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: What shows strong social confidence?

- A. Asking to join without pressuring the group '
- B. Acting like rejection would ruin everything
- C. Taking control immediately
- D. Pretending he does not care

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

11. zkm1-68-q2 (zeke · week 1 · 6-8)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: Zeke gets a polite "we're full for this round." What is the confident response?

- A. Say thanks and ask to join the next round '
- B. Argue until someone gives up their seat
- C. Mock the group for being exclusive
- D. Thank them and ask when the next round opens

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

12. zkm1-68-q3 (zeke · week 1 · 6-8)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance, lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke walks into lunch and sees a table of kids playing a card game. There is one open seat, but nobody has noticed him yet.

Question: Zeke sees another student hovering near the table too. What shows social leadership?

- A. Invite them to ask together or save them a spot if the group says yes '
- B. Ignore them because spots are limited
- C. Tell them they are too late
- D. Claim the last seat and block them out

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

13. zkm2-k1-q1 (zeke · week 2 · K-1)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: joke_or_impossible_distractor, answer_length_imbalance

Correct answer position: B

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: What should Zeke do if his teammate is open?

- A. Keep it forever
- B. Pass the ball '
- C. Dribble once, then check for an open teammate
- D. Throw the ball out so no one plays

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

14. zkm2-k1-q2 (zeke · week 2 · K-1)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: It is Zeke's turn to dribble. What is sharing?

- A. Keep dribbling until the game ends
- B. Give others a turn with the ball '
- C. Pass after checking who is ready
- D. Throw the ball away so no one gets it

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

15. zkm2-k1-q3 (zeke · week 2 · K-1)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: Maya asks for the ball. What should Zeke do?

- A. Pass when it helps the team '
- B. Say no every time
- C. Hold it too long and miss the pass window
- D. Look up and decide before passing

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

16. zkm2-23-q1 (zeke · week 2 · 2-3)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: Why is passing a strong choice?

- A. It gives the team a better chance '
- B. It means Zeke is weak
- C. It makes the ball disappear
- D. It can create a better chance for the team

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

17. zkm2-23-q2 (zeke · week 2 · 2-3)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: Zeke is running fast but hears Maya call his name. What should he notice?

- A. Maya is open and ready for a pass '
- B. The crowd wants him to stop running
- C. Maya wants to take the ball home
- D. Running can still include smart passing choices

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

18. zkm2-23-q3 (zeke · week 2 · 2-3)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: After Zeke passes and Maya scores, what should Zeke do?

- A. Celebrate with the team '
- B. Say he should have kept the ball
- C. Walk off the court angry
- D. Take credit and ignore Maya

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. zkm2-45-q1 (zeke · week 2 · 4-5)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: comparison · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: Zeke wants to be the hero, but Maya has a better shot. What should he choose?

- A. Pass to Maya because it helps the team '
- B. Shoot anyway to prove himself
- C. Pretend he did not see her
- D. Blame Maya for being open

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

20. zkm2-45-q2 (zeke · week 2 · 4-5)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: comparison · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: Zeke has a decent shot but two teammates are in better spots. What is the team-first choice?

- A. Pass to whoever has the best chance to score '
- B. Take one extra second to find the highest-percentage play
- C. Hold the ball until the timer runs out
- D. Dribble in circles to look impressive

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

21. zkm2-45-q3 (zeke · week 2 · 4-5)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: The team loses even after a good pass. What should Zeke remember?

- A. Sharing the ball was still the right teamwork move '
- B. One miss can still come from the right decision
- C. Maya failed so it was his fault for trusting her
- D. Only winners on the team deserve the ball

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

22. zkm2-68-q1 (zeke · week 2 · 6-8)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: What makes Zeke's pass a strong leadership move?

- A. He notices the best option and trusts his teammate '
- B. He keeps the ball so only he can score
- C. He passes to avoid taking a risky shot himself
- D. He waits until defenders collapse on him first

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

23. zkm2-68-q2 (zeke · week 2 · 6-8)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: The defense double-teams Zeke. What strategic move shows trust?

- A. Pass quickly to the open teammate before the trap closes '
- B. Keep dribbling until he is exhausted
- C. Blame the coach for the play
- D. Stop playing so someone else has to figure it out

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

24. zkm2-68-q3 (zeke · week 2 · 6-8)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: During a team game, Zeke gets the ball. He could try to score alone, but Maya is wide open and ready.

Question: A teammate misses after Zeke's pass. What helps the team recover?

- A. Encourage them and stay ready for the next play '
- B. Criticize them in front of everyone
- C. Refuse to pass to them again
- D. Tell the group the loss was entirely on them

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

25. zkm3-k1-q1 (zeke · week 3 · K-1)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: What helps the group work together?

- A. Have one speaker at a time and assign roles
- B. Take turns talking '
- C. Raise a hand and wait for your turn
- D. Tear up the project page

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for

help only after trying one small step

26. zkm3-k1-q2 (zeke · week 3 · K-1)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: Two kids want to color at the same time. What should Zeke suggest?

- A. You go first, then me '
- B. Fight for the crayons
- C. Nobody gets to color
- D. Set turns for shared materials

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

27. zkm3-k1-q3 (zeke · week 3 · K-1)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: Someone keeps talking over others. What can Zeke say?

- A. Let's take turns so everyone can share '
- B. Talk louder than them
- C. Tell the teacher immediately without trying
- D. Give up and do nothing

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

28. zkm3-23-q1 (zeke · week 3 · 2-3)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: What should Zeke suggest?

- A. Let's pick jobs for each person '
- B. I will do everything myself
- C. Nobody gets to help
- D. Let's argue about the glue

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

29. zkm3-23-q2 (zeke · week 3 · 2-3)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: Three kids want to draw. What job plan helps?

- A. One draws, one writes title, one gathers supplies '
- B. All three draw the same letter at once
- C. Split sections so each person has a role
- D. Skip the poster and go to recess early

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

30. zkm3-23-q3 (zeke · week 3 · 2-3)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: Someone is not sure what job to pick. What can Zeke do?

- A. Ask what they like doing and match a job '
- B. Tell them they cannot help
- C. Give them the hardest job as punishment
- D. Ignore them until the teacher notices

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

31. zkm3-45-q1 (zeke · week 3 · 4-5)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: The group is stuck because everyone wants the same task. What is the best solution?

- A. Divide roles based on what the project needs '

- B. Use a quick team vote after hearing each idea
- C. Stop working until the teacher fixes it
- D. Make three people do the same job

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

32. zkm3-45-q2 (zeke · week 3 · 4-5)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: The poster needs a title, drawings, and facts. What should Zeke help the group do?

- A. Match each part to a job before anyone starts '
- B. Start drawing and argue later
- C. Let one person redo everyone else's work
- D. Copy another group's poster exactly

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

33. zkm3-45-q3 (zeke · week 3 · 4-5)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: One teammate finishes early and has nothing to do. What is a good team move?

- A. Ask what still needs help and reassign if needed '
- B. Ask if they can help with the next needed part
- C. Send them to bother another group
- D. Take credit for their finished part

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

34. zkm3-68-q1 (zeke · week 3 · 6-8)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: How can Zeke help without taking over?

- A. Ask what needs to be done and help the group assign roles '
- B. Decide everyone's role without asking
- C. Do all the important parts himself
- D. Criticize the group for being messy

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

35. zkm3-68-q2 (zeke · week 3 · 6-8)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: Two teammates disagree about the layout. What facilitation move works?

- A. Help them name the goal and pick a solution together '
- B. Side with the louder person immediately
- C. Rewrite the poster alone overnight
- D. Tell them the project is ruined

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

36. zkm3-68-q3 (zeke · week 3 · 6-8)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Zeke's group has a poster to finish. Everyone starts talking at once, two kids want to draw, and nobody knows who is writing the title.

Question: The group falls behind because nobody tracked deadlines. What should Zeke suggest?

- A. Quick check-in on who owns what and what is left '
- B. Blame the teacher for assigning groups
- C. Drop the hardest section entirely
- D. Let one person carry the whole grade for everyone

Reason: inference at upper band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

37. zkm4-k1-q1 (zeke · week 4 · K-1)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: What can Zeke say?

- A. Say something mean back
- B. That was not kind '
- C. Take a breath, then use a calm voice
- D. Pretend hurting words are funny

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

38. zkm4-k1-q2 (zeke · week 4 · K-1)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: The hurt student looks sad. What kind move can Zeke make?

- A. Check on them with a gentle "Are you okay?" '
- B. Point at them so everyone looks
- C. Copy the mean joke
- D. Walk past like nothing happened

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

39. zkm4-k1-q3 (zeke · week 4 · K-1)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: Zeke wants to help stop the joke. What brave words work?

- A. Please stop. That hurts feelings. '
- B. Say a bigger mean joke back

- C. Shout until the cafeteria shakes
- D. Take a breath and ask an adult for support if needed

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

40. zkm4-23-q1 (zeke · week 4 · 2-3)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: What is a brave way to help?

- A. Say, "Let's not make fun of them." '
- B. Join the joke
- C. Point and laugh
- D. Pretend nobody got hurt

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

41. zkm4-23-q2 (zeke · week 4 · 2-3)

Mission: The Brave Voice [zeke-brave-voice]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: Some kids keep giggling. What can Zeke add?

- A. That joke is not okay. Let's talk about something else. '
- B. Keep laughing so he fits in
- C. Make fun of the person who made the joke publicly
- D. Run to the principal without saying anything first

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

42. zkm4-23-q3 (zeke · week 4 · 2-3)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: The student who was teased walks away. What should Zeke do?

- A. Go with them or invite them back respectfully '
- B. Stay with the group that laughed
- C. Text everyone about what happened
- D. Pretend he did not notice them leave

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

43. zkm4-45-q1 (zeke · week 4 · 4-5)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: What should Zeke do if he wants to redirect the group?

- A. Calmly say the joke is not okay and change the direction '
- B. Embarrass the person who made the joke
- C. Start a bigger argument
- D. Ignore the hurt student

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

44. zkm4-45-q2 (zeke · week 4 · 4-5)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: The joke-maker says "It was just funny." What is a respectful reply?

- A. Funny can still hurt someone. Let's stop. '
- B. That joke hurt someone; please stop
- C. Fine, keep going then
- D. Laugh harder to avoid conflict

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

45. zkm4-45-q3 (zeke · week 4 · 4-5)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: Zeke wants to support the student who was hurt without making a scene. What works?

- A. Ask quietly if they want help or company '
- B. Announce their feelings to the whole cafeteria
- C. Challenge everyone to a debate
- D. Post about it online before talking to anyone

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

46. zkm4-68-q1 (zeke · week 4 · 6-8)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: What response shows courage and social skill?

- A. Name the harm respectfully and support the student '
- B. Publicly shame everyone involved
- C. Stay silent because it is easier
- D. Make a harsher joke back

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

47. zkm4-68-q2 (zeke · week 4 · 6-8)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: The group gets tense after Zeke speaks up. What keeps dignity on both sides?

- A. Stay calm and focus on the hurt, not attacking the joker '
- B. Keep arguing until someone cries

- C. DARE people to keep joking
- D. Threaten to expose everyone's secrets

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

48. zkm4-68-q3 (zeke · week 4 · 6-8)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Zeke hears someone making a joke that hurts another student's feelings. Everyone laughs, but Zeke notices the student looking down.

Question: Later, Zeke talks to the student who made the joke. What shows mature courage?

- A. Explain why the joke hurt and ask them to repair it '
- B. Take space, then have a respectful follow-up talk
- C. Gather a crowd to confront them again
- D. Pretend nothing happened so popularity stays intact

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

49. zkm5-k1-q1 (zeke · week 5 · K-1)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: What should Zeke do first?

- A. Say sorry '
- B. Blame the chair
- C. Say it does not matter
- D. Walk away

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

50. zkm5-k1-q2 (zeke · week 5 · K-1)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: Zeke's friend is still quiet. What helps next?

- A. Ask if they want to talk '

- B. Make a joke about seats
- C. Ignore them and keep playing
- D. Say they should not be upset

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

51. zkm5-k1-q3 (zeke · week 5 · K-1)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: What is repair?

- A. Helping fix the hurt '
- B. Checking in and asking what would help now
- C. Blaming the chair
- D. Running away

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

52. zkm5-23-q1 (zeke · week 5 · 2-3)

Mission: Friendship Repair [zeke-friendship-repair]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: What makes Zeke's apology better?

- A. Listening to how his friend feels '
- B. Saying sorry while running away
- C. Explaining why his friend should not care
- D. Changing the subject fast

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

53. zkm5-23-q2 (zeke · week 5 · 2-3)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: Zeke says sorry but keeps playing his game. What is missing?

- A. Really listening to his friend '

- B. Saying sorry louder
- C. Buying a new chair
- D. Walking away faster

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: Your friend says they felt left out. What should Zeke do?

- A. Listen and ask what would help '
- B. Tell them to cheer up
- C. Change the subject
- D. Walk away

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

55. zkm5-45-q1 (zeke · week 5 · 4-5)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: What should Zeke say?

- A. I said I would save you a seat, and I did not. I'm sorry. '
- B. You are too sensitive
- C. I forgot, so it does not count
- D. Other people made me do it

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

56. zkm5-45-q2 (zeke · week 5 · 4-5)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: A friend is upset because Zeke broke a promise. What matters most?

- A. Owning what he did not do '
- B. Explaining why promises do not count
- C. Blaming the busy schedule
- D. Expecting instant forgiveness

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

57. zkm5-45-q3 (zeke · week 5 · 4-5)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: Which apology is too vague?

- A. "Sorry if you were upset" without owning the mistake '
- B. Naming exactly what Zeke did not do
- C. Listening to how the friend feels
- D. Planning to follow through next time

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: How can Zeke rebuild trust?

- A. Own the mistake, listen, and follow through differently next time '
- B. Expect forgiveness immediately
- C. Avoid the friend until it disappears
- D. Make a joke instead of addressing it

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

59. zkm5-68-q2 (zeke · week 5 · 6-8)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: Zeke apologized but made the same mistake again. What does trust need now?

- A. Consistent follow-through over time '
- B. A louder apology
- C. Time alone until they forget
- D. A joke to lighten the mood

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

60. zkm5-68-q3 (zeke · week 5 · 6-8)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke forgot to save a seat for his friend, even though he promised. His friend is upset and quiet.

Question: What shows repair is working?

- A. The friend feels heard and sees change over time '
- B. Both friends feel heard and notice changed behavior
- C. Zeke keeps showing up with consistent follow-through
- D. Only words, no changed actions

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

61. zkm6-k1-q1 (zeke · week 6 · K-1)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: What brave step can Zeke take?

- A. Put his name on the signup sheet '
- B. Tear the paper down
- C. Take one breath and ask for support
- D. Say nobody should try

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for

help only after trying one small step

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: Zeke feels nervous but still wants to try. What should he remember?

- A. Nervous does not mean stop '

- B. Nervous means he will fail
- C. Brave people can feel nervous and still act
- D. He should only try easy things

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

68. zkm6-45-q2 (zeke · week 6 · 4-5)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: Zeke's hands are shaky before signup. What is a helpful move?

- A. Breathe and take the one step anyway '
- B. Wait until fear disappears
- C. Pretend he does not care
- D. Only do things that feel easy

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

69. zkm6-45-q3 (zeke · week 6 · 4-5)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: Nervous feelings show up. What is true?

- A. Brave people can feel nervous and still try '
- B. Nervous can mean "go slowly" instead of "stop"
- C. Only fearless people try new things
- D. Trying easy things is the only courage

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

70. zkm6-68-q1 (zeke · week 6 · 6-8)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: What shows real courage?

- A. Taking a value-based step even while nervous '
- B. Choosing a small value-based step now
- C. Acting like nothing matters
- D. Avoiding anything with risk

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

71. zkm6-68-q2 (zeke · week 6 · 6-8)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance, lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: Zeke wants to perform but fear says "skip it." What helps?

- A. Choosing the step that matches what he values '
- B. Acting on what matters even while fear is present
- C. Acting like it does not matter
- D. Avoiding every risk

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

72. zkm6-68-q3 (zeke · week 6 · 6-8)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: answer_length_imbalance, lacks_reasoning_skill

Correct answer position: A

Scenario: Zeke wants to try out for the talent show, but his stomach flips when he sees the signup sheet. His brain says, "Maybe we become invisible today."

Question: What is courage?

- A. Direction toward what matters, even with fear present '
- B. Having zero fear
- C. Performing only for others

D. Continuing toward goals while managing nerves

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

73. zkm7-k1-q1 (zeke · week 7 · K-1)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: What kind choice can Zeke make?

A. Invite the student to play '

B. Leave them out

C. Say only fast kids matter

D. Pick the same friends every time

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

74. zkm7-k1-q2 (zeke · week 7 · K-1)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: A kid is standing alone at the edge of the game. What can Zeke do?

A. Invite them to join '

B. Pick only his best friends

C. Say fast kids only

D. Ignore them

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

75. zkm7-k1-q3 (zeke · week 7 · K-1)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: Why include everyone?

A. Teams get stronger when more people belong '

B. Only fast kids should play

- C. Leaving people out is fine
- D. Same friends every time is best

Reason: thin scenario for inference; appropriate simplicity for K-1

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

76. zkm7-23-q1 (zeke · week 7 · 2-3)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: What should Zeke say?

- A. Come join us. We need another teammate. '
- B. You probably cannot play
- C. Maybe next year
- D. Only my friends can join

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

77. zkm7-23-q2 (zeke · week 7 · 2-3)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: The kid picked last looks nervous. What helps?

- A. Zeke asks them to join the team '
- B. Say they probably cannot play
- C. Pick the same friends again
- D. Walk away from the game

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

78. zkm7-23-q3 (zeke · week 7 · 2-3)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: What is part of a captain's job?

- A. Help everyone feel they can contribute '

- B. Win by leaving people out
- C. Rotate turns so different teammates contribute
- D. Let one person do everything

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

79. zkm7-45-q1 (zeke · week 7 · 4-5)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: How can Zeke be a fair captain?

- A. Notice strengths and give everyone a role '
- B. Only pass to his closest friends
- C. Ignore quieter teammates
- D. Let one person do everything

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

80. zkm7-45-q2 (zeke · week 7 · 4-5)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: Zeke only passes to his closest friends. What is the problem?

- A. It limits the team's ideas and growth '
- B. Fair chances help uncover hidden strengths
- C. Fairness does not matter in games
- D. Winning is all that counts

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

81. zkm7-45-q3 (zeke · week 7 · 4-5)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: A quiet teammate has a good idea. What should Zeke do?

- A. Ask for their idea and give them a role '

- B. Ignore quieter voices
- C. Set a quick structure so each voice is heard
- D. Do everything himself

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

82. zkm7-68-q1 (zeke · week 7 · 6-8)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: What is inclusive leadership?

- A. Creating conditions where everyone can contribute '
- B. Winning while ignoring people
- C. Building clear roles and fair opportunities
- D. Making every decision alone

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

83. zkm7-68-q2 (zeke · week 7 · 6-8)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: Zeke wants to win but sees someone always picked last. Best leadership move?

- A. Create chances for them to contribute and belong '
- B. Win while ignoring them
- C. Design plays that include newer teammates too
- D. Make all decisions alone

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

84. zkm7-68-q3 (zeke · week 7 · 6-8)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke is chosen as team captain. He wants to win, but he also notices one kid is always picked last.

Question: What is belonging on a team?

- A. Everyone feels they can contribute something meaningful '

- B. Only stars matter
- C. Inclusion slows teams down
- D. Captains decide everything alone

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

85. zkm8-k1-q1 (zeke · week 8 · K-1)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: What can each teammate share?

- A. One feeling about the game '
- B. A mean comment
- C. One helpful observation from the game
- D. No reflection and immediate blame

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

86. zkm8-k1-q2 (zeke · week 8 · K-1)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: Zeke asks how everyone feels. What is a good answer?

- A. I felt proud when we worked together '
- B. A mean comment about someone
- C. One feeling and one thing they learned
- D. Nothing at all

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

87. zkm8-k1-q3 (zeke · week 8 · K-1)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: What does a huddle help the team do?

- A. Understand how everyone feels '
- B. Blame each other
- C. Talk briefly about one success and one next step
- D. Only celebrate winning

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

88. zkm8-23-q1 (zeke · week 8 · 2-3)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: What should Zeke ask in the huddle?

- A. What went well, and what can we improve? '
- B. Who should we blame?
- C. Who was the worst?
- D. What is one thing we should try differently next time?

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

89. zkm8-23-q2 (zeke · week 8 · 2-3)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: The team lost but tried hard. What should Zeke ask?

- A. What went well, and what can we improve? '
- B. Who messed up the most?
- C. Who should we blame?
- D. How can we include everyone better next round?

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

90. zkm8-23-q3 (zeke · week 8 · 2-3)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: One teammate says they felt left out. What helps?

- A. Listen and think how to include them next time '
- B. Tell them they are wrong
- C. Change the subject
- D. Say winning matters more

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

91. zkm8-45-q1 (zeke · week 8 · 4-5)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: One teammate says they felt ignored. What should the team do?

- A. Listen and plan how to include them next time '
- B. Tell them they are wrong
- C. Change the subject
- D. Say winning matters more

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

92. zkm8-45-q2 (zeke · week 8 · 4-5)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: After a tough team challenge, Zeke calls a final huddle. Some teammates are proud, some are frustrated, and one person feels ignored.

Question: Some teammates are proud, some frustrated. What should Zeke do?

- A. Let everyone share and listen '
- B. Only let the captain talk
- C. Pretend it was perfect
- D. Blame the frustrated ones

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision
