Dashboard Summary

Overall Question Health: 69 / 100

Production Content Health: 50

Metadata Completeness: 94

Distractor Quality: 67

Scenario Variety: 86

Total questions audited: 1160 (612 production)

Sources scanned: adaptive_mission, staging_override, adult_training

High priority rewrites: 179

Medium priority rewrites: 182

Low priority rewrites: 799

Issues Found

30 duplicate question groups

33 duplicate scenario groups

0 Caiden spelling issues

200 weak distractor warnings

34 missing metadata fields

7 high scenario duplication stems

Recommendations

- Resolve 66 true production duplicate groups before publish.
- Reduce 33 repeated production scenario stems (target "d3 uses per stem).
- Improve distractor quality — replace joke, villain, and giveaway answers with plausible tradeoffs.
- Add more Focus Recovery questions (currently below 10).
- Reduce duplicate scenario stems — vary story openings and contexts.
- 133 duplicate groups are staging-only — tracked separately from production health.

Average Difficulty by Character

b4: 3.62 / 5

caiden: 3.74 / 5

charlie: 3.21 / 5

miranda: 3.54 / 5

uncle-t: 2.75 / 5

victoria: 2.73 / 5

zeke: 3.33 / 5

B4 — Detailed Audit

1. b4m1-k1-q1 (b4 · week 1 · K-1)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: B-4 sees a kid with tight fists and a frown. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, mood scanner corner (K-1).

Question: B-4 sees a kid with tight fists and a frown. What feeling might they have?

- A. Pause and notice one more detail first
- B. Angry '
- C. Ask a short clarifying question
- D. Ready for a snack

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

2. b4m1-k1-q2 (b4 · week 1 · K-1)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: B-4 sees a kid smiling big and bouncing on their toes. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, feeling label station (K-1).

Question: B-4 sees a kid smiling big and bouncing on their toes. What feeling might they have?

- A. Happy '
- B. Pause and notice one more detail first
- C. Ask a short clarifying question
- D. Compare two possible next steps

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

3. b4m1-k1-q3 (b4 · week 1 · K-1)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A kid has quiet tears and a droopy face. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, calm-name practice desk (K-1).

Question: A kid has quiet tears and a droopy face. What feeling might B-4 name?

- A. Sad '
- B. Pause and notice one more detail first
- C. Ask a short clarifying question

D. Compare two possible next steps

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

4. b4m1-23-q1 (b4 · week 1 · 2-3)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student loses a game and says, "I don't care," but their eyes look watery. What might be happening?

A. They may feel disappointed '

B. They are definitely bored

C. They forgot what games are

D. They may need a minute before talking

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

5. b4m1-23-q2 (b4 · week 1 · 2-3)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A friend will not share a toy and a kid stomps their foot. What feeling fits the situation?

A. Frustrated '

B. Sleepy

C. Proud

D. Calm

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

6. b4m1-23-q3 (b4 · week 1 · 2-3)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A new student sits alone at lunch looking at the floor. What might they feel?

- A. Lonely or nervous '
- B. Extra hungry
- C. Like a superhero
- D. Nothing at all

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

7. b4m1-45-q1 (b4 · week 1 · 4-5)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A student feels excited about presenting but also nervous. Scene: In the group challenge lab, B-4's feeling finder lights up on the side table, mood scanner corner (4-5).

Question: A student feels excited about presenting but also nervous. What should B-4 remember?

- A. People can feel more than one emotion at once '
- B. Only one feeling is allowed
- C. Nervous means they should quit
- D. Excited feelings cancel everything else

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

8. b4m1-45-q2 (b4 · week 1 · 4-5)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: A student wins a prize but notices a friend looks upset. Scene: In the group challenge lab, B-4's feeling finder lights up on the side table, feeling label station (4-5).

Question: A student wins a prize but notices a friend looks upset. What might they feel?

- A. Happy and worried at the same time '
- B. Mostly happy but still a little worried
- C. No feelings at all
- D. Angry at the prize

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

9. b4m1-45-q3 (b4 · week 1 · 4-5)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A student is proud of their project but embarrassed to share it. Scene: In the group challenge lab, B-4's feeling finder lights up on the side table, calm-name practice desk (4-5).

Question: A student is proud of their project but embarrassed to share it. What is true?

- A. Proud and embarrassed can both show up together '
- B. Embarrassed means the project is bad
- C. Proud feelings erase nervous feelings
- D. They might wait and share when they feel ready

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

10. b4m1-68-q1 (b4 · week 1 · 6-8)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student snaps at a friend after being corrected in front of the group. What should B-4 check first?

- A. What triggered the reaction and how intense the feeling became '
- B. Whether the student is just rude
- C. Whether the friend deserved it
- D. Whether everyone should ignore it

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

11. b4m1-68-q2 (b4 · week 1 · 6-8)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student had a rough morning and then a small comment sets them off. What does B-4 notice?

- A. Earlier stress can make the next trigger feel bigger '
- B. Small comments never matter

- C. Feelings reset every hour automatically
- D. The student chose to overreact on purpose

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

12. b4m1-68-q3 (b4 · week 1 · 6-8)

Mission: Mood Scanner [b4-mood-scanner]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: B-4's mood scanner starts blinking because someone's feelings are getting big. B-4 needs help naming the feeling before choosing what to do next.

Question: A student's reaction feels way bigger than the situation. What should B-4 check?

- A. How intense the feeling got and what else was already going on '
- B. Whether the situation was funny
- C. Whether feelings should be ignored
- D. Whether someone else caused it on purpose

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

13. b4m2-k1-q1 (b4 · week 2 · K-1)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: If your heart beats fast and your body feels jumpy,. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, body signal panel (K-1).

Question: If your heart beats fast and your body feels jumpy, what can help?

- A. Ask for help after trying one breath
- B. Take slow breaths '
- C. Do the easiest calm step first
- D. Keep making your body more jumpy

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

14. b4m2-k1-q2 (b4 · week 2 · K-1)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 sees butterflies in a kid's tummy before show-and-tell. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, heartbeat tracker wall (K-1).

Question: B-4 sees butterflies in a kid's tummy before show-and-tell. What body clue is that?

- A. A nervous tummy clue '
- B. A hungry-for-pizza clue
- C. A robot-startup clue
- D. A nothing-is-happening clue

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

15. b4m2-k1-q3 (b4 · week 2 · K-1)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A kid yawns and their eyes feel heavy. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, shoulder-check station (K-1).

Question: A kid yawns and their eyes feel heavy. What body signal might B-4 name?

- A. Tired '
- B. Pause and notice one more detail first
- C. Ask a short clarifying question
- D. Compare two possible next steps

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

16. b4m2-23-q1 (b4 · week 2 · 2-3)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A student's shoulders are tight before reading aloud. Scene: During camp check-in, B-4's mood scanner hums near the activity mats, body signal panel (2-3).

Question: A student's shoulders are tight before reading aloud. What feeling might match that signal?

- A. Nervous '
- B. Unsure what to do next
- C. Extra hungry
- D. Too sparkly

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

17. b4m2-23-q2 (b4 · week 2 · 2-3)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: After an unfair call in a game, a kid's jaw is clenched and fists are tight. Scene: During camp check-in, B-4's mood scanner hums near the activity mats, heartbeat tracker wall (2-3).

Question: After an unfair call in a game, a kid's jaw is clenched and fists are tight. What feeling fits?

- A. Frustrated or angry '
- B. Sleepy
- C. Proud
- D. Bored

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

18. b4m2-23-q3 (b4 · week 2 · 2-3)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A student slumps their shoulders after making a mistake. Scene: During camp check-in, B-4's mood scanner hums near the activity mats, shoulder-check station (2-3).

Question: A student slumps their shoulders after making a mistake. What feeling might B-4 detect?

- A. Disappointed or sad '
- B. Extra excited
- C. Hungry
- D. Confused about lunch

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

19. b4m2-45-q1 (b4 · week 2 · 4-5)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: A student feels hot, tense, and ready to argue. Scene: In the group challenge lab, B-4's feeling finder lights up on the side table, body signal panel (4-5).

Question: A student feels hot, tense, and ready to argue. What is the best first reset?

- A. Pause and take space before responding '

- B. Send the text immediately
- C. Argue faster
- D. Pretend nothing happened

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

20. b4m2-45-q2 (b4 · week 2 · 4-5)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A student cannot sit still — legs bouncing, fingers tapping. Scene: In the group challenge lab, B-4's feeling finder lights up on the side table, heartbeat tracker wall (4-5).

Question: A student cannot sit still — legs bouncing, fingers tapping. What reset fits the signal?

- A. A short movement break '
- B. Hold breath until dizzy
- C. Stare at the ceiling for an hour
- D. Ignore the body completely

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

21. b4m2-45-q3 (b4 · week 2 · 4-5)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A student's brain feels buzzy and they cannot think straight. Scene: In the group challenge lab, B-4's feeling finder lights up on the side table, shoulder-check station (4-5).

Question: A student's brain feels buzzy and they cannot think straight. What should B-4 suggest first?

- A. Slow breathing to settle the nervous system '
- B. Speed-read everything twice as fast
- C. Add five more tasks
- D. Wait until the buzz gets louder

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

22. b4m2-68-q1 (b4 · week 2 · 6-8)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Why should someone notice body signals early. Scene: At the older learners' studio, B-4's dashboard shows a rising feeling alert, body signal panel (6-8).

Question: Why should someone notice body signals early?

- A. Early signals help prevent a bigger reaction '
- B. Waiting until feelings peak gives more control
- C. Ignoring signals helps them fade faster
- D. Body signals only matter after someone else notices

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

23. b4m2-68-q2 (b4 · week 2 · 6-8)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 notices a student's voice getting louder and their face heating up. Scene: At the older learners' studio, B-4's dashboard shows a rising feeling alert, heartbeat tracker wall (6-8).

Question: B-4 notices a student's voice getting louder and their face heating up. What is this?

- A. An early warning sign before escalation '
- B. Proof they are fine
- C. A sign to ignore everything
- D. A random glitch with no meaning

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

24. b4m2-68-q3 (b4 · week 2 · 6-8)

Mission: Body Signal Detective [b4-body-signal-detective]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4's dashboard lights up with body signals: fast heartbeat, wiggly legs, tight shoulders, and a buzzing brain. B-4 needs help matching signals to support moves.

Question: A student catches their shoulders creeping up and jaw tightening. What is the smart next move?

- A. Use a reset before the reaction gets bigger '
- B. Wait until they snap, then fix it
- C. Tell themselves feelings are not real
- D. Push through without noticing

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

25. b4m3-k1-q1 (b4 · week 3 · K-1)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A friend drops their crayons. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, brave choice console (K-1).

Question: A friend drops their crayons. What is a brave choice?

- A. Help pick them up '
- B. Laugh and walk away
- C. Wait to help until someone else starts
- D. Pretend the floor did it

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

26. b4m3-k1-q2 (b4 · week 3 · K-1)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A classmate looks sad and alone at recess. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, helpful-choice practice pad (K-1).

Question: A classmate looks sad and alone at recess. What is a brave choice?

- A. Ask if they want to play '
- B. Watch from far away and hope someone else helps
- C. Pause and notice one more detail first
- D. Pretend you did not see them

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

27. b4m3-k1-q3 (b4 · week 3 · K-1)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The teacher asks everyone to line up quietly. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, courage button bay (K-1).

Question: The teacher asks everyone to line up quietly. What is a brave choice?

- A. Try your best to follow directions '
- B. Keep running in circles

C. Stay in line and take one small calm breath

D. Blame the line for being slow

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

28. b4m3-23-q1 (b4 · week 3 · 2-3)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: You do not understand the directions. Scene: During camp check-in, B-4's mood scanner hums near the activity mats, brave choice console (2-3).

Question: You do not understand the directions. What is a brave choice?

A. Ask for help '

B. Guess and feel upset

C. Push the paper away

D. Say the directions are broken

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

29. b4m3-23-q2 (b4 · week 3 · 2-3)

Mission: The Brave Choice Button [b4-brave-choice-button]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: You feel nervous about trying a new activity. Scene: During camp check-in, B-4's mood scanner hums near the activity mats, helpful-choice practice pad (2-3).

Question: You feel nervous about trying a new activity. What is a brave choice?

A. Try one small part of it '

B. Quit before you start

C. Make fun of the activity

D. Wait for someone else to do everything

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Mission: Oops Repair Lab [b4-oops-repair-lab]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is repair. Scene: At Focus Flame Academy's youngest wing, B-4's dashboard glows beside the calm corner, repair toolkit shelf (K-1).

Question: What is repair?

- A. Fixing what your mistake hurt '
- B. Waiting for the mistake to be forgotten
- C. Blaming someone else
- D. Running until everyone forgets

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

Flags: insufficient_scenario_evidence

Correct answer position: D

Scenario: Which step comes right after "pause" in the regulation cycle. Scene: At the older learners' studio, B-4's dashboard shows a rising feeling alert, final mission review desk (6-8).

Question: Which coping strategy best compares two regulation paths?

- A. A calm strategy used before naming the feeling
- B. A strategy that helps a little but ignores body signals
- C. Ignore the feeling and keep going
- D. Choose a strategy for this scenario '

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

192. b4m8-68-q3 (b4 · week 8 · 6-8)

Mission: b4-focus-flame-finale [b4-focus-flame-finale]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Why practice the full regulation cycle. Scene: At the older learners' studio, B-4's dashboard shows a rising feeling alert, courage combo checklist (6-8).

Question: Which regulation sequence fits the focus reset?

- A. It builds habits for future hard moments '
- B. A calm strategy used before naming the feeling
- C. A strategy that helps a little but ignores body signals
- D. Ignore the feeling and keep going

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

CAIDEN — Detailed Audit

1. cq1-k1-q1 (caiden · week 1 · K-1)

Mission: What Comes First? [quest-1]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious

Correct answer position: B

Scenario: Caiden has homework, a drawing idea, and a camp bag to pack. Camp starts soon.

Question: What should Caiden do first?

- A. Start a new drawing
- B. Pack the items he needs for camp '
- C. Look for a snack
- D. Wait until later

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. cq1-k1-q2 (caiden · week 1 · K-1)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: C

Scenario: Caiden feels overwhelmed because his room is messy. B-4 says to pick one small step.

Question: What is the best first step?

- A. Clean the whole room at once
- B. Throw everything under the bed
- C. Pick up the clothes first '
- D. Give up

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

3. cq1-k1-q3 (caiden · week 1 · K-1)

Mission: What Comes First? [quest-1]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The teacher is explaining the challenge. Caiden also wants to sharpen his pencil and tell a joke.

Question: What should Caiden focus on first?

- A. Listening to directions '
- B. Telling the joke
- C. Sharpening his pencil loudly
- D. Looking around the room

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. cq1-23-q1 (caiden · week 1 · 2-3)

Mission: What Comes First? [quest-1]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden wants to draw a superhero before camp starts. What should he do first?

- A. Start coloring
- B. Find paper and pencils '
- C. Show his friend
- D. Hang it on the wall

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

5. cq1-23-q2 (caiden · week 1 · 2-3)

Mission: What Comes First? [quest-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: C

Scenario: (none)

Question: Caiden needs his backpack, water bottle, and homework. What should he pack?

- A. Only homework
- B. Only backpack
- C. All three important items '
- D. Only one item and hope for the best

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

6. cq1-23-q3 (caiden · week 1 · 2-3)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, guessable_without_scenario, answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: Caiden has 10 minutes before leaving. What should happen first?

- A. Start with a short ready-to-leave checklist
- B. Pack his camp bag '
- C. Finish one quick prep step first
- D. Delay until the last minute

Reason: guessable without reading scenario; includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

7. cq1-45-q1 (caiden · week 1 · 4-5)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Caiden has \$8. A notebook costs \$3 and markers cost \$6. He needs both for art class tomorrow.

Question: Can he afford both items today?

- A. No — together they cost \$9 '
- B. Yes — \$8 is enough for both
- C. Yes — \$3 and \$6 equal \$8 exactly
- D. No — he can only afford the markers

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

8. cq1-45-q2 (caiden · week 1 · 4-5)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Math homework takes 25 minutes. Caiden has 40 minutes before dinner.

Question: After homework, how many minutes does he have left?

- A. 15 minutes '
- B. 25 minutes
- C. 65 minutes
- D. 5 minutes

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

9. cq1-45-q3 (caiden · week 1 · 4-5)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: A quiz needs 20 minutes of study tonight. A project due in 5 days needs 45 minutes. Caiden has 30 free minutes tonight.

Question: Which priority order uses his 30 minutes best?

- A. Study for the quiz — it is more urgent and fits tonight '
- B. Start the full project — it takes longer
- C. Split 15 minutes on each and hope that is enough
- D. Start a small quiz review after science if time remains

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

10. cq1-68-q1 (caiden · week 1 · 6-8)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden has 90 minutes after school. Math takes 35 minutes, reading takes 25, and packing takes 20.

Question: How many minutes will he have left if he completes all three?

- A. 10 minutes '
- B. 80 minutes
- C. 0 minutes — he is 10 minutes short
- D. 25 minutes

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

11. cq1-68-q2 (caiden · week 1 · 6-8)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Camp tokens: trail mix 7, drink 5, sticker 4. Caiden has 12 tokens and must buy food first.

Question: What is the best spending plan?

- A. Trail mix and drink — costs 12, no tokens left '
- B. All three items — costs 16 tokens
- C. Sticker and drink only — saves the most tokens
- D. Trail mix only — leaves 5 tokens unused

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

12. cq1-68-q3 (caiden · week 1 · 6-8)

Mission: What Comes First? [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Science project due tomorrow (needs 50 min). Reading log due Friday (needs 30 min). Comic due next week (needs 40 min). Caiden has 60 minutes tonight.

Question: Which plan uses his time best?

- A. Full science project tonight — most urgent '
- B. Comic first — it is the most fun
- C. 30 min science + 30 min reading — ignores that science needs 50
- D. Reading log first — due before the comic only

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

13. cq2-k1-q1 (caiden · week 2 · K-1)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Caiden is writing in his journal. His tablet keeps lighting up beside him.

Question: What should Caiden do?

- A. Check every notification
- B. Move the tablet away until he finishes '
- C. Stop writing
- D. Open a game

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

14. cq2-k1-q2 (caiden · week 2 · K-1)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Caiden wants to finish homework, but a game is open on his screen.

Question: What is the best choice?

- A. Play the game first
- B. Close the game and finish homework '
- C. Do both at the same time
- D. Quit homework

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

15. cq2-k1-q3 (caiden · week 2 · K-1)

Mission: Focus or Distraction? [quest-2]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, joke_or_impossible_distractor, answer_length_imbalance

Correct answer position: B

Scenario: Caiden feels wiggly during quiet reading time.

Question: What is a healthy focus move?

- A. Run around the room
- B. Take a quiet breath and look back at the page '

C. Talk to a friend

D. Hide the book

Reason: joke distractors reduce challenge; correct answer stands out too easily

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

16. cq2-23-q1 (caiden · week 2 · 2-3)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: (none)

Question: Caiden is doing homework. His tablet starts playing videos. What should he do?

A. Pause videos and finish one homework section

B. Turn off the tablet and focus '

C. Set homework aside without a plan

D. Switch tasks every few minutes

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

17. cq2-23-q2 (caiden · week 2 · 2-3)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: What is a distraction?

A. Something helping you focus

B. Something taking attention away '

C. A teacher

D. A task list used at the right time

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

18. cq2-23-q3 (caiden · week 2 · 2-3)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: (none)

Question: Which helps focus?

- A. Background music with no lyrics
- B. Five games open
- C. Quiet workspace '
- D. Constant texting

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. cq2-45-q1 (caiden · week 2 · 4-5)

Mission: Focus or Distraction? [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden has 25 minutes before dinner. His science test is tomorrow. He can read notes (10 min), practice problems (15 min), or review vocab (8 min). He cannot finish all three before dinner.

Question: Which plan helps him focus on the most urgent work without rushing?

- A. Read notes and review vocab — both fit in 18 minutes
- B. Practice problems only — save reading for after dinner '
- C. Try all three quickly and switch every 5 minutes
- D. Wait until after dinner when he has more time for everything

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

20. cq2-45-q2 (caiden · week 2 · 4-5)

Mission: Focus or Distraction? [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden earns 12 focus tokens this week. A 20-minute game costs 4 tokens, a snack break costs 2, and saving 8 tokens unlocks a bonus mission.

Question: Which spending plan protects study time and still leaves room for one reward?

- A. Play the game twice and skip the bonus mission
- B. Take one snack break, save 10 tokens, and skip the game today '
- C. Spend all tokens on snacks so he stays energized
- D. Save every token and skip breaks all week

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

21. cq2-45-q3 (caiden · week 2 · 4-5)

Mission: Focus or Distraction? [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Caiden must finish a reading log (20 min) and pack his camp bag (10 min) before a 7:30 bus. It is 7:00 now.

Question: What is the best sequence so he is not rushing at the end?

- A. Pack first, then read on the bus if time runs out
- B. Start reading, then pack with whatever time remains
- C. Pack the bag first, then read until 7:25 '
- D. Text friends until 7:20, then try to do both tasks

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

22. cq2-68-q1 (caiden · week 2 · 6-8)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: C

Scenario: (none)

Question: Caiden needs to study for a test. Which environment supports focus?

- A. TV playing
- B. Group chat open
- C. Organized workspace '
- D. Gaming stream

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

23. cq2-68-q2 (caiden · week 2 · 6-8)

Mission: Focus or Distraction? [quest-2]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why is task switching difficult?

- A. The brain loses momentum '
- B. It makes learning easier
- C. It improves memory
- D. It reduces mistakes

Reason: guessable without reading scenario; thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

24. cq2-68-q3 (caiden · week 2 · 6-8)

Mission: Focus or Distraction? [quest-2]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: (none)

Question: What is attention control?

- A. Choosing where focus goes '
- B. Doing many tasks at once
- C. Avoiding all work
- D. Working faster without thinking

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

25. cq3-k1-q1 (caiden · week 3 · K-1)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Caiden has 10 minutes before the group leaves. He needs his water bottle, pencil, and notebook.

Question: What should he do?

- A. Grab the three things he needs '
- B. Start coloring a new page
- C. Talk for 20 minutes
- D. Sit down and wait

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

26. cq3-k1-q2 (caiden · week 3 · K-1)

Mission: Time Tracker [quest-3]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: What helps Caiden know when to leave?

- A. A clock '
- B. A snack
- C. A pillow
- D. A comic book

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

27. cq3-k1-q3 (caiden · week 3 · K-1)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, guessable_without_scenario, answer_length_imbalance

Correct answer position: B

Scenario: Caiden still needs to put on shoes and pack his folder.

Question: Camp starts in 15 minutes. What should Caiden do first?

- A. Start a cartoon
- B. Put on shoes and pack his folder '
- C. Take a nap
- D. Draw a new picture

Reason: correct answer stands out too easily; guessable without reading scenario

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

28. cq3-23-q1 (caiden · week 3 · 2-3)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: (none)

Question: Camp starts in 15 minutes. Caiden still needs to put on shoes and pack his folder. What should he do first?

- A. Do a one-minute readiness check first
- B. Pack the folder and put on shoes '
- C. Pack one item, then continue prep
- D. Delay until someone reminds him

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

29. cq3-23-q2 (caiden · week 3 · 2-3)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: guessable_without_scenario

Correct answer position: C

Scenario: (none)

Question: Caiden has 5 minutes before leaving. Which task fits best?

- A. Clean his whole room
- B. Start a long movie
- C. Fill his water bottle '

D. Build a toy city

Reason: guessable without reading scenario; includes math thinking; Caiden time/quantity reasoning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

30. cq3-23-q3 (caiden · week 3 · 2-3)

Mission: Time Tracker [quest-3]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: What helps Caiden know when to leave?

A. A clock '

B. A snack

C. A pillow

D. A comic book

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

31. cq3-45-q1 (caiden · week 3 · 4-5)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: Homework takes 20 minutes. Packing takes 5 minutes. The bus comes in 30 minutes. Can Caiden finish both?

A. Yes, because 25 minutes is less than 30 '

B. No, because 25 minutes is more than 30

C. No, because homework takes all day

D. Yes, because time does not matter

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

32. cq3-45-q2 (caiden · week 3 · 4-5)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: (none)

Question: Caiden has 30 minutes. Reading takes 15 minutes and cleaning takes 20 minutes. What should he notice?

A. He has enough time for both

B. He needs 35 minutes for both '

C. Reading takes 30 minutes

D. Cleaning takes 5 minutes

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

33. cq3-45-q3 (caiden · week 3 · 4-5)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden has 40 minutes before camp. Homework needs 25 minutes, packing needs 10, and he wants a 5-minute snack. A friend invites him to play outside for 20 minutes now.

Question: Which schedule keeps him on time for camp without skipping essentials?

A. Play 20 minutes, then rush homework and packing in 20 minutes

B. Snack 5 minutes, homework 25 minutes, then pack 10 minutes '

C. Pack first, play outside, and finish homework on the bus

D. Skip packing and hope he remembers everything at camp

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

34. cq3-68-q1 (caiden · week 3 · 6-8)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: Caiden has 90 minutes. Science takes 45, math takes 20, and reading takes 25. Can he complete all three?

A. Yes, exactly 90 minutes '

B. No, it takes 100 minutes

C. No, it takes 60 minutes

D. Yes, with 30 minutes left

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

35. cq3-68-q2 (caiden · week 3 · 6-8)

Mission: Time Tracker [quest-3]

Type: math · Difficulty: 4/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: Caiden has 40 minutes before practice. He has a 30-minute assignment and needs 15 minutes to get ready. What should he do?

- A. Do a short assignment chunk before the get-ready timer
- B. Complete part of the assignment and set a timer to get ready '
- C. Ignore practice
- D. Delay and hope he can rush both later

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

36. cq3-68-q3 (caiden · week 3 · 6-8)

Mission: Time Tracker [quest-3]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why is estimating time useful?

- A. It helps plan tasks realistically '
- B. It makes tasks disappear
- C. It means deadlines do not matter
- D. It helps avoid all work

Reason: guessable without reading scenario; thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

37. cq4-k1-q1 (caiden · week 4 · K-1)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, joke_or_impossible_distractor

Correct answer position: C

Scenario: Caiden gets frustrated when his answer is wrong. His face feels hot.

Question: What is a strong focus move?

- A. Rip the paper
- B. Blame someone else
- C. Take a breath and try again '
- D. Quit the activity forever

Reason: joke distractors reduce challenge; correct answer stands out too easily

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker

strategies. Make two distractors realistic alternatives; avoid making the correct answer the only positive option.
Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

38. cq4-k1-q2 (caiden · week 4 · K-1)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, joke_or_impossible_distractor, answer_length_imbalance, weak_distractor_set

Correct answer position: A

Scenario: Caiden notices his attention drifting during reading.

Question: What is the best focus reset?

- A. Take one breath and return to the sentence '
- B. Close the book forever
- C. Talk loudly
- D. Hide the book

Reason: joke distractors reduce challenge; correct answer stands out too easily

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

39. cq4-k1-q3 (caiden · week 4 · K-1)

Mission: Reset and Return [quest-4]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Caiden starts drawing during directions and misses the first step.

Question: What should he do next?

- A. Pretend he heard everything
- B. Ask for the direction again '
- C. Blame someone else
- D. Stop participating

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

40. cq4-23-q1 (caiden · week 4 · 2-3)

Mission: Reset and Return [quest-4]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden gets a question wrong. What should he do next?

- A. Take a short break and come back with a plan
- B. Take a breath and try again '
- C. Wait and hope the feeling passes

D. Throw his pencil

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

41. cq4-23-q2 (caiden · week 4 · 2-3)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: B

Scenario: (none)

Question: Caiden feels frustrated because his drawing is not perfect. What can help?

A. Rip it up

B. Take a short break '

C. Say he is bad at art

D. Set it aside without choosing a next step

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

42. cq4-23-q3 (caiden · week 4 · 2-3)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: What does reset mean?

A. Pause and get ready to try again '

B. Give up

C. Ignore everyone

D. Make a mess

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

43. cq4-45-q1 (caiden · week 4 · 4-5)

Mission: Reset and Return [quest-4]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden loses a team challenge and has 10 minutes before the next round. He can review what went wrong (6 min), practice one skill (8 min), or sit quietly and reset (4 min).

Question: Which recovery plan uses his break time best?

- A. Reset 4 minutes, then review 6 minutes — no time to practice '
- B. Skip reset and practice the full 8 minutes while still frustrated
- C. Argue about the score for the whole break
- D. Leave the activity and miss the next round

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

44. cq4-45-q2 (caiden · week 4 · 4-5)

Mission: Reset and Return [quest-4]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Caiden's teacher gives feedback on his comic. What should he do first?

- A. Listen and look for one thing to improve '
- B. Throw it away
- C. Say feedback is bad
- D. Refuse to change anything

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

45. cq4-45-q3 (caiden · week 4 · 4-5)

Mission: Reset and Return [quest-4]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's comic draft gets tough feedback. He can revise one panel (12 min), start over (30 min), or submit without changes. Camp submissions close in 15 minutes.

Question: Which choice balances improvement with the deadline?

- A. Revise one panel and submit on time '
- B. Start over even though he cannot finish in 15 minutes
- C. Submit without changes and ignore the feedback

D. Quit the contest because the feedback felt harsh

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

46. cq4-68-q1 (caiden · week 4 · 6-8)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Caiden receives critical feedback on a project he worked hard on. What response shows emotional regulation?

A. He pauses, listens, and chooses one improvement '

B. He argues immediately

C. He deletes the whole project

D. He refuses to participate

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

47. cq4-68-q2 (caiden · week 4 · 6-8)

Mission: Reset and Return [quest-4]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, insufficient_scenario_evidence

Correct answer position: A

Scenario: (none)

Question: Why is pausing helpful when emotions are strong?

A. It gives the brain time to choose a better response '

B. It makes problems vanish

C. It means feelings are wrong

D. It avoids responsibility

Reason: guessable without reading scenario; thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

48. cq4-68-q3 (caiden · week 4 · 6-8)

Mission: Reset and Return [quest-4]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: (none)

Question: Which is an example of flexible thinking?

A. Trying a new strategy after the first one fails '

- B. Doing the same thing even when it does not work
- C. Refusing help
- D. Ignoring directions

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

49. cq5-k1-q1 (caiden · week 5 · K-1)

Mission: Build the Plan [quest-5]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Caiden feels overwhelmed because his room is messy.

Question: What is the best first step?

- A. Clean the whole room at once
- B. Pick up the clothes first '
- C. Throw everything under the bed
- D. Give up

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

50. cq5-k1-q2 (caiden · week 5 · K-1)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Caiden wants to finish a project before Friday. Today is Monday.

Question: What should he do?

- A. Wait until Friday morning
- B. Make a small plan for each day '
- C. Forget about it
- D. Do only the fun parts

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

51. cq5-k1-q3 (caiden · week 5 · K-1)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: (none)

Question: Caiden needs to pack for camp. What should he do first?

- A. Make a list '
- B. Hide his backpack
- C. Watch TV
- D. Forget everything

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

52. cq5-23-q1 (caiden · week 5 · 2-3)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: (none)

Question: Caiden needs to pack for camp. What should he do first?

- A. Make a list '
- B. Check the bag and list missing items
- C. Watch TV
- D. Forget everything

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

53. cq5-23-q2 (caiden · week 5 · 2-3)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: (none)

Question: Which item belongs in a camp bag?

- A. Water bottle '
- B. Pillow from bed
- C. TV remote
- D. A random extra with no plan

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

54. cq5-23-q3 (caiden · week 5 · 2-3)

Mission: Build the Plan [quest-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: (none)

Question: What helps Caiden remember steps?

- A. A checklist '
- B. A loud noise
- C. A messy room
- D. A broken pencil

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

55. cq5-45-q1 (caiden · week 5 · 4-5)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, guessable_without_scenario, answer_length_imbalance

Correct answer position: B

Scenario: (none)

Question: Caiden is making a comic. What should happen first?

- A. Print copies
- B. Write the story idea '
- C. Sell it
- D. Color the final page first

Reason: guessable without reading scenario

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

56. cq5-45-q2 (caiden · week 5 · 4-5)

Mission: Build the Plan [quest-5]

Type: math · Difficulty: 4/5 · Priority: low

Flags: guessable_without_scenario

Correct answer position: B

Scenario: (none)

Question: Caiden has three tasks: outline story, sketch panels, add color. What is the best order?

- A. Color, sketch, outline
- B. Outline, sketch, color '
- C. Sketch, color, outline
- D. Sell, color, outline

Reason: guessable without reading scenario; includes math thinking; Caiden multi-step math/planning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

57. cq5-45-q3 (caiden · week 5 · 4-5)

Mission: Build the Plan [quest-5]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's science poster is due Friday. Research takes 40 minutes, drafting takes 30, and design takes 25. He has two 45-minute study blocks after school today and Wednesday.

Question: How should he split the work across the two blocks?

- A. Block 1: research. Block 2: drafting and as much design as fits. '
- B. Block 1: design first. Block 2: research and drafting if time remains.
- C. Do everything in one block and skip the second session
- D. Wait until Thursday night and try all steps at once

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

58. cq5-68-q1 (caiden · week 5 · 6-8)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario

Correct answer position: A

Scenario: (none)

Question: Caiden is preparing a presentation. Which plan is strongest?

- A. Research, outline, create slides, practice '
- B. Create slides, guess facts, present
- C. Practice before knowing the topic
- D. Wait until the morning it is due

Reason: guessable without reading scenario

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

59. cq5-68-q2 (caiden · week 5 · 6-8)

Mission: Build the Plan [quest-5]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, guessable_without_scenario

Correct answer position: B

Scenario: (none)

Question: Caiden is designing a game idea. What should happen first?

- A. Launch the final game
- B. Create a plan or wireframe '
- C. Sell merchandise
- D. Ignore feedback

Reason: guessable without reading scenario

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps

a little but misses the main goal | Select an option that delays the decision

60. cq5-68-q3 (caiden · week 5 · 6-8)

Mission: Build the Plan [quest-5]

Type: multiple_choice · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus, lacks_reasoning_skill

Correct answer position: A

Scenario: (none)

Question: What is the purpose of organizing a project into steps?

- A. To reduce confusion and track progress '
- B. To make it harder
- C. To avoid finishing
- D. To skip planning

Reason: correct answer stands out too easily; limited reasoning demand for band; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

61. cq6-k1-q1 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 5 camp tokens. A fruit cup costs 3 tokens.

Question: How many tokens will he have left after buying the fruit cup?

- A. 2 tokens '
- B. 5 tokens
- C. 8 tokens
- D. 0 tokens

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

62. cq6-k1-q2 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: The snack shop has water and a giant glow sticker. Caiden is thirsty after hiking.

Question: What should Caiden buy first?

- A. Water '
- B. Glow sticker
- C. Both right now
- D. Nothing at all

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

63. cq6-k1-q3 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 4 tokens. Juice costs 2 and a cookie costs 2.

Question: Can he buy both with his tokens?

A. Yes, that equals 4 '

B. No, he needs 6

C. Only if he trades shoes

D. Cookies are free

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

64. cq6-k1-q4 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 reminds Caiden that campfire s'mores cost 3 tokens tomorrow.

Question: What is a smart move today?

A. Save some tokens for tomorrow '

B. Set a small savings amount before spending

C. Buy one item now and keep a reserve

D. Spend everything without checking tomorrow's plan

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

65. cq6-k1-q5 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A friend says, "Buy the huge candy bag!" Caiden only has 5 tokens.

Question: What should Caiden do?

A. Pause and check the price '

B. Compare two options before deciding

C. Take one breath and choose based on plan

D. Grab something quickly without checking cost

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

66. cq6-k1-q6 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: guessable_without_scenario

Correct answer position: A

Scenario: Caiden wants chips (3 tokens) and a pencil (2 tokens). He has 4 tokens.

Question: What fits his tokens?

- A. Chips OR pencil, not both '
- B. Pick the item that best matches today's goal
- C. Choose one now and plan the other later
- D. Try to buy both and ignore the budget

Reason: guessable without reading scenario; appropriate simplicity for K-1; Caiden early math/planning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

67. cq6-k1-q7 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden lines up at the snack shop. The line is long and he feels rushed.

Question: What helps him decide calmly?

- A. Grab the first thing
- B. Take a breath and look at prices '
- C. Check one need first, then pick a snack
- D. Knock over the line and rush ahead

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

68. cq6-k1-q8 (caiden · week 6 · K-1)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden spent 2 tokens and has 3 left. A friend asks to borrow 2 for a toy.

Question: What is a kind and smart choice?

- A. Share 1 token and keep some saved '
- B. Give all tokens away
- C. Keep every token and walk off
- D. Trade his lunch

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

69. cq6-23-q1 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Caiden has 12 tokens for snack shop day. He wants trail mix (7) and a drink (5).

Question: What should he do first?

- A. Add the prices before buying '
- B. Check total and compare with his token limit
- C. List need vs want before paying
- D. Buy first and hope the total works out

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

70. cq6-23-q2 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two snacks cost the same: apple slices (4) or granola bar (4).

Question: Which choice shows good planning?

- A. Pick the one that fuels his hike '
- B. Buy both blindly
- C. Choose the loudest package
- D. Flip a coin in the air

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

71. cq6-23-q3 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden planned to save 5 tokens for the craft booth.

Question: A flashy toy costs 5 tokens right now. What is best?

- A. Stick to his plan and save '
- B. Change plans on impulse
- C. Borrow tokens
- D. Take the toy without paying

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

72. cq6-23-q4 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 15 tokens. Snacks cost 6, 4, and 3.

Question: Which combo stays at or under 15?

A. $6 + 4 + 3 = 13$ '

B. $6 + 4 + 6 = 16$

C. $15 + 3 = 18$

D. Buy all three twice

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

73. cq6-23-q5 (caiden · week 6 · 2-3)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A "deal" sign says buy two cookies for 9 tokens. One cookie is 5.

Question: Is the deal better if Caiden only wants one?

A. Buy one for 5 tokens '

B. Buy two anyway

C. Buy five cookies

D. Ignore all prices

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

Pick the choice that skips checking totals

84. cq6-45-q8 (caiden · week 6 · 4-5)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4 asks why a budget helps at the snack shop.

Question: What is the best answer?

- A. It guides choices so money lasts for goals '
- B. It removes all fun
- C. It means never buying snacks
- D. It is only for adults

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

85. cq6-68-q1 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Caiden has 30 tokens. Option A: 3 small snacks (8 each). Option B: one meal deal (18) plus drink (5).

Question: Which option leaves more tokens saved?

- A. Meal deal + drink = 23, saves 7 '
- B. Three snacks = 24, saves 6
- C. Both save the same
- D. Neither costs tokens

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

86. cq6-68-q2 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden can spend 12 tokens on instant fun or save toward a 25-token workshop he wants next week.

Question: What is opportunity cost?

- A. Spending now means fewer tokens for the workshop '
- B. Workshops are free
- C. Instant fun has no cost
- D. Saving is always wrong

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

87. cq6-68-q3 (caiden · week 6 · 6-8)

Mission: The Snack Shop Challenge [quest-6]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A bundle advertises "20 tokens of value for 15!" Items he would not use are in the bundle.

Question: What should Caiden evaluate?

- A. Whether he would buy each item alone '
- B. Only the bright packaging
- C. How fast the line moves
- D. What his friend buys

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The counselor checks bags at the door.

Question: What shows responsibility?

- A. Show his packed checklist proudly '
- B. Do one last item check before showing his bag
- C. Ask for a quick partner check at the door
- D. Rush through without checking anything

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

109. cq7-45-q1 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden must gather: first-aid kit, team flag, water jugs, and activity cards.

Question: What is the best multi-step plan?

- A. Safety first, then team items, then cards '

- B. Cards first, skip water
- C. Grab random items
- D. Wait until activity starts

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

110. cq7-45-q2 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: One teammate forgot a rain poncho. Skies look gray.

Question: What should Caiden do?

- A. Offer spare poncho if he has one and tell counselor '
- B. Laugh and leave
- C. Take teammate's bag
- D. Ignore weather

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

111. cq7-45-q3 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Supply table: rope, batteries, bug spray, board game.

Question: Which items belong on the outdoor mission list?

- A. Rope, batteries, bug spray '
- B. Board game only
- C. Board game and rope only
- D. None of them

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

112. cq7-45-q4 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden's team splits: gather food, gather tools, check map route.

Question: Which task is most important before leaving?

- A. Check map route so the team knows the way '
- B. Sort food by color
- C. Polish tools for fun
- D. Skip map — wander

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

113. cq7-45-q5 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: 20 minutes until launch. Packing 10 min, briefing 5 min, bathroom 5 min.

Question: Can he fit all three if he starts now?

- A. Yes — 20 minutes total if he starts now '
- B. No — needs 40 minutes
- C. Only if he skips packing
- D. Time does not matter

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

114. cq7-45-q6 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: lacks_reasoning_skill

Correct answer position: A

Scenario: Caiden packed fast but forgot to charge the lantern batteries.

Question: What is the fix?

- A. Swap in charged batteries from supply bin '
- B. Borrow spares and confirm they work
- C. Test lantern and backup before leaving
- D. Ignore light needs and leave anyway

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

115. cq7-45-q7 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: Two checklists: detailed with times vs vague “bring stuff.”

Question: Which checklist is stronger?

- A. Detailed list with times '
- B. Vague list
- C. No list
- D. List of jokes only

Reason: correct answer stands out too easily; thin scenario for inference; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

116. cq7-45-q8 (caiden · week 7 · 4-5)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: B-4 debrief: what made supply mission smooth?

Question: Best reflection?

- A. We assigned roles and checked the list twice '
- B. We packed at the last second
- C. We skipped water
- D. We never planned

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

117. cq7-68-q1 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Limited wagon space. Items: water (critical), extra games (low), first-aid (critical), decor (low).

Question: What should Caiden load first?

- A. Critical items: water and first-aid '
- B. Decor and games first
- C. Random order
- D. Leave wagon empty

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

118. cq7-68-q2 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Forecast: afternoon storms. Morning is clear.

Question: How should Caiden plan ahead?

- A. Pack rain gear even if morning is clear '
- B. Skip rain gear — sun only
- C. Plan only for morning
- D. Ignore weather apps

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

119. cq7-68-q3 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: Team of four, one first-aid kit. Two members trained, two not.

Question: Best coordination move?

- A. Assign a trained member to carry and teach location '
- B. Assign backup carrier and confirm handoff plan
- C. Keep the kit in one labeled place for team access
- D. Leave the kit behind and hope it is not needed

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

120. cq7-68-q4 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Supply run budget: 30 minutes, 3 stops. Stop A 12 min, B 8 min, C 15 min.

Question: Which plan fits?

- A. A + B = 20 min, skip C or swap C for faster errand '
- B. All three without adjusting
- C. Only stop C
- D. Wander until dark

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

121. cq7-68-q5 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: reading_level_below_band, lacks_reasoning_skill

Correct answer position: A

Scenario: Duplicate supplies: two maps, one compass, zero spare batteries.

Question: What gap should Caiden fix first?

- A. Get spare batteries '
- B. More maps
- C. Remove compass
- D. Add more maps only

Reason: limited reasoning demand for band

Rewrite: Rephrase to require comparison, prioritization, or best-choice reasoning. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

122. cq7-68-q6 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Leader asks for a "ready report" before departure.

Question: What belongs in the report?

- A. Packed items, missing items, who owns fixes '
- B. Only jokes

- C. Only complaints
- D. Nothing — wing it

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

123. cq7-68-q7 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden could help a friend fix a pack or reorganize the entire supply closet.

Question: With 10 minutes left, what is highest priority?

- A. Help friend fix pack — direct mission blocker '
- B. Do a quick blocker check, then continue own tasks
- C. Fix the highest-risk missing item first
- D. Ignore blockers and spend time on low-priority tasks

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

124. cq7-68-q8 (caiden · week 7 · 6-8)

Mission: The Camp Supply Mission [quest-7]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: After the mission, gear is scattered. Next group leaves in an hour.

Question: What shows leadership?

- A. Run a quick reset checklist for the next group '
- B. Leave gear scattered
- C. Take gear home
- D. Blame the weather

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

125. cq8-k1-q1 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: Caiden has math practice and a reading page. Math is due first tomorrow.

Question: What should he do first?

- A. Math practice '
- B. Check both due times, then pick first
- C. Start with one math problem to build momentum
- D. Avoid both tasks until late evening

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

126. cq8-k1-q2 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden wants to draw comics before any homework.

Question: What helps him start homework?

- A. Do a small homework part, then draw '
- B. Set a 10-minute homework timer before drawing
- C. Ask for help after finishing one short step
- D. Skip homework and hope tomorrow works out

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

127. cq8-k1-q3 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Three tasks: sharpen pencils, read one page, put books in bag.

Question: Which order gets him ready?

- A. Read page, sharpen pencils, bag books '
- B. Bag books before reading
- C. Only sharpen pencils
- D. Skip everything

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps

a little but misses the main goal | Select an option that delays the decision

128. cq8-k1-q4 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 says, "Pick the task that is due soonest."

Question: What does due soonest mean?

- A. The one needed the earliest '
- B. The most fun one
- C. The loudest one
- D. None of them matter

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

129. cq8-k1-q5 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden feels stuck and wants to quit.

Question: What is a brave small step?

- A. Do one problem or one sentence '
- B. Do the easiest part first, then continue
- C. Take one breath and start a tiny step
- D. Avoid starting and hope stress goes away

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

130. cq8-k1-q6 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A tablet game lights up while Caiden reads.

Question: What protects focus?

- A. Move tablet away until reading is done '
- B. Play during reading
- C. Set a short reading block, then take a game break
- D. Put reading off without a restart plan

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps

a little but misses the main goal | Select an option that delays the decision

131. cq8-k1-q7 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 20 minutes before dinner. Homework might take 15 minutes.

Question: Is that enough time?

- A. Yes — start now '
- B. No — needs five hours
- C. Time does not matter
- D. Only if he skips dinner

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

132. cq8-k1-q8 (caiden · week 8 · K-1)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Caiden finished math. Comic project is for next week.

Question: What should he do next?

- A. Reading due tomorrow '
- B. Comic project due next week
- C. Start a brand-new game
- D. Go to sleep at noon

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

133. cq8-23-q1 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Tasks: math (due tomorrow), reading (due tomorrow), comic (due Friday).

Question: Best order tonight?

- A. Math, reading, then comic if time '
- B. Comic first always
- C. Random order
- D. Skip all three

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

134. cq8-23-q2 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden estimates: math 20 min, reading 15 min, comic 40 min. He has 45 min.

Question: What is realistic tonight?

- A. Math + reading = 35 min, start comic another night '
- B. All three fully
- C. None — too hard
- D. Comic only

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

135. cq8-23-q3 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden keeps doodling instead of starting.

Question: What beats procrastination?

- A. Set a 5-minute start timer for math '
- B. Wait for perfect mood
- C. Clean entire room first
- D. Give up

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

136. cq8-23-q4 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Reading is easier; math is harder but due sooner.

Question: Which should come first?

- A. Math — due sooner and needs focus '
- B. Reading — easier so skip math
- C. Neither
- D. Flip coins

Reason: correct answer stands out too easily; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

137. cq8-23-q5 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: B-4 suggests a list: task, minutes, due date.

Question: Why is the list helpful?

- A. It shows what fits in available time '
- B. It helps choose what to do first
- C. It makes time estimates easier to compare
- D. Lists waste time and should be skipped

Reason: thin scenario for inference; includes math thinking; Caiden time/quantity reasoning

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

138. cq8-23-q6 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden finished reading early. Comic still due Friday.

Question: Smart use of extra time?

- A. Start comic draft or review math '
- B. Play until midnight
- C. Redo reading for fun only
- D. Trash the comic plan

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

139. cq8-23-q7 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Friend invites Caiden to play outside. Homework half done.

Question: What shows balance?

- A. Finish a set chunk, then play '
- B. Agree on a play time after one task block
- C. Send a quick update, then complete one step

D. Skip the task and leave it for midnight

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

140. cq8-23-q8 (caiden · week 8 · 2-3)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Caiden rushed math and made silly mistakes.

Question: What should he adjust?

- A. Add a 5-minute check step '
- B. Check the hardest problems first
- C. Use a checklist before submitting
- D. Submit fast without reviewing

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

141. cq8-45-q1 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: Math 25 min, reading 20 min, comic panels 45 min. Available: 60 min before club.

Question: Best schedule?

- A. Math + reading = 45, comic later '
- B. Comic full 45 first
- C. All three fully in 60
- D. Skip club instead

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

142. cq8-45-q2 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Comic project due Friday; math quiz Thursday.

Question: How should due dates shape the week?

- A. Quiz prep before comic finishing '
- B. Only comic all week
- C. Ignore quiz

D. Wait until Friday morning

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

143. cq8-45-q3 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden blocks: 4–4:30 math, 4:30–4:45 break, 4:45–5:05 reading.

Question: What is this called?

A. Time blocking '

B. Random guessing

C. Permanent vacation

D. Anti-homework

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

144. cq8-45-q4 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: He keeps checking messages during math.

Question: What protects the math block?

A. Silence notifications until block ends '

B. Check messages only at block breaks

C. Use do-not-disturb during math

D. Keep chat open and switch constantly

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

145. cq8-45-q5 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, guessable_without_scenario, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Reading is light; comic needs creativity. Energy is highest after snack.

Question: When should comic work go?

A. After snack when energy is high '

B. When he is exhausted

- C. Never
- D. During sleep

Reason: correct answer stands out too easily; guessable without reading scenario; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

146. cq8-45-q6 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Teacher moved comic deadline earlier. Math still due tomorrow.

Question: How should Caiden replan?

- A. Shrink comic scope tonight; keep math first '
- B. Drop math entirely
- C. Ignore new deadline
- D. Complain only

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

147. cq8-45-q7 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Caiden estimates comic at 30 min; took 50 last time.

Question: What is realistic planning?

- A. Plan 50 minutes based on last time '
- B. Plan 5 minutes
- C. Never estimate
- D. Plan 0 minutes

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

148. cq8-45-q8 (caiden · week 8 · 4-5)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks how Caiden avoided an all-nighter.

Question: Best answer?

- A. I spread tasks across days with a written plan '
- B. I used short daily blocks and adjusted once
- C. I asked for help when my estimate was off
- D. I waited until panic hour and improvised

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

149. cq8-68-q1 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Tasks: math set (45m), reading log (20m), comic script (60m), pack for camp (15m). Evening free: 90m.

Question: Strongest time-block plan?

- A. Math 45 + reading 20 + pack 15 = 80, comic tomorrow '
- B. Comic 60 only
- C. All four in 90 without cuts
- D. Pack only

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

150. cq8-68-q2 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden uses Pomodoro: 25 focus, 5 break. Math needs deep focus.

Question: How many focus blocks for 50-minute math?

- A. Two 25-minute focus blocks '
- B. One 5-minute block
- C. Ten breaks, zero focus
- D. Skip math

Reason: includes math thinking; Caiden multi-step math/planning

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

151. cq8-68-q3 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: reading_comprehension · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Group chat buzzes during reading. Reading quiz is tomorrow.

Question: What boundary shows maturity?

- A. Mute chat until reading block ends '
- B. Reply during a scheduled break instead
- C. Put phone away for one focused block
- D. Keep checking every message while reading

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

152. cq8-68-q4 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Comic script is creative; math is analytical. Energy dips after 8 p.m.

Question: How should he sequence?

- A. Math while fresh; comic earlier if possible '
- B. Hardest work at midnight
- C. Creative work when exhausted
- D. Random shuffle

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

153. cq8-68-q5 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Caiden procrastinated comic; now two nights left.

Question: Best recovery plan?

- A. Minimum viable comic tonight + polish tomorrow '
- B. Pause and rebuild a smaller plan with one clear target
- C. Start an 80-page epic tonight
- D. Blame the calendar

Reason: Caiden multi-step math/planning

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

154. cq8-68-q6 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Calendar shows: club Wed, camp pack Thu, comic Fri, math daily.

Question: What prevents Friday crunch?

- A. Draft comic Wed/Thu nights after math '
- B. Use two shorter draft sessions before Friday
- C. Block time and protect it from distractions
- D. Only work Friday 11 p.m.

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

155. cq8-68-q7 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Caiden tracks actual vs planned time for a week.

Question: Why track actual time?

- A. Improve future estimates and plans '
- B. Adjust next week's schedule with real data
- C. Spot where focus blocks were too short
- D. Ignore tracking and keep guessing

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

156. cq8-68-q8 (caiden · week 8 · 6-8)

Mission: The Homework Rescue Plan [quest-8]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks for one habit that protects focus.

Question: Strongest habit?

- A. Start with hardest due task in a protected block '
- B. Use one protected block before checking messages
- C. Break large tasks into timed steps first
- D. Multitask five apps at once

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

157. cq9-k1-q1 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Caiden is team leader. A teammate drops their craft supplies.

Question: What should Caiden say?

- A. "I can help you pick those up." '
- B. "Try picking up one side and I will get the other."
- C. "Let's ask a teammate to help us quickly."
- D. "Ignore it and leave the mess."

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

158. cq9-k1-q2 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Two friends argue about which path to take on the trail.

Question: How can Caiden help?

- A. Listen to both ideas, then suggest asking a counselor together
- B. Wait quietly and hope they figure it out
- C. Ask a counselor for help together '
- D. Pick one side and insult the other person

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

159. cq9-k1-q3 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious

Correct answer position: A

Scenario: A teammate feels nervous about the rope bridge.

Question: What should Caiden do?

- A. Encourage them and walk beside them '
- B. Say "hurry up!"
- C. Cross without them
- D. Make fun of them

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

160. cq9-k1-q4 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden's team must carry a banner together.

Question: What makes a good leader here?

- A. Hold his side and cheer the team '
- B. Keep pace and check if teammates need support
- C. Coordinate steps so everyone lifts together
- D. Drop the banner and walk away

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

161. cq9-k1-q5 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks what leaders do.

Question: What is a good answer?

- A. Help the team and listen '
- B. Boss everyone meanly
- C. Only think about winning
- D. Ignore teammates

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

162. cq9-k1-q6 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden sees a teammate sitting alone at lunch.

Question: What should he do?

- A. Invite them to sit with the group '
- B. Point and laugh
- C. Ignore them
- D. Take their seat

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

163. cq9-k1-q7 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The team wins a small prize. Everyone helped.

Question: What should Caiden say?

A. "Great job, team!"

B. "I did it all alone."

C. "Prize is mine only."

D. Say nothing

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

164. cq9-k1-q8 (caiden · week 9 · K-1)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden must pick a teammate to go first in a relay.

Question: Fair choice?

A. Someone who has not gone first yet

B. Only his best friend always

C. Himself every time

D. Pick nobody

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

165. cq9-23-q1 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden and co-leader Mia must share jobs: timer, cheer, supplies.

Question: What shows sharing leadership?

A. Split jobs clearly and thank Mia

B. Take every job

C. Let Mia do everything

D. Argue until time is up

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

166. cq9-23-q2 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Teammates disagree on flag color for their banner.

Question: How do leaders solve disagreements?

A. Listen to both ideas, then vote or blend '

B. Pick favorite friend's idea only

C. Rip the banner

D. Quit the team

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

167. cq9-23-q3 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate keeps interrupting instructions.

Question: What should Caiden say?

A. "Let's hear the full directions, then your idea." '

B. "Hold that thought; we will come back to it next."

C. "Can we take turns so everyone gets heard?"

D. "I am done listening, figure it out yourselves."

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

168. cq9-23-q4 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: guessable_without_scenario, caiden_needs_more_math_focus

Correct answer position: A

Scenario: One teammate is great at drawing; another at measuring.

Question: How can Caiden help the team?

- A. Assign drawing and measuring to those strengths '
- B. Pair strong and learning teammates by task
- C. Rotate jobs after each clear checkpoint
- D. Assign random jobs and skip planning

Reason: guessable without reading scenario

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

169. cq9-23-q5 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: The team is behind schedule.

Question: What should Caiden do first?

- A. Check the plan and assign quick next steps '
- B. Panic and blame
- C. Give up
- D. Start a new unrelated game

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

170. cq9-23-q6 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate says, "I cannot do it."

Question: Best response?

- A. "Let's try one small part together." '
- B. "Yes you can — go alone."
- C. "You are out."
- D. Ignore them

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

171. cq9-23-q7 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious

Correct answer position: A

Scenario: Caiden notices someone left out of a team photo.

Question: What shows responsibility?

- A. Ask them to join before the photo '
- B. Take photo without them
- C. Laugh about it
- D. Delete the photo

Reason: correct answer stands out too easily; Caiden time/quantity reasoning

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

172. cq9-23-q8 (caiden · week 9 · 2-3)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: B-4 asks what makes a good camp leader.

Question: Strongest answer?

- A. Listens, helps, and stays calm '
- B. Loudest voice wins
- C. Never asks for help
- D. Only cares about prizes

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

173. cq9-45-q1 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Two teammates argue about who carries the heavy water jug.

Question: How should Caiden resolve it?

- A. Suggest switching every few minutes '
- B. Let one person carry all day

C. Drop the jug

D. Leave team

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

174. cq9-45-q2 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Team challenge: build a raft. Ideas clash — tape vs rope design.

Question: What should Caiden do?

A. Combine best parts and test a small model '

B. Pick randomly

C. Destroy both ideas

D. Quit challenge

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

175. cq9-45-q3 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate made a mistake that slowed the team.

Question: What should Caiden say?

A. "Mistakes happen — let's fix it together." '

B. "You ruined everything."

C. Publicly shame them

D. Ignore the problem

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

176. cq9-45-q4 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden must delegate: navigator, builder, timekeeper.

Question: Best delegation?

- A. Match roles to skills and confirm understanding '
- B. Assign randomly without talking
- C. Do all roles himself
- D. Skip roles

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

177. cq9-45-q5 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Team morale drops after a lost round.

Question: What leadership move helps?

- A. Name one thing the team did well and next step '
- B. Complain about judges
- C. Give up
- D. Blame one person

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

178. cq9-45-q6 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden disagrees with a counselor's safety rule.

Question: What shows maturity?

- A. Ask respectfully why, then follow rule '

- B. Break rule to win
- C. Encourage team to break it
- D. Mock counselor

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

179. cq9-45-q7 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: Two quiet teammates have good ideas but do not speak up.

Question: How can Caiden help?

- A. Ask each for one idea in round-robin '
- B. Only call on loud members
- C. Ignore quiet members
- D. Finish without them

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

180. cq9-45-q8 (caiden · week 9 · 4-5)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 4/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: B-4 debrief: how did Caiden handle disagreement?

Question: Best reflection?

- A. We listened, blended ideas, and tried a test '
- B. We paused, clarified goals, and chose one next step
- C. We had no plan
- D. We blamed each other and stopped

Reason: includes math thinking

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

181. cq9-68-q1 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Team must cross a puzzle bridge in 15 minutes. Skills vary widely.

Question: How should Caiden coordinate?

- A. Assign sub-teams with clear checkpoints '
- B. Everyone does random tasks
- C. Leader does everything
- D. Skip puzzle

Reason: correct answer stands out too easily; too easy for grades 4+; includes math thinking

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

182. cq9-68-q2 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, reading_level_below_band, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Teammate wants to shortcut a safety checkpoint.

Question: What should Caiden do?

- A. Hold the line on safety and explain why '
- B. Allow shortcut to win
- C. Mock safety rules
- D. Leave team

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Team receives unclear instructions from staff.

Question: What should Caiden do?

- A. Ask staff to repeat and confirm with team '
- B. Guess and rush
- C. Blame teammates
- D. Ignore instructions

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

185. cq9-68-q5 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: A teammate is upset after harsh feedback from another member.

Question: How should Caiden respond?

- A. Private check-in, then facilitate calm talk '
- B. Ignore feelings
- C. Take sides publicly
- D. Kick someone off team

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

186. cq9-68-q6 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: caiden_needs_more_math_focus

Correct answer position: A

Scenario: Resources scarce: one extra rope, two possible uses.

Question: Decision process?

- A. Score options by safety and mission goal '
- B. Check risk, usefulness, then decide as a team
- C. Ask one clarifying question before choosing
- D. Choose randomly and skip safety review

Reason: Balanced difficulty for grade band

Rewrite: Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

187. cq9-68-q7 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: sel_decision · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus, caiden_needs_more_math_focus

Correct answer position: A

Scenario: Caiden's team finishes early. Another team struggles nearby.

Question: What shows leadership?

- A. Offer one helper if staff approves '
- B. Taunt other team
- C. Pack up silently
- D. Take their supplies

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add numbers (minutes, tokens, quantities) and ask for comparison, estimation, or ordering. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

188. cq9-68-q8 (caiden · week 9 · 6-8)

Mission: The Camp Leader Challenge [quest-9]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: B-4 asks how leaders solve disagreements.

Question: Best summary?

- A. Loudest person decides
- B. Listen, clarify goals, agree on a testable plan '
- C. Take a breath and ask each person for one solution
- D. Walk away so the conflict grows

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

189. cq1-k1-q1 (caiden · week 1 · K-1)

Mission: quest-1 [quest-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden has 10 minutes. Shoes take 3 minutes and coat takes 2 minutes. During what comes first?, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: How many minutes are left after shoes and coat?

- A. 7 minutes left — counted only...
- B. 5 minutes left for this scenar '
- C. 3 minutes left — skipped the...
- D. 10 minutes left for this scena

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

209. cq2-45-q3 (caiden · week 2 · 4-5)

Mission: quest-2 [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden has 10 tokens. A pencil costs 4 tokens and an eraser costs 3 tokens. He wants both before art class. During focus or distraction?, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: Which purchase plan best fits his 10-token budget for both items?

- A. Buy only the pencil and save the rest
- B. Yes — $4 + 3 = 7$ tokens,...
- C. Buy the eraser twice to be sure
- D. He needs 15 tokens for both

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

210. cq2-68-q1 (caiden · week 2 · 6-8)

Mission: quest-2 [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Caiden has \$14. Snack costs \$3, notebook \$5, and markers \$8. He needs the notebook today; markers can wait until tomorrow when he earns \$4. During focus or distraction?, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: What is the smartest purchase plan for today?

- A. Buy markers (\$8) only and skip snack for this scenario
- B. Buy notebook and markers (\$13) with no money left
- C. Buy notebook (\$5) and snack (\$3) — \$8 total, saves markers for...
- D. Buy all three items today with \$14 for this scenario

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

211. cq2-68-q2 (caiden · week 2 · 6-8)

Mission: quest-2 [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Three tasks: quiz study (25 min, due tomorrow), project (50 min, due in 4 days), chores (15 min, due tonight). Caiden has 35 free minutes now. During focus or distraction?, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: Which use of 35 minutes best fits the deadlines?

- A. Start the full project (50 min) and finish chores later
- B. Split 17 minutes on quiz and 18 on project — neither finishes

- C. Play first and hope to finish everything later
- D. Quiz study (25 min) plus start chores (10 of 15 min) '

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

212. cq2-68-q3 (caiden · week 2 · 6-8)

Mission: quest-2 [quest-2]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Caiden has 45 minutes before camp starts. Drawing takes 12 minutes, packing takes 8 minutes, reading takes 20 minutes, and he wants a 5-minute break. He must finish all tasks before leaving. During focus or distraction?, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: Which plan uses his 45 minutes without skipping the break or running late?

- A. Pack (8), draw (12), break (5), read (20) — total 45 minutes '
- B. Draw first, pack, read, then skip the break to save time
- C. Read (20), draw (12), pack (8) — no break planned
- D. Do all tasks at once with no time check

Reason: includes math thinking; clean baseline for band; Caiden multi-step math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

213. cq3-k1-q1 (caiden · week 3 · K-1)

Mission: quest-3 [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden has 10 minutes. Shoes take 3 minutes and coat takes 2 minutes. During time tracker, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: How many minutes are left after shoes and coat?

- A. 7 minutes left — counted only...
- B. 5 minutes left for this scenar '
- C. 3 minutes left — skipped the...
- D. 10 minutes left for this scena

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

214. cq3-k1-q2 (caiden · week 3 · K-1)

Mission: quest-3 [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Caiden has 3 things to pack: lunch, water, and his book. He packs lunch first, then water, then the book. During time tracker, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: How many items did Caiden pack in total?

- A. 2 items — he forgot to...
- B. 4 items — he counted lunch...
- C. 3 items for this scenario '
- D. 1 item only for this scenari

Reason: appropriate simplicity for K-1; Caiden early math/planning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

215. cq3-k1-q3 (caiden · week 3 · K-1)

Mission: quest-3 [quest-3]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Caiden has 11 minutes before the bell. A backpack takes 3 minutes and a jacket takes 4 minutes. During the time tracker mission, Caiden checks his plan twice and compares the time before acting.

Question: What minutes are left after those tasks?

- A. 7 minutes left — counted only...
- B. 3 minutes left — skipped the...
- C. 10 minutes left for this scena
- D. 5 minutes left for this scenar '

Reason: appropriate simplicity for K-1; Caiden early math/planning

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

326. cq8-23-q6 (caiden · week 8 · 2-3)

Mission: quest-8 [quest-8]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden has 10 tokens. A pencil costs 4 tokens and an eraser costs 3 tokens. He wants both before art class. During the homework rescue plan, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track. He reads the supply list again before spending tokens. During the homework rescue plan, Caiden checks his plan twice and compares the time before acting.

Question: Can both items fit in his token budget today?

A. Buy only the pencil and save the rest

B. Yes — $4 + 3 = 7$ tokens,...

C. Buy the eraser twice to be sure

D. He needs 15 tokens for both

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

- D. He needs 15 tokens for both

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

355. cq9-23-q3 (caiden · week 9 · 2-3)

Mission: quest-9 [quest-9]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Caiden must do homework (15 min), feed the dog (5 min), and set the table (10 min). Dinner is in 35 minutes. During the camp leader challenge, Caiden checks his plan twice, compares time and supplies, and picks the step that keeps camp prep on track.

Question: What order finishes everything with time to spare?

- A. Set table first, then homework, skip dog until after dinner
- B. Do homework and table together without timing
- C. Homework, feed dog, set table — 30 minutes total
- D. Start with the longest break first for this scenario

Reason: includes math thinking; Caiden time/quantity reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

356. cq9-23-q4 (caiden · week 9 · 2-3)

Mission: quest-9 [quest-9]

Type: math · Difficulty: 4/5 · Priority: low

CHARLIE — Detailed Audit

1. cm1-k1-q1 (charlie · week 1 · K-1)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: What should Charlie do first?

- A. Look closely at the footprints '
- B. Look from the path and avoid disturbing clues
- C. Blame the hamster
- D. Step on the footprints

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. cm1-k1-q2 (charlie · week 1 · K-1)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie sees the footprints go toward the lettuce. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, lettuce mystery bed (K-1).

Question: Charlie sees the footprints go toward the lettuce. What did he notice?

- A. The tracks lead to the snack spot '
- B. The lettuce is singing
- C. The garden is on vacation
- D. The tracks are faint and need closer observation

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

3. cm1-k1-q3 (charlie · week 1 · K-1)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: Charlie finds a tiny feather near the footprints. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, snack-track sand path (K-1).

Question: Charlie finds a tiny feather near the footprints. What should he do?

- A. Show a grown-up the clue without touching it '
- B. Mark the spot and show a grown-up
- C. Leave it where it is and document it

D. Use it as a pencil

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. cm1-23-q1 (charlie · week 1 · 2-3)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: What clue should Charlie compare. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, garden footprint trail (2-3).

Question: What clue should Charlie compare?

A. The shape of the footprints '

B. The color of Charlie's shoes

C. The lunch menu

D. The sound of the bell

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

5. cm1-23-q2 (charlie · week 1 · 2-3)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie finds big footprints AND small footprints. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, lettuce mystery bed (2-3).

Question: Charlie finds big footprints AND small footprints. What should he compare?

A. The size and shape of each set '

B. Which footprint is louder

C. Which one tastes better

D. Which one is newer than tomorrow

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

6. cm1-23-q3 (charlie · week 1 · 2-3)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The footprints have three pointy marks. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, snack-track sand path (2-3).

Question: The footprints have three pointy marks. What might that mean?

- A. The animal might have three toes or claws '
- B. The animal definitely wears sneakers
- C. The garden made the marks for fun
- D. Three footprints means three hamsters

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

7. cm1-45-q1 (charlie · week 1 · 4-5)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Why should Charlie write down. Scene: At the invention table, Charlie Perk compares two test results side by side, garden footprint trail (4-5).

Question: Why should Charlie write down what he sees?

- A. So he can compare evidence later '
- B. So the footprints look cooler
- C. So he can skip the mystery
- D. So the garden feels famous

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

8. cm1-45-q2 (charlie · week 1 · 4-5)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie draws the footprint shape in his notebook. Scene: At the invention table, Charlie Perk compares two test results side by side, lettuce mystery bed (4-5).

Question: Charlie draws the footprint shape in his notebook. Why is that smart?

- A. So he can compare it to animal track guides later '
- B. So the drawing wins an art contest
- C. So the footprints disappear
- D. So he can compare clues after leaving the scene

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

9. cm1-45-q3 (charlie · week 1 · 4-5)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: recall · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Before guessing. Scene: At the invention table, Charlie Perk compares two test results side by side, snack-track sand path (4-5).

Question: Before guessing who made the tracks, what else should Charlie record?

- A. Where the tracks start and end '
- B. His favorite sandwich
- C. How loud the hallway is
- D. The hamster's mood

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

10. cm1-68-q1 (charlie · week 1 · 6-8)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: joke_or_impossible_distractor, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: What makes Charlie's conclusion stronger. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, garden footprint trail (6-8).

Question: What makes Charlie's conclusion stronger?

- A. Multiple pieces of matching evidence '
- B. The funniest theory
- C. The first idea he has
- D. A guess from across the playground

Reason: joke distractors reduce challenge; thin scenario for inference; too easy for grades 4+; inference at upper band

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

11. cm1-68-q2 (charlie · week 1 · 6-8)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie finds footprints, nibbled lettuce, and a trail of seeds. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, lettuce mystery bed (6-8).

Question: Charlie finds footprints, nibbled lettuce, and a trail of seeds. What strengthens his case?

- A. All three clues point to the same kind of visitor '
- B. Three clues means three separate mysteries
- C. Seeds mean someone planted a garden inside the garden

D. Lettuce crumbs prove the hamster is guilty

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

12. cm1-68-q3 (charlie · week 1 · 6-8)

Mission: The Mystery Footprints [charlie-mystery-footprints]

Type: multiple_choice · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, joke_or_impossible_distractor, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: A classmate says, "Definitely the hamster!". Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, snack-track sand path (6-8).

Question: A classmate says, "Definitely the hamster!" What should Charlie ask?

A. What evidence supports that theory? '

B. Who has the funniest guess?

C. Can we vote on it?

D. Does the hamster look guilty?

Reason: joke distractors reduce challenge; too easy for grades 4+

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

13. cm2-k1-q1 (charlie · week 2 · K-1)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: What changed in Charlie's experiment. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, floating orange tub (K-1).

Question: What changed in Charlie's experiment?

A. The bowl was in the same place

B. The orange peel came off '

C. Charlie used the same water

D. Nothing changed at all

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

14. cm2-k1-q2 (charlie · week 2 · K-1)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The whole orange floated. The peeled orange sank. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, peel-and-drop station (K-1).

Question: The whole orange floated. The peeled orange sank. What should Charlie notice?

- A. The orange acted differently after peeling '
- B. The water got tired
- C. One test is not enough to prove it every time
- D. Peeling made the bowl bigger

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

15. cm2-k1-q3 (charlie · week 2 · K-1)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: C

Scenario: Charlie wants to try again. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, sink-or-float table (K-1).

Question: Charlie wants to try again. What should he change?

- A. Try a different bowl and different water together
- B. Wait and hope the result changes by itself
- C. Only one thing, like peeling or not peeling '
- D. Skip testing and guess

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

16. cm2-23-q1 (charlie · week 2 · 2-3)

Mission: The Floating Orange [charlie-floating-orange]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: What should Charlie do before dropping the peeled orange. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, floating orange tub (2-3).

Question: What should Charlie do before dropping the peeled orange?

- A. Make a prediction '
- B. Repeat the test with one small change
- C. Ask a classmate to help check the setup
- D. Start a new mystery

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

17. cm2-23-q2 (charlie · week 2 · 2-3)

Mission: The Floating Orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie predicts the peeled orange will sink. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, peel-and-drop station (2-3).

Question: Charlie predicts the peeled orange will sink. Why is that a good prediction?

- A. It is based on what he already saw happen '
- B. It is the silliest guess
- C. It ignores the first test
- D. It changes two things at once

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

18. cm2-23-q3 (charlie · week 2 · 2-3)

Mission: The Floating Orange [charlie-floating-orange]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, joke_or_impossible_distractor

Correct answer position: A

Scenario: The peeled orange sank again. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, sink-or-float table (2-3).

Question: The peeled orange sank again. What should Charlie do next?

- A. Think about why peeling might matter '
- B. Pause and choose one new thing to test
- C. Say water is broken
- D. Write the result down and test again

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. cm2-45-q1 (charlie · week 2 · 4-5)

Mission: The Floating Orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: C

Scenario: Why might the unpeeled orange float better. Scene: At the invention table, Charlie Perk compares two test results side by side, floating orange tub (4-5).

Question: Why might the unpeeled orange float better?

- A. The orange is more colorful before peeling

- B. The bowl is extra full
- C. The peel can trap tiny pockets of air '
- D. Floating depends on luck each time

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

20. cm2-45-q2 (charlie · week 2 · 4-5)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When Charlie removes the peel,. Scene: At the invention table, Charlie Perk compares two test results side by side, peel-and-drop station (4-5).

Question: When Charlie removes the peel, what might he also remove?

- A. Some of the air pockets that helped it float '
- B. The orange's ability to be round
- C. All the water in the bowl
- D. The classroom lights

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

21. cm2-45-q3 (charlie · week 2 · 4-5)

Mission: The Floating Orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie tests a peeled orange and an unpeeled orange in the same bowl. Scene: At the invention table, Charlie Perk compares two test results side by side, sink-or-float table (4-5).

Question: Charlie tests a peeled orange and an unpeeled orange in the same bowl. Why is that fair?

- A. Only the peel is different — everything else stays the same '
- B. He used two different bowls on purpose
- C. He changed the water and the peel
- D. He only tested once

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

22. cm2-68-q1 (charlie · week 2 · 6-8)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What variable did Charlie change. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, floating orange tub (6-8).

Question: What variable did Charlie change?

- A. Whether the orange had a peel '
- B. How much water was in the bowl
- C. The temperature of the water
- D. Whether both oranges were the same size

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

23. cm2-68-q2 (charlie · week 2 · 6-8)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Which hypothesis best fits Charlie's results. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, peel-and-drop station (6-8).

Question: Which hypothesis best fits Charlie's results?

- A. The orange floated because Charlie watched carefully
- B. Peeling changes how water and air interact with the orange
- C. The peel helps trap air, which affects whether the orange floats '
- D. The result cannot be explained with evidence

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

24. cm2-68-q3 (charlie · week 2 · 6-8)

Mission: The Floating Orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Charlie wants to test his hypothesis again. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, sink-or-float table (6-8).

Question: Charlie wants to test his hypothesis again. What should stay constant?

- A. The same bowl, water level, and orange size '
- B. A different fruit, bowl, and room each time
- C. Only the hypothesis — change everything else
- D. Use the same setup so the result is comparable

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

25. cm3-k1-q1 (charlie · week 3 · K-1)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, joke_or_impossible_distractor

Correct answer position: A

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted.

Question: What should Charlie do when he hears the squeak?

- A. Stop and listen carefully '
- B. Scream "ghost cabinet"
- C. Cover every window
- D. Blame his backpack

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

26. cm3-k1-q2 (charlie · week 3 · K-1)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The squeak sounds like it comes from the back corner. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, club interruption corner (K-1).

Question: The squeak sounds like it comes from the back corner. What should Charlie do?

- A. Look toward where the sound came from '
- B. Close his eyes and run
- C. Make a louder squeak
- D. Ignore the sound completely

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

27. cm3-k1-q3 (charlie · week 3 · K-1)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 3/5 · Priority: high

Flags: correct_answer_too_obvious

Correct answer position: A

Scenario: Charlie hears the squeak again. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, mystery sound map (K-1).

Question: Charlie hears the squeak again. What is he collecting?

- A. Clues about the sound '

- B. Lunch menus
- C. New jokes
- D. Extra homework

Reason: correct answer stands out too easily; appropriate simplicity for K-1

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

28. cm3-23-q1 (charlie · week 3 · 2-3)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What can help Charlie solve the sound. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, squeak hunt shelf (2-3).

Question: What can help Charlie solve the sound?

- A. Notice when it happens '
- B. Guess without listening
- C. Make a louder sound
- D. Take a breath and keep listening for the pattern

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

29. cm3-23-q2 (charlie · week 3 · 2-3)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The squeak happens right after someone opens a cabinet. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, club interruption corner (2-3).

Question: The squeak happens right after someone opens a cabinet. What should Charlie notice?

- A. The sound might be connected to the cabinet '
- B. The cabinet movement might be connected, so test it
- C. Opening things is illegal in science club
- D. The squeak only happens on Tuesdays in space

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

30. cm3-23-q3 (charlie · week 3 · 2-3)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie writes down each time he hears the squeak. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, mystery sound map (2-3).

Question: Charlie writes down each time he hears the squeak. Why?

- A. So he can spot a pattern '
- B. So the sound gets embarrassed
- C. So science club ends faster
- D. So nobody has to listen

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

31. cm3-45-q1 (charlie · week 3 · 4-5)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie hears the squeak every time the fan turns on. Scene: At the invention table, Charlie Perk compares two test results side by side, squeak hunt shelf (4-5).

Question: Charlie hears the squeak every time the fan turns on. What does that tell him?

- A. The fan may be connected to the sound '
- B. The sound loves science club
- C. The floor is telling jokes
- D. The fan is definitely innocent

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

32. cm3-45-q2 (charlie · week 3 · 4-5)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The squeak only happens. Scene: At the invention table, Charlie Perk compares two test results side by side, club interruption corner (4-5).

Question: The squeak only happens when the fan wobbles. What is Charlie tracking?

- A. A pattern between movement and sound '
- B. Whether the fan or cabinet moved right before the squeak
- C. Whether the same trigger happened each time
- D. Whether ghosts prefer fans

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

33. cm3-45-q3 (charlie · week 3 · 4-5)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A friend says the cabinet is haunted. Scene: At the invention table, Charlie Perk compares two test results side by side, mystery sound map (4-5).

Question: A friend says the cabinet is haunted. What pattern evidence does Charlie have?

- A. The squeak matches the fan turning on, not the cabinet opening '
- B. The cabinet has a spooky label
- C. Nobody likes the cabinet
- D. The cabinet is the tallest furniture

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

34. cm3-68-q1 (charlie · week 3 · 6-8)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is the best evidence-based next step. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, squeak hunt shelf (6-8).

Question: What is the best evidence-based next step?

- A. Test whether the sound stops when '
- B. Test the likely source before concluding
- C. Pause and notice one more detail first
- D. Ask everyone to talk louder

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

35. cm3-68-q2 (charlie · week 3 · 6-8)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie turns off the fan and the squeak stops. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, club interruption corner (6-8).

Question: Charlie turns off the fan and the squeak stops. What can he conclude?

- A. The fan was likely connected to the sound '
- B. The cabinet ghost took a break

C. The fan setup likely needs adjustment or maintenance

D. Patterns are not useful

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

36. cm3-68-q3 (charlie · week 3 · 6-8)

Mission: The Mystery Sound [charlie-mystery-sound]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Why is "notice. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, mystery sound map (6-8).

Question: Why is "notice when it happens" stronger than "it happens sometimes"?

A. Timing helps link the sound to a specific cause '

B. Timing makes the sound scarier

C. Pause and notice one more detail first

D. Timing only matters for music class

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

37. cm4-k1-q1 (charlie · week 4 · K-1)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: What should Charlie do next?

A. Try again with help '

B. Throw the volcano away

C. Do one small change and test again

D. Dump random supplies in at once

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

38. cm4-k1-q2 (charlie · week 4 · K-1)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's volcano made one tiny bubble. Is that a failure. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, tiny-eruption table (K-1).

Question: Charlie's volcano made one tiny bubble. Is that a failure?

- A. No — it tells Charlie what to try next '
- B. No — one small result can still guide the next test
- C. No — it means the setup needs a better next step
- D. No — even tiny bubbles are useful evidence

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

39. cm4-k1-q3 (charlie · week 4 · K-1)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: recall · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie wants a bigger reaction. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, bubble-test station (K-1).

Question: Charlie wants a bigger reaction. Who should help him stay safe?

- A. A teacher or grown-up '
- B. Nobody — pour everything fast
- C. The volcano itself
- D. A teacher or lab helper nearby

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

40. cm4-23-q1 (charlie · week 4 · 2-3)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What is the smart way to improve the volcano. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, baking soda volcano bay (2-3).

Question: What is the smart way to improve the volcano?

- A. Change one ingredient amount at a time '
- B. Change everything at once
- C. Stop measuring
- D. Change one measured amount at a time

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

41. cm4-23-q2 (charlie · week 4 · 2-3)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Charlie adds a little more vinegar and gets more bubbles. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, tiny-eruption table (2-3).

Question: Charlie adds a little more vinegar and gets more bubbles. What should he do?

- A. Remember that change worked and try the next small tweak '
- B. Add every liquid in the room
- C. Stop testing because one bubble is enough
- D. Record the result and discuss the next test

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

42. cm4-23-q3 (charlie · week 4 · 2-3)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, insufficient_scenario_evidence

Correct answer position: A

Scenario: Why should Charlie not change vinegar AND baking soda at the same time. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, bubble-test station (2-3).

Question: Why should Charlie not change vinegar AND baking soda at the same time?

- A. He would not know which change caused the result '
- B. Volcanoes only allow one ingredient total
- C. Measuring is boring
- D. Bubbles hate pairs of changes

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

43. cm4-45-q1 (charlie · week 4 · 4-5)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, insufficient_scenario_evidence

Correct answer position: A

Scenario: Why should Charlie measure the baking soda and vinegar. Scene: At the invention table, Charlie Perk compares two test results side by side, baking soda volcano bay (4-5).

Question: Why should Charlie measure the baking soda and vinegar?

- A. So he can compare what works best '

- B. So he can repeat the same test later
- C. So he can share clear results with teammates
- D. So testing is no longer needed

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

44. cm4-45-q2 (charlie · week 4 · 4-5)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Test A: 1 spoon baking soda, small bubble. Test B: 2 spoons, bigger bubble. Scene: At the invention table, Charlie Perk compares two test results side by side, tiny-eruption table (4-5).

Question: Test A: 1 spoon baking soda, small bubble. Test B: 2 spoons, bigger bubble. What did Charlie learn?

- A. More baking soda might improve the reaction '
- B. He should repeat the test to confirm the pattern
- C. He may need to test vinegar next in a separate round
- D. Amount changes can never affect bubbles

Reason: includes math thinking; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

45. cm4-45-q3 (charlie · week 4 · 4-5)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie keeps a chart of each volcano try. Scene: At the invention table, Charlie Perk compares two test results side by side, bubble-test station (4-5).

Question: Charlie keeps a chart of each volcano try. Why is that useful?

- A. He can see which amounts gave the best eruption '
- B. Charts make volcanoes erupt automatically
- C. Charts replace safety rules
- D. Charts help him choose the next revision

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

46. cm4-68-q1 (charlie · week 4 · 6-8)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, joke_or_impossible_distractor, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie wants a stronger eruption. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, baking soda volcano bay (6-8).

Question: Charlie wants a stronger eruption. What should he keep the same?

- A. All variables except the one '
- B. Pause and notice one more detail first
- C. Only the volcano name
- D. The funniest guess

Reason: joke distractors reduce challenge; thin scenario for inference; too easy for grades 4+; inference at upper band

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

47. cm4-68-q2 (charlie · week 4 · 6-8)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie tests more vinegar while keeping baking soda and cup size the same. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, tiny-eruption table (6-8).

Question: Charlie tests more vinegar while keeping baking soda and cup size the same. What is he doing?

- A. Testing one independent variable wh '
- B. Changing every variable at once
- C. Avoiding measurement on purpose
- D. Pause and notice one more detail first

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

48. cm4-68-q3 (charlie · week 4 · 6-8)

Mission: Volcano Trouble [charlie-volcano-trouble]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Three tries with the same weak bubble. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, bubble-test station (6-8).

Question: Three tries with the same weak bubble. What is the best scientific response?

- A. Analyze the data, adjust one variable, and test again '
- B. Keep one setup detail the same and test a new single change

- C. Ask for help reviewing the data before the next try
- D. Change every variable at once and guess

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

49. cm5-k1-q1 (charlie · week 5 · K-1)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What does Charlie check first. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, twin plant window ledge (K-1).

Question: What does Charlie check first?

- A. If the plant got water and light '
- B. If the plant likes jokes
- C. If the pencil is tired
- D. If the wall is green

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

50. cm5-k1-q2 (charlie · week 5 · K-1)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: One plant has dry soil. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, thriving-vs-wilt shelf (K-1).

Question: One plant has dry soil. What might have happened?

- A. It did not get enough water '
- B. It ate too much lunch
- C. It stayed up too late watching TV
- D. It turned into a pencil

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

51. cm5-k1-q3 (charlie · week 5 · K-1)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie waters the dry plant. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, leaf-check station (K-1).

Question: Charlie waters the dry plant. What is he testing?

- A. Whether water helps the sad plant '
- B. Whether the plant got enough light too
- C. Whether soil likes colors
- D. Whether desks need water

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

52. cm5-23-q1 (charlie · week 5 · 2-3)

Mission: The Missing Plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: One plant is near the window and one is in the dark corner. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, twin plant window ledge (2-3).

Question: One plant is near the window and one is in the dark corner. What should Charlie notice?

- A. Light may be making a difference '
- B. The dark corner is cooler at games
- C. The window plant is showing off
- D. The plants are racing

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

53. cm5-23-q2 (charlie · week 5 · 2-3)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: The happy plant gets watered on schedule. The sad one was skipped twice. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, thriving-vs-wilt shelf (2-3).

Question: The happy plant gets watered on schedule. The sad one was skipped twice. What might be the cause?

- A. The plant by the window might have extra light too
- B. Missing water could be hurting the sad plant '
- C. Both water and light should be checked one at a time
- D. Plant health is always random

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

54. cm5-23-q3 (charlie · week 5 · 2-3)

Mission: The Missing Plant [charlie-missing-plant]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie moves the sad plant closer to the window for one week. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, leaf-check station (2-3).

Question: Charlie moves the sad plant closer to the window for one week. Why?

- A. To test if more light helps it recover '
- B. To make the plant famous
- C. To keep conditions the same except light
- D. To see if plants like field trips

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

55. cm5-45-q1 (charlie · week 5 · 4-5)

Mission: The Missing Plant [charlie-missing-plant]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What evidence helps Charlie explain the wilted plant. Scene: At the invention table, Charlie Perk compares two test results side by side, twin plant window ledge (4-5).

Question: What evidence helps Charlie explain the wilted plant?

- A. Differences in water, light, or soil '
- B. The plant's favorite song
- C. Charlie's lunch choice
- D. The color of the desk

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

56. cm5-45-q2 (charlie · week 5 · 4-5)

Mission: The Missing Plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The wilted plant's soil is dry AND it sits in shade. Scene: At the invention table, Charlie Perk compares two test results side by side, thriving-vs-wilt shelf (4-5).

Question: The wilted plant's soil is dry AND it sits in shade. What should Charlie do first?

- A. Test one change at a time — water OR light '
- B. Change water, light, soil, and pot all at once

C. Decide the plant is hopeless

D. Only measure desk height

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

57. cm5-45-q3 (charlie · week 5 · 4-5)

Mission: The Missing Plant [charlie-missing-plant]

Type: math · Difficulty: 4/5 · Priority: low

Flags: reading_level_below_band

Correct answer position: A

Scenario: After Charlie adds water, the plant perks up a little. Scene: At the invention table, Charlie Perk compares two test results side by side, leaf-check station (4-5).

Question: After Charlie adds water, the plant perks up a little. What does that suggest?

A. Lack of water was at least part of the cause '

B. Water can be one key factor to test first

C. The plant was pretending

D. Light does not matter at all

Reason: includes math thinking

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

58. cm5-68-q1 (charlie · week 5 · 6-8)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is the best investigation plan. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, twin plant window ledge (6-8).

Question: What is the best investigation plan?

A. Compare environmental conditions and change on '

B. Keep one plant as a comparison while testing one change

C. Collect data before deciding the cause

D. Stop observing after one day

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

59. cm5-68-q2 (charlie · week 5 · 6-8)

Mission: The Missing Plant [charlie-missing-plant]

Type: math · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie records light hours, water amount, and soil moisture for both plants. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, thriving-vs-wilt shelf (6-8).

Question: Charlie records light hours, water amount, and soil moisture for both plants. Why?

- A. To compare conditions and spot wh '
- B. To write a plant report card
- C. To prove plants have opinions
- D. To avoid testing anything

Reason: thin scenario for inference; includes math thinking

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

60. cm5-68-q3 (charlie · week 5 · 6-8)

Mission: The Missing Plant [charlie-missing-plant]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: A classmate says the sad plant is "just dramatic.". Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, leaf-check station (6-8).

Question: A classmate says the sad plant is "just dramatic." What is Charlie's best response?

- A. Show the data on water and light differences '
- B. Agree without checking anything
- C. Ignore both plants
- D. Use observations instead of labels

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

61. cm6-k1-q1 (charlie · week 6 · K-1)

Correct answer position: A

Scenario: Charlie plugs in the wire and tests again. The robot drives forward. Scene: At the invention table, Charlie Perk compares two test results side by side, tiny-driver track (4-5).

Question: Charlie plugs in the wire and tests again. The robot drives forward. What step is that?

- A. Observe the result after a fix '
- B. Skip testing and celebrate
- C. Change five more parts
- D. Run one more check to confirm the fix is stable

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

70. cm6-68-q1 (charlie · week 6 · 6-8)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is the strongest debugging process. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, mini robot test lane (6-8).

Question: What is the strongest debugging process?

- A. Identify the problem, test one cause, observe the result '
- B. Change five things and hope
- C. Restart once, then verify one component at a time
- D. Use observations instead of assumptions

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

71. cm6-68-q2 (charlie · week 6 · 6-8)

Mission: Robot Rescue [charlie-robot-rescue]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie's robot spins left. He checks: power, wheel connection, motor wire, and code. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, spin-fix workbench (6-8).

Question: Charlie's robot spins left. He checks: power, wheel connection, motor wire, and code. Which order is best?

- A. Start with simple physical checks before changing code '
- B. Change code first, ignore hardware
- C. Check everything randomly
- D. Check known failure points before less likely causes

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

72. cm6-68-q3 (charlie · week 6 · 6-8)

Mission: Robot Rescue [charlie-robot-rescue]

Type: multiple_choice · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: Two fixes did not work. One fix made the robot go straight. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, tiny-driver track (6-8).

Question: Two fixes did not work. One fix made the robot go straight. What should Charlie document?

- A. Which fix worked and what the symptom was before and after '
- B. Which test changed behavior and which did not

- C. Nothing — move on
- D. A short log so future troubleshooting is faster

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

73. cm7-k1-q1 (charlie · week 7 · K-1)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Charlie's team must build the tallest tower using marshmallows and sticks. The first version leans like it heard a secret.

Question: What should Charlie's team do if the tower falls?

- A. Try again together '
- B. Pause and rebuild with one change
- C. Blame the marshmallow
- D. Eat the whole tower

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

74. cm7-k1-q2 (charlie · week 7 · K-1)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: One teammate holds the base while another adds sticks. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, leaning-build table (K-1).

Question: One teammate holds the base while another adds sticks. What are they doing?

- A. Working together to keep the tower steady '
- B. Hiding marshmallows from the teacher
- C. Competing to eat the fastest
- D. Ignoring the tower completely

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

75. cm7-k1-q3 (charlie · week 7 · K-1)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The tower leans a little. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, stick-and-puff station (K-1).

Question: The tower leans a little. What should the team do?

- A. Notice the wobble and fix the bottom '
- B. Add more height right away
- C. Knock it down for fun
- D. Pretend it is not leaning

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

76. cm7-23-q1 (charlie · week 7 · 2-3)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What helps the team improve the tower. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, marshmallow tower mat (2-3).

Question: What helps the team improve the tower?

- A. Notice what made it fall '
- B. Build the same thing again without looking
- C. Argue about whose marshmallow is best
- D. Close their eyes

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

77. cm7-23-q2 (charlie · week 7 · 2-3)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie suggests a wider base. His teammate adds diagonal sticks. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, leaning-build table (2-3).

Question: Charlie suggests a wider base. His teammate adds diagonal sticks. What is happening?

- A. The team is combining ideas to make a stronger design '
- B. They are ignoring each other
- C. They are building two separate towers
- D. They forgot the assignment

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

78. cm7-23-q3 (charlie · week 7 · 2-3)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: math · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Version 1 fell. Version 2 stood taller but wobbled. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, stick-and-puff station (2-3).

Question: Version 1 fell. Version 2 stood taller but wobbled. What should Version 3 focus on?

- A. Stability before adding more height '
- B. Being the tallest immediately
- C. Using fewer sticks on purpose
- D. Stopping after Version 1

Reason: includes math thinking

Rewrite:

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |
Pick the choice that skips checking totals

79. cm7-45-q1 (charlie · week 7 · 4-5)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: answer_length_imbalance, insufficient_scenario_evidence

Correct answer position: A

Scenario: Why should Charlie test a small tower before making it taller. Scene: At the invention table, Charlie Perk compares two test results side by side, marshmallow tower mat (4-5).

Question: Why should Charlie test a small tower before making it taller?

- A. To find weak spots early '
- B. To make the sticks nervous
- C. To avoid teamwork
- D. To learn what fails before full height attempts

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

80. cm7-45-q2 (charlie · week 7 · 4-5)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A teammate notices the middle joint is loose. Scene: At the invention table, Charlie Perk compares two test results side by side, leaning-build table (4-5).

Question: A teammate notices the middle joint is loose. What should the team do?

- A. Use the feedback and reinforce that joint '

- B. Ignore the comment and build higher
- C. Argue until time runs out
- D. Start over without talking

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

81. cm7-45-q3 (charlie · week 7 · 4-5)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: The team's tallest try fell. Their medium try stayed up. Scene: At the invention table, Charlie Perk compares two test results side by side, stick-and-puff station (4-5).

Question: The team's tallest try fell. Their medium try stayed up. What is the smart next step?

- A. Build on the stable medium design and improve it '
- B. Only chase height without stability
- C. Stop iterating
- D. Document what was stable in the medium try

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

82. cm7-68-q1 (charlie · week 7 · 6-8)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What is the best design strategy. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, marshmallow tower mat (6-8).

Question: What is the best design strategy?

- A. Build a prototype, test it, revise the design '
- B. Start with one idea, then revise from test results
- C. Make it tall before making it stable
- D. Ignore feedback

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

83. cm7-68-q2 (charlie · week 7 · 6-8)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie's team documents each version: height, wobble, and. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, leaning-build table (6-8).

Question: Charlie's team documents each version: height, wobble, and what changed. Why?

- A. To compare prototypes and choose the best next revision '
- B. To impress the marshmallows
- C. To avoid building anything
- D. Because towers require poetry

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

84. cm7-68-q3 (charlie · week 7 · 6-8)

Mission: The Marshmallow Tower [charlie-marshmallow-tower]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: One teammate wants height, another wants stability. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, stick-and-puff station (6-8).

Question: One teammate wants height, another wants stability. What is the best team move?

- A. Test a prototype that balances both, then revise '
- B. Split up and build competing towers silently
- C. Only build for height
- D. Give up because ideas differ

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

85. cm8-k1-q1 (charlie · week 8 · K-1)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: joke_or_impossible_distractor

Correct answer position: A

Scenario: Which project should Charlie trust more. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, science fair booth row (K-1).

Question: Which project should Charlie trust more?

- A. The one that watched carefully and kept track '
- B. The one with the biggest poster
- C. The one with the funniest title
- D. The one closest to snacks

Reason: joke distractors reduce challenge; appropriate simplicity for K-1

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

86. cm8-k1-q2 (charlie · week 8 · K-1)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: One student measured plant height every day. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, opposite-results display (K-1).

Question: One student measured plant height every day. Why is that helpful?

- A. It shows what changed over time '
- B. It makes the plant taller instantly
- C. It replaces watering
- D. It turns plants into music fans

Reason: thin scenario for inference; appropriate simplicity for K-1

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

87. cm8-k1-q3 (charlie · week 8 · K-1)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A project says "music wins" but nobody wrote anything down. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, evidence compare desk (K-1).

Question: A project says "music wins" but nobody wrote anything down. What should Charlie think?

- A. That is not strong evidence '
- B. It must be true because it sounds exciting
- C. Claims need notes and measurements to be trusted
- D. Snacks prove the result

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

88. cm8-23-q1 (charlie · week 8 · 2-3)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What makes a science fair test fair. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, science fair booth row (2-3).

Question: What makes a science fair test fair?

- A. Testing things the same way except for one change '

- B. Changing everything
- C. Picking the answer first
- D. Only writing down exciting results

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

89. cm8-23-q2 (charlie · week 8 · 2-3)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Project A gave both plants the same water and light. Project B did not. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, opposite-results display (2-3).

Question: Project A gave both plants the same water and light. Project B did not. Which is fairer?

- A. Project A — both plants were treated the same except music '
- B. Project B is weaker because conditions changed unpredictably
- C. Neither — fair tests do not exist
- D. Both — if the poster is big enough

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

90. cm8-23-q3 (charlie · week 8 · 2-3)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: One project tested three plants with music and three in silence. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, evidence compare desk (2-3).

Question: One project tested three plants with music and three in silence. Why is that better than one plant each?

- A. More plants give stronger evidence '
- B. Plants perform better in groups for applause
- C. Larger samples reduce one-plant luck effects
- D. Three plants means three posters

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

91. cm8-45-q1 (charlie · week 8 · 4-5)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, too_easy_for_grade_4_plus, insufficient_scenario_evidence

Correct answer position: A

Scenario: What should Charlie compare. Scene: At the invention table, Charlie Perk compares two test results side by side, science fair booth row (4-5).

Question: What should Charlie compare?

- A. The evidence and how each test was done '
- B. Poster glitter levels
- C. Who talked louder
- D. Which plant looked cooler

Reason: correct answer stands out too easily; thin scenario for inference; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

92. cm8-45-q2 (charlie · week 8 · 4-5)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: The music project kept a chart of heights. The silence project only has a drawing. Scene: At the invention table, Charlie Perk compares two test results side by side, opposite-results display (4-5).

Question: The music project kept a chart of heights. The silence project only has a drawing. Which evidence is stronger?

- A. The chart with measured data '
- B. The drawing with no measurements
- C. Both are equal because art is science
- D. Neither — guess based on favorite song

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

93. cm8-45-q3 (charlie · week 8 · 4-5)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Both projects ran two weeks. One changed water amounts halfway through. Scene: At the invention table, Charlie Perk compares two test results side by side, evidence compare desk (4-5).

Question: Both projects ran two weeks. One changed water amounts halfway through. Why does that matter?

- A. Changing water mid-test makes the results less fair '
- B. Water changes make posters shinier

- C. It does not matter at all
- D. Plants prefer surprise water

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

94. cm8-68-q1 (charlie · week 8 · 6-8)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Which claim is strongest. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, science fair booth row (6-8).

Question: Which claim is strongest?

- A. The claim supported by repeated, fair evidence '
- B. The claim with the most confident speaker
- C. The claim that sounds surprising
- D. The claim with no measurements

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

95. cm8-68-q2 (charlie · week 8 · 6-8)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The music project tested 6 plants with controlled light, water, and soil. The silence project used 1 plant near a window. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, opposite-results display (6-8).

Question: The music project tested 6 plants with controlled light, water, and soil. The silence project used 1 plant near a window. What is Charlie's best critique?

- A. The music project has stronger sample size and controlled variables '
- B. The silence project wins because it is simpler
- C. Sample size matters when judging reliability
- D. Window location does not affect plants

Reason: includes math thinking; clean baseline for band; Charlie science reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

96. cm8-68-q3 (charlie · week 8 · 6-8)

Mission: The Great Science Fair Mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A judge says, "I love music, so the music project wins.". Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, evidence compare desk (6-8).

Question: A judge says, "I love music, so the music project wins." What should Charlie argue?

- A. Personal preference is not the same as scientific evidence '
- B. Judges should score based on evidence quality
- C. Loud opinions are better than data
- D. Evidence only matters for grown-ups

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

97. cm1-k1-q1 (charlie · week 1 · K-1)

Mission: charlie-mystery-footprints [charlie-mystery-footprints]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Charlie discovers strange footprints near the school garden. Something has been snacking on the lettuce, and Charlie wants to solve the mystery without blaming the class hamster again.

Question: Which change should Charlie try first?

- A. Observe once without recording the result
- B. Look closely at the footprints '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

Flags: joke_or_impossible_distractor, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: What makes Charlie's conclusion stronger. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, garden footprint trail (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. Multiple pieces of matching evidence '
- B. The funniest theory
- C. The first idea he has
- D. A guess from across the playground

Reason: joke distractors reduce challenge; too easy for grades 4+

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

107. cm1-68-q2 (charlie · week 1 · 6-8)

Mission: charlie-mystery-footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie finds footprints, nibbled lettuce, and a trail of seeds. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, lettuce mystery bed (6-8).

Question: What evidence best supports Charlie's prediction?

- A. All three clues point to the same kind of visitor '
- B. Three clues means three separate mysteries
- C. Seeds mean someone planted a garden inside the garden
- D. Lettuce crumbs prove the hamster is guilty

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

108. cm1-68-q3 (charlie · week 1 · 6-8)

Mission: charlie-mystery-footprints [charlie-mystery-footprints]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: A classmate says, "Definitely the hamster!". Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, snack-track sand path (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. What evidence supports that theory? '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

109. cm2-k1-q1 (charlie · week 2 · K-1)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: What changed in Charlie's experiment. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, floating orange tub (K-1).

Question: What should Charlie observe next as a scientist?

- A. Observe once without recording the result

- B. The orange peel came off for this scenario '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

110. cm2-k1-q2 (charlie · week 2 · K-1)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: The whole orange floated. The peeled orange sank. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, peel-and-drop station (K-1).

Question: What might Charlie notice in the test?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. The orange acted differently after peeling '
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

111. cm2-k1-q3 (charlie · week 2 · K-1)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: D

Scenario: Charlie wants to try again. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, sink-or-float table (K-1).

Question: What should Charlie check before guessing?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. Only one thing, like peeling or not peeling '

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

112. cm2-23-q1 (charlie · week 2 · 2-3)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What should Charlie do before dropping the peeled orange. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, floating orange tub (2-3).

Question: Which result best supports the idea?

- A. Make a prediction for this scenario '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

113. cm2-23-q2 (charlie · week 2 · 2-3)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: B

Scenario: Charlie predicts the peeled orange will sink. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, peel-and-drop station (2-3).

Question: Which fair test helps Charlie compare results?

- A. Observe once without recording the result
- B. It is based on what he already saw happen '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

114. cm2-23-q3 (charlie · week 2 · 2-3)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: The peeled orange sank again. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, sink-or-float table (2-3).

Question: Which change would teach Charlie the most?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Think about why peeling might matter '
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

115. cm2-45-q1 (charlie · week 2 · 4-5)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: D

Scenario: Why might the unpeeled orange float better. Scene: At the invention table, Charlie Perk compares two test results side by side, floating orange tub (4-5).

Question: What should Charlie test to compare two ideas fairly?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. The peel can trap tiny pockets of air '

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

116. cm2-45-q2 (charlie · week 2 · 4-5)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When Charlie removes the peel,. Scene: At the invention table, Charlie Perk compares two test results side by side, peel-and-drop station (4-5).

Question: Which variable should Charlie change while keeping others the same?

- A. Some of the air pockets that helped it float '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

117. cm2-45-q3 (charlie · week 2 · 4-5)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Charlie tests a peeled orange and an unpeeled orange in the same bowl. Scene: At the invention table, Charlie Perk compares two test results side by side, sink-or-float table (4-5).

Question: What evidence best supports Charlie's prediction?

- A. Observe once without recording the result
- B. Only the peel is different — everythi... '

- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

118. cm2-68-q1 (charlie · week 2 · 6-8)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What variable did Charlie change. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, floating orange tub (6-8).

Question: What evidence best supports Charlie's prediction?

- A. Whether the orange had a peel '
- B. How much water was in the bowl
- C. The temperature of the water
- D. Whether both oranges were the same size

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

119. cm2-68-q2 (charlie · week 2 · 6-8)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: C

Scenario: Which hypothesis best fits Charlie's results. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, peel-and-drop station (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. The orange floated because Charlie watched carefully
- B. Peeling changes how water and air interact with the orange
- C. The peel helps trap air, which affects whether the orange floats '
- D. The result cannot be explained with evidence

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

120. cm2-68-q3 (charlie · week 2 · 6-8)

Mission: charlie-floating-orange [charlie-floating-orange]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie wants to test his hypothesis again. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, sink-or-float table (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. The same bowl, water level, and orange size '
- B. A different fruit, bowl, and room each time
- C. Only the hypothesis — change everything else
- D. Use the same setup so the result is comparable

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

121. cm3-k1-q1 (charlie · week 3 · K-1)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: During science club, a weird squeak keeps interrupting the room. Charlie wants to investigate before everyone decides the cabinets are haunted. During the mystery sound, Charlie observes carefully, changes one variable at a time, and records what the test shows.

Question: Which test step comes first for Charlie?

- A. Observe once without recording the result
- B. Stop and listen carefully '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

122. cm3-k1-q2 (charlie · week 3 · K-1)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: The squeak sounds like it comes from the back corner. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, club interruption corner (K-1).

Question: Which change should Charlie try first?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Look toward where the sound came from '
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

123. cm3-k1-q3 (charlie · week 3 · K-1)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Charlie hears the squeak again. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, mystery sound map (K-1).

Question: Which step helps Charlie learn from the test?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. Clues about the sound for this scenario '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

124. cm3-23-q1 (charlie · week 3 · 2-3)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What can help Charlie solve the sound. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, squeak hunt shelf (2-3).

Question: Which outcome best matches the hypothesis?

- A. Notice when it happens for this scenario '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

125. cm3-23-q2 (charlie · week 3 · 2-3)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: The squeak happens right after someone opens a cabinet. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, club interruption corner (2-3).

Question: Which variable should Charlie change first?

- A. Observe once without recording the result

- B. The sound might be connected to the cabinet '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

126. cm3-23-q3 (charlie · week 3 · 2-3)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: C

Scenario: Charlie writes down each time he hears the squeak. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, mystery sound map (2-3).

Question: What should Charlie observe before deciding?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. So he can spot a pattern for this scenario '
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

127. cm3-45-q1 (charlie · week 3 · 4-5)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Charlie hears the squeak every time the fan turns on. Scene: At the invention table, Charlie Perk compares two test results side by side, squeak hunt shelf (4-5).

Question: Which variable should Charlie change while keeping others the same?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. The fan may be connected to the sound '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

128. cm3-45-q2 (charlie · week 3 · 4-5)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The squeak only happens. Scene: At the invention table, Charlie Perk compares two test results side by side, club interruption corner (4-5).

Question: What evidence best supports Charlie's prediction?

- A. A pattern between movement and sound '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

129. cm3-45-q3 (charlie · week 3 · 4-5)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: B

Scenario: A friend says the cabinet is haunted. Scene: At the invention table, Charlie Perk compares two test results side by side, mystery sound map (4-5).

Question: What should Charlie test to compare two ideas fairly?

- A. Observe once without recording the result
- B. The squeak matches the fan turning... '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

130. cm3-68-q1 (charlie · week 3 · 6-8)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: What is the best evidence-based next step. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, squeak hunt shelf (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. Test whether the sound stops when '
- B. Test the likely source before concluding
- C. Pause and notice one more detail first
- D. Ask everyone to talk louder

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

131. cm3-68-q2 (charlie · week 3 · 6-8)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie turns off the fan and the squeak stops. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, club interruption corner (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. The fan was likely connected to the sound '
- B. The cabinet ghost took a break
- C. The fan setup likely needs adjustment or maintenance
- D. Patterns are not useful

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

132. cm3-68-q3 (charlie · week 3 · 6-8)

Mission: charlie-mystery-sound [charlie-mystery-sound]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Why is "notice. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, mystery sound map (6-8).

Question: What evidence best supports Charlie's prediction?

- A. Timing helps link the sound to a specific cause '
- B. Timing makes the sound scarier
- C. Pause and notice one more detail first
- D. Timing only matters for music class

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

133. cm4-k1-q1 (charlie · week 4 · K-1)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Charlie builds a baking soda volcano, but the eruption is tiny. It gives one sad bubble and quits. Charlie refuses to let a volcano be this dramatic and boring.

Question: What should Charlie watch for next?

- A. Observe once without recording the result
- B. Try again with help for this scenario '

- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

134. cm4-k1-q2 (charlie · week 4 · K-1)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: C

Scenario: Charlie's volcano made one tiny bubble. Is that a failure. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, tiny-eruption table (K-1).

Question: What should Charlie observe next as a scientist?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. No — it tells Charlie what to try next '
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

135. cm4-k1-q3 (charlie · week 4 · K-1)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Charlie wants a bigger reaction. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, bubble-test station (K-1).

Question: What might Charlie notice in the test?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. A teacher or grown-up for this scenario '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

136. cm4-23-q1 (charlie · week 4 · 2-3)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: science_reasoning · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is the smart way to improve the volcano. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, baking soda volcano bay (2-3).

Question: Which change would teach Charlie the most?

- A. Change one ingredient amount at a time '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

137. cm4-23-q2 (charlie · week 4 · 2-3)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Charlie adds a little more vinegar and gets more bubbles. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, tiny-eruption table (2-3).

Question: Which step keeps the test fair?

- A. Observe once without recording the result
- B. Remember that change worked and try the next small tweak '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

138. cm4-23-q3 (charlie · week 4 · 2-3)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Why should Charlie not change vinegar AND baking soda at the same time. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, bubble-test station (2-3).

Question: Which test would give the strongest evidence?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. He would not know which change caused the result '
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

139. cm4-45-q1 (charlie · week 4 · 4-5)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Why should Charlie measure the baking soda and vinegar. Scene: At the invention table, Charlie Perk compares two test results side by side, baking soda volcano bay (4-5).

Question: What evidence best supports Charlie's prediction?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. So he can compare what works best '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

140. cm4-45-q2 (charlie · week 4 · 4-5)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: Test A: 1 spoon baking soda, small bubble. Test B: 2 spoons, bigger bubble. Scene: At the invention table, Charlie Perk compares two test results side by side, tiny-eruption table (4-5).

Question: What should Charlie test to compare two ideas fairly?

- A. More baking soda might improve the reaction '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

141. cm4-45-q3 (charlie · week 4 · 4-5)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: science_reasoning · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Charlie keeps a chart of each volcano try. Scene: At the invention table, Charlie Perk compares two test results side by side, bubble-test station (4-5).

Question: Which variable should Charlie change while keeping others the same?

- A. Observe once without recording the result
- B. He can see which amounts gave the best eruption '

- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

142. cm4-68-q1 (charlie · week 4 · 6-8)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: science_reasoning · Difficulty: 1/5 · Priority: high

Flags: joke_or_impossible_distractor, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Charlie wants a stronger eruption. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, baking soda volcano bay (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. All variables except the one '
- B. Pause and notice one more detail first
- C. Only the volcano name
- D. The funniest guess

Reason: joke distractors reduce challenge; too easy for grades 4+

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Change the amount of water in the bowl | Test a different fruit size at the same time | Keep the peel but change the water temperature

143. cm4-68-q2 (charlie · week 4 · 6-8)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Charlie tests more vinegar while keeping baking soda and cup size the same. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, tiny-eruption table (6-8).

Question: What evidence best supports Charlie's prediction?

- A. Testing one independent variable wh '
- B. Changing every variable at once
- C. Avoiding measurement on purpose
- D. Pause and notice one more detail first

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

144. cm4-68-q3 (charlie · week 4 · 6-8)

Mission: charlie-volcano-trouble [charlie-volcano-trouble]

Type: inference · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: Three tries with the same weak bubble. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, bubble-test station (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. Analyze the data, adjust one variable, and test again '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference; inference at upper band

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

145. cm5-k1-q1 (charlie · week 5 · K-1)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: What does Charlie check first. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, twin plant window ledge (K-1).

Question: Which try teaches Charlie the most?

- A. Observe once without recording the result
- B. If the plant got water and light '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

146. cm5-k1-q2 (charlie · week 5 · K-1)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: One plant has dry soil. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, thriving-vs-wilt shelf (K-1).

Question: Which test step comes first for Charlie?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. It did not get enough water '
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

147. cm5-k1-q3 (charlie · week 5 · K-1)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Charlie waters the dry plant. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, leaf-check station (K-1).

Question: Which change should Charlie try first?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. Whether water helps the sad plant '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

148. cm5-23-q1 (charlie · week 5 · 2-3)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: One plant is near the window and one is in the dark corner. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, twin plant window ledge (2-3).

Question: What should Charlie observe before deciding?

- A. Light may be making a difference '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

149. cm5-23-q2 (charlie · week 5 · 2-3)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: The happy plant gets watered on schedule. The sad one was skipped twice. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, thriving-vs-wilt shelf (2-3).

Question: Which prediction fits the evidence so far?

- A. Observe once without recording the result
- B. Missing water could be hurting the sad plant '

- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

150. cm5-23-q3 (charlie · week 5 · 2-3)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Charlie moves the sad plant closer to the window for one week. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, leaf-check station (2-3).

Question: Which observation best answers the question?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. To test if more light helps it recover '
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

151. cm5-45-q1 (charlie · week 5 · 4-5)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: D

Scenario: What evidence helps Charlie explain the wilted plant. Scene: At the invention table, Charlie Perk compares two test results side by side, twin plant window ledge (4-5).

Question: What should Charlie test to compare two ideas fairly?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. Differences in water, light, or soil '

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

152. cm5-45-q2 (charlie · week 5 · 4-5)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The wilted plant's soil is dry AND it sits in shade. Scene: At the invention table, Charlie Perk compares two test results side by side, thriving-vs-wilt shelf (4-5).

Question: Which variable should Charlie change while keeping others the same?

- A. Test one change at a time — water OR light '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

153. cm5-45-q3 (charlie · week 5 · 4-5)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: After Charlie adds water, the plant perks up a little. Scene: At the invention table, Charlie Perk compares two test results side by side, leaf-check station (4-5).

Question: What evidence best supports Charlie's prediction?

- A. Observe once without recording the result
- B. Lack of water was at least part of the cause '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

154. cm5-68-q1 (charlie · week 5 · 6-8)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is the best investigation plan. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, twin plant window ledge (6-8).

Question: What evidence best supports Charlie's prediction?

- A. Compare environmental conditions and change on '
- B. Keep one plant as a comparison while testing one change
- C. Collect data before deciding the cause
- D. Stop observing after one day

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

155. cm5-68-q2 (charlie · week 5 · 6-8)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: Charlie records light hours, water amount, and soil moisture for both plants. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, thriving-vs-wilt shelf (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. To compare conditions and spot wh '
- B. To write a plant report card
- C. To prove plants have opinions
- D. To avoid testing anything

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

156. cm5-68-q3 (charlie · week 5 · 6-8)

Mission: charlie-missing-plant [charlie-missing-plant]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A classmate says the sad plant is "just dramatic.". Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, leaf-check station (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. Show the data on water and light differences '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

157. cm6-k1-q1 (charlie · week 6 · K-1)

Mission: charlie-robot-rescue [charlie-robot-rescue]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Charlie's mini robot keeps spinning in circles instead of driving forward. Charlie says, "Okay, tiny tornado, let's debug your life choices." During robot rescue, Charlie observes carefully, changes one variable at a time, and records what the test shows.

Question: What should Charlie check before guessing?

- A. Observe once without recording the result

- B. One robot part at a time for this scenario '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

158. cm6-k1-q2 (charlie · week 6 · K-1)

Mission: charlie-robot-rescue [charlie-robot-rescue]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: C

Scenario: Charlie checks the wheels. One looks loose. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, spin-fix workbench (K-1).

Question: What should Charlie watch for next?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Ask a grown-up to help tighten it safely '
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

159. cm6-k1-q3 (charlie · week 6 · K-1)

Mission: charlie-robot-rescue [charlie-robot-rescue]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: D

Scenario: After fixing the wheel, the robot goes straight. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, tiny-driver track (K-1).

Question: What should Charlie observe next as a scientist?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. Found the problem and tested a fix '

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

160. cm6-23-q1 (charlie · week 6 · 2-3)

Mission: charlie-robot-rescue [charlie-robot-rescue]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Why should Charlie test one fix at a time. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, mini robot test lane (2-3).

Question: Which test would give the strongest evidence?

- A. So he knows which fix worked '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: The tower leans a little. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, stick-and-puff station (K-1).

Question: Which test step comes first for Charlie?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. Notice the wobble and fix the bottom '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

172. cm7-23-q1 (charlie · week 7 · 2-3)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What helps the team improve the tower. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, marshmallow tower mat (2-3).

Question: Which observation best answers the question?

- A. Notice what made it fall for this scenario '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

173. cm7-23-q2 (charlie · week 7 · 2-3)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Charlie suggests a wider base. His teammate adds diagonal sticks. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, leaning-build table (2-3).

Question: Which outcome best matches the hypothesis?

- A. Observe once without recording the result

- B. The team is combining ideas to make a stronger design '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

174. cm7-23-q3 (charlie · week 7 · 2-3)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Version 1 fell. Version 2 stood taller but wobbled. Scene: During science club, Charlie Perk spreads out notes beside a curious setup, stick-and-puff station (2-3).

Question: Which variable should Charlie change first?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Stability before adding more height '
- D. Skip testing and guess from memory

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

175. cm7-45-q1 (charlie · week 7 · 4-5)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Why should Charlie test a small tower before making it taller. Scene: At the invention table, Charlie Perk compares two test results side by side, marshmallow tower mat (4-5).

Question: Which variable should Charlie change while keeping others the same?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. To find weak spots early for this scenario '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

176. cm7-45-q2 (charlie · week 7 · 4-5)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A teammate notices the middle joint is loose. Scene: At the invention table, Charlie Perk compares two test results side by side, leaning-build table (4-5).

Question: What evidence best supports Charlie's prediction?

- A. Use the feedback and reinforce that joint '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

177. cm7-45-q3 (charlie · week 7 · 4-5)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: B

Scenario: The team's tallest try fell. Their medium try stayed up. Scene: At the invention table, Charlie Perk compares two test results side by side, stick-and-puff station (4-5).

Question: What should Charlie test to compare two ideas fairly?

- A. Observe once without recording the result
- B. Build on the stable medium design and improve it '
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

178. cm7-68-q1 (charlie · week 7 · 6-8)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: C

Scenario: What is the best design strategy. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, marshmallow tower mat (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Build a prototype, test it, revise the design '
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

179. cm7-68-q2 (charlie · week 7 · 6-8)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Charlie's team documents each version: height, wobble, and. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, leaning-build table (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. To compare prototypes and... '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

180. cm7-68-q3 (charlie · week 7 · 6-8)

Mission: charlie-marshmallow-tower [charlie-marshmallow-tower]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: One teammate wants height, another wants stability. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, stick-and-puff station (6-8).

Question: What evidence best supports Charlie's prediction?

- A. Test a prototype that balances both, then revise '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

181. cm8-k1-q1 (charlie · week 8 · K-1)

Mission: charlie-science-fair-mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Which project should Charlie trust more. Scene: In the school garden lab, Charlie Perk sets up a mini experiment tray, science fair booth row (K-1).

Question: What might Charlie notice in the test?

- A. Observe once without recording the result
- B. The one that watched carefully and kept track '

- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Flags: none

Correct answer position: D

Scenario: What should Charlie compare. Scene: At the invention table, Charlie Perk compares two test results side by side, science fair booth row (4-5).

Question: What evidence best supports Charlie's prediction?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. The evidence and how each test was done '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

188. cm8-45-q2 (charlie · week 8 · 4-5)

Mission: charlie-science-fair-mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: The music project kept a chart of heights. The silence project only has a drawing. Scene: At the invention table, Charlie Perk compares two test results side by side, opposite-results display (4-5).

Question: What should Charlie test to compare two ideas fairly?

- A. The chart with measured data '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

189. cm8-45-q3 (charlie · week 8 · 4-5)

Mission: charlie-science-fair-mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Both projects ran two weeks. One changed water amounts halfway through. Scene: At the invention table, Charlie Perk compares two test results side by side, evidence compare desk (4-5).

Question: Which variable should Charlie change while keeping others the same?

- A. Observe once without recording the result
- B. Changing water mid-test makes the results less fair '

- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

190. cm8-68-q1 (charlie · week 8 · 6-8)

Mission: charlie-science-fair-mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Which claim is strongest. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, science fair booth row (6-8).

Question: Which variable should Charlie change while keeping others the same?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. The claim supported by repeated, fair evidence '
- D. Skip testing and guess from memory

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

191. cm8-68-q2 (charlie · week 8 · 6-8)

Mission: charlie-science-fair-mystery [charlie-science-fair-mystery]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: The music project tested 6 plants with controlled light, water, and soil. The silence project used 1 plant near a window. Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, opposite-results display (6-8).

Question: What evidence best supports Charlie's prediction?

- A. Observe once without recording the result
- B. Change two variables at the same time
- C. Skip testing and guess from memory
- D. The music project has stronger sample size and controlled variables '

Reason: inference at upper band; clean baseline for band; Charlie science reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

192. cm8-68-q3 (charlie · week 8 · 6-8)

Mission: charlie-science-fair-mystery [charlie-science-fair-mystery]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, insufficient_scenario_evidence

Correct answer position: A

Scenario: A judge says, "I love music, so the music project wins.". Scene: In the advanced science studio, Charlie Perk tracks clues from the latest trial, evidence compare desk (6-8).

Question: What should Charlie test to compare two ideas fairly?

- A. Personal preference is not the same as scientific evidence '
- B. Observe once without recording the result
- C. Change two variables at the same time
- D. Skip testing and guess from memory

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

MIRANDA — Detailed Audit

1. ms-k1-q1 (miranda · week 1 · K-1)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: What was missing from the board?

- A. A backpack
- B. The schedule card '
- C. A lunch box
- D. A pencil

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

2. ms-k1-q2 (miranda · week 1 · K-1)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: Where did Miranda find the card?

- A. Under the folders '
- B. In the cafeteria
- C. On the playground
- D. In a backpack

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

3. ms-k1-q3 (miranda · week 1 · K-1)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, insufficient_scenario_evidence

Correct answer position: B

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: Why were the students confused?

- A. They were tired
- B. They did not know what was next '
- C. They lost pencils

D. They wanted lunch

Reason: correct answer stands out too easily; thin scenario for inference

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option. Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

4. ms-23-q1 (miranda · week 1 · 2-3)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Before the Focus Flame activity began, students kept asking, "What are we doing next?" Miranda looked at the front board. The morning schedule card was missing. She remembered seeing the teacher carry a stack of folders near the reading table. Miranda checked near the folders and found the schedule card tucked underneath.

Question: What was missing from the board?

- A. A backpack
- B. The schedule card
- C. A lunch box
- D. A pencil

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

5. ms-23-q2 (miranda · week 1 · 2-3)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Before the Focus Flame activity began, students kept asking, "What are we doing next?" Miranda looked at the front board. The morning schedule card was missing. She remembered seeing the teacher carry a stack of folders near the reading table. Miranda checked near the folders and found the schedule card tucked underneath.

Question: Where did Miranda find the missing card?

- A. Under the folders
- B. In the cafeteria
- C. Inside a backpack
- D. On the playground

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

6. ms-23-q3 (miranda · week 1 · 2-3)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Before the Focus Flame activity began, students kept asking, "What are we doing next?" Miranda looked at the front board. The morning schedule card was missing. She remembered seeing the teacher carry a stack of folders near the reading table. Miranda checked near the folders and found the schedule card tucked underneath.

Question: Why were the students confused?

- A. They were tired
- B. They did not know what was next '
- C. They lost their pencils
- D. They wanted lunch

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

7. ms-45-q1 (miranda · week 1 · 4-5)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Before the Focus Flame activity began, Miranda noticed the classroom felt unsettled. Several students asked, "What are we doing next?" The morning schedule card was no longer posted on the board. Miranda remembered seeing the teacher carry a stack of folders from the board area to the reading table. Instead of interrupting the class, Miranda scanned the room and found one corner of the schedule card tucked beneath the folders.

Question: What detail first helped Miranda understand the problem?

- A. Students were asking what came next '
- B. The teacher was absent
- C. The lights were off
- D. Students were running outside

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

8. ms-45-q2 (miranda · week 1 · 4-5)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Before the Focus Flame activity began, Miranda noticed the classroom felt unsettled. Several students asked, "What are we doing next?" The morning schedule card was no longer posted on the board. Miranda remembered seeing the teacher carry a stack of folders from the board area to the reading table. Instead of interrupting the class, Miranda scanned the room and found one corner of the schedule card tucked beneath the folders.

Question: Which evidence helped Miranda find the schedule card?

- A. A noise in the hallway
- B. The teacher carrying folders from the board area '
- C. A student pointing at the playground
- D. A note on the door

Reason: requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

9. ms-45-q3 (miranda · week 1 · 4-5)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Before the Focus Flame activity began, Miranda noticed the classroom felt unsettled. Several students asked, "What are we doing next?" The morning schedule card was no longer posted on the board. Miranda remembered seeing the teacher carry a stack of folders from the board area to the reading table. Instead of interrupting the class, Miranda scanned the room and found one corner of the schedule card tucked beneath the folders.

Question: What character trait did Miranda use?

- A. Careful observation '
- B. Anger
- C. Guessing
- D. Avoiding the problem

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

10. ms-68-q1 (miranda · week 1 · 6-8)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: B

Scenario: At the start of the Focus Flame activity, Miranda observed that several students seemed uncertain about the classroom routine. The daily schedule card, which usually helped students prepare for transitions, was no longer displayed. Miranda reconstructed the sequence of events: the teacher had gathered materials near the board, carried folders to the reading table, and then started the activity. Based on the position of the folders and the partially visible corner of the card, Miranda inferred that the schedule card had been moved accidentally.

Question: Which evidence best supports Miranda's conclusion?

- A. Students were sitting quietly
- B. The schedule card was partly visible beneath the folders '
- C. The cafeteria was closed
- D. The clock was broken

Reason: correct answer stands out too easily; too easy for grades 4+; requires scenario-based reasoning

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

11. ms-68-q2 (miranda · week 1 · 6-8)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: At the start of the Focus Flame activity, Miranda observed that several students seemed uncertain about the classroom routine. The daily schedule card, which usually helped students prepare for transitions, was no longer displayed. Miranda reconstructed the sequence of events: the teacher had gathered materials near the board, carried folders to the reading table, and then started the activity. Based on the position of the folders and the partially visible corner of the card, Miranda inferred that the schedule card had been moved accidentally.

Question: Why does the missing schedule matter?

- A. It makes transitions less predictable '
- B. It makes the room colder
- C. It changes lunch time
- D. It helps students ignore directions

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

12. ms-68-q3 (miranda · week 1 · 6-8)

Mission: The Missing Schedule [miranda-mystery-file-1]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: At the start of the Focus Flame activity, Miranda observed that several students seemed uncertain about the classroom routine. The daily schedule card, which usually helped students prepare for transitions, was no longer displayed. Miranda reconstructed the sequence of events: the teacher had gathered materials near the board, carried folders to the reading table, and then started the activity. Based on the position of the folders and the partially visible corner of the card, Miranda inferred that the schedule card had been moved accidentally.

Question: What does “inferred” mean in this passage?

- A. Guessed without evidence
- B. Used clues to reach a conclusion '
- C. Asked someone to leave
- D. Forgot important details

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

13. mst-k1-q1 (miranda · week 2 · K-1)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Miranda counted the line. Caiden was missing. She saw his jacket on a chair and told the facilitator.

Question: Who was missing from the line?

- A. Miranda
- B. Caiden '
- C. The teacher
- D. Nobody

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

14. mst-k1-q2 (miranda · week 2 · K-1)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda counted the line. Caiden was missing. She saw his jacket on a chair and told the facilitator.

Question: What did Miranda see on the chair?

- A. Caiden's jacket '
- B. A sandwich
- C. A basketball
- D. A notebook only

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

15. mst-k1-q3 (miranda · week 2 · K-1)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Miranda counted the line. Caiden was missing. She saw his jacket on a chair and told the facilitator.

Question: What safe choice did Miranda make?

- A. She told the facilitator '
- B. She ran away alone
- C. She hid
- D. She ignored it

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps

a little but misses the main goal | Select an option that delays the decision

16. mst-23-q1 (miranda · week 2 · 2-3)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Caiden was not in the line after the ceremony. Miranda looked around carefully. She saw Caiden's notebook on a chair and heard a sound near the hallway. Miranda told an adult and walked with the group to check safely.

Question: Who was missing from the line?

- A. Miranda
- B. Caiden '
- C. B-4
- D. Charlie

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

17. mst-23-q2 (miranda · week 2 · 2-3)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Caiden was not in the line after the ceremony. Miranda looked around carefully. She saw Caiden's notebook on a chair and heard a sound near the hallway. Miranda told an adult and walked with the group to check safely.

Question: What did Miranda see on the chair?

- A. Caiden's notebook '
- B. A snack
- C. A toy
- D. A jacket

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

18. mst-23-q3 (miranda · week 2 · 2-3)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Caiden was not in the line after the ceremony. Miranda looked around carefully. She saw Caiden's notebook on a chair and heard a sound near the hallway. Miranda told an adult and walked with the group to check safely.

Question: What safe choice did Miranda make?

- A. She ran alone
- B. She told an adult '
- C. She waited nearby and hoped someone else noticed
- D. She ignored it

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

19. mst-45-q1 (miranda · week 2 · 4-5)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: After the ceremony, Miranda noticed Caiden was no longer standing with the group. His notebook was still on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway. Instead of searching alone, she told the facilitator what she noticed and helped the group retrace the last place Caiden had been seen.

Question: What clue suggested Caiden left quickly?

- A. His notebook and water bottle were left behind '
- B. He packed his bag neatly
- C. The lights turned off
- D. Miranda found a map

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

20. mst-45-q2 (miranda · week 2 · 4-5)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: After the ceremony, Miranda noticed Caiden was no longer standing with the group. His notebook was still on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway. Instead of searching alone, she told the facilitator what she noticed and helped the group retrace the last place Caiden had been seen.

Question: Why did Miranda tell the facilitator?

- A. It was the safest choice '
- B. She wanted an adult to search while she kept observing
- C. She was not sure what the sound meant yet
- D. She needed permission before retracing steps

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

21. mst-45-q3 (miranda · week 2 · 4-5)

Mission: The Missing Student [miranda-mystery-file-2]

Type: reading_comprehension · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: B

Scenario: After the ceremony, Miranda noticed Caiden was no longer standing with the group. His notebook was still on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway. Instead of searching alone, she told the facilitator what she noticed and helped the group retrace the last place Caiden had been seen.

Question: What does “retrace” mean?

- A. Draw a picture
- B. Follow back through the steps '
- C. Skip the activity
- D. Make a guess

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

22. mst-68-q1 (miranda · week 2 · 6-8)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When the ceremony ended, Miranda immediately noticed a change in the group's pattern: Caiden was absent, but his notebook remained on the chair beside his water bottle. Rather than assume he had simply left, Miranda identified the last confirmed location where Caiden had been seen and reported the information to the facilitator. Her goal was not to solve the situation alone but to provide useful observations so the adults could respond quickly and safely.

Question: Which detail is most important evidence?

- A. Caiden's belongings were left behind '
- B. Miranda reported what she saw to the facilitator
- C. The ceremony had just ended
- D. Miranda identified the last confirmed location

Reason: inference at upper band; clean baseline for band; requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

23. mst-68-q2 (miranda · week 2 · 6-8)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When the ceremony ended, Miranda immediately noticed a change in the group's pattern: Caiden was absent, but his notebook remained on the chair beside his water bottle. Rather than assume he had simply left, Miranda identified the last confirmed location where Caiden had been seen and reported the information to the facilitator. Her goal was not to solve the situation alone but to provide useful observations so the adults could respond quickly and safely.

Question: What does Miranda's response show?

- A. She understands safety and responsibility '
- B. She wants to solve the mystery alone
- C. She assumes Caiden left on purpose without checking
- D. She waits for someone else to notice first

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

24. mst-68-q3 (miranda · week 2 · 6-8)

Mission: The Missing Student [miranda-mystery-file-2]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: When the ceremony ended, Miranda immediately noticed a change in the group's pattern: Caiden was absent, but his notebook remained on the chair beside his water bottle. Rather than assume he had simply left, Miranda identified the last confirmed location where Caiden had been seen and reported the information to the facilitator. Her goal was not to solve the situation alone but to provide useful observations so the adults could respond quickly and safely.

Question: Why is "last confirmed location" important?

- A. It helps adults know where to begin checking '
- B. It proves Caiden was hiding
- C. It makes the mystery harder
- D. It replaces asking for help

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

25. mcl-k1-q1 (miranda · week 3 · K-1)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Miranda found a smudged note. One word was missing. A picture of a library door helped her figure it out.

Question: What was missing from the note?

- A. A word '
- B. The whole note
- C. Miranda's pencil
- D. A backpack

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

26. mcl-k1-q2 (miranda · week 3 · K-1)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a smudged note. One word was missing. A picture of a library door helped her figure it out.

Question: What picture helped Miranda?

- A. A library door '
- B. A soccer ball
- C. A pizza
- D. A rain cloud

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

27. mcl-k1-q3 (miranda · week 3 · K-1)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a smudged note. One word was missing. A picture of a library door helped her figure it out.

Question: Where did the clue probably point?

- A. The library '
- B. The pool
- C. The bus
- D. The moon

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

28. mcl-23-q1 (miranda · week 3 · 2-3)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a note with one word missing. The note said, "Meet by the ____ after lunch." She looked at the picture beside the note. It showed a tree. Miranda knew the missing word was tree.

Question: What was missing from the note?

- A. A word '
- B. A pencil
- C. A backpack
- D. A snack

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

29. mcl-23-q2 (miranda · week 3 · 2-3)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a note with one word missing. The note said, "Meet by the ____ after lunch." She looked at the picture beside the note. It showed a tree. Miranda knew the missing word was tree.

Question: What picture helped Miranda?

- A. A tree '
- B. A chair
- C. A shoe
- D. A clock

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

30. mcl-23-q3 (miranda · week 3 · 2-3)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a note with one word missing. The note said, "Meet by the ____ after lunch." She looked at the picture beside the note. It showed a tree. Miranda knew the missing word was tree.

Question: What word completed the note?

- A. tree '
- B. lunch
- C. book
- D. door

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

31. mcl-45-q1 (miranda · week 3 · 4-5)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda found a clue note on the floor. One word had been smudged: "Meet by the ____ after lunch." Next to the sentence was a small drawing of branches and leaves. Miranda compared the drawing to places around the school and realized the note probably pointed to the tree near the playground.

Question: What helped Miranda figure out the missing word?

- A. The drawing of branches and leaves '
- B. A loud bell
- C. A lunch tray
- D. A classroom door

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

32. mcl-45-q2 (miranda · week 3 · 4-5)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a clue note on the floor. One word had been smudged: "Meet by the ____ after lunch." Next to the sentence was a small drawing of branches and leaves. Miranda compared the drawing to places around the school and realized the note probably pointed to the tree near the playground.

Question: What does "smudged" mean?

- A. Blurry or rubbed away '
- B. Very loud
- C. Easy to hear
- D. Carefully folded

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

33. mcl-45-q3 (miranda · week 3 · 4-5)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a clue note on the floor. One word had been smudged: "Meet by the ____ after lunch." Next to the sentence was a small drawing of branches and leaves. Miranda compared the drawing to places around the school and realized the note probably pointed to the tree near the playground.

Question: Where did the clue probably point?

- A. The tree near the playground '
- B. The cafeteria sink
- C. The library desk
- D. The gym closet

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

34. mcl-68-q1 (miranda · week 3 · 6-8)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda discovered a clue note with a partially smudged location: "Meet by the ____ after lunch."

Although the missing word was unreadable, a small sketch beside the sentence showed branches, leaves, and a curved trunk. Miranda used context clues from both the sentence and the drawing to infer that the intended meeting place was the old tree near the playground.

Question: Which clue most strongly supports the answer?

- A. The sketch of branches, leaves, and trunk '
- B. The word lunch
- C. The note being on the floor
- D. The sentence being short

Reason: correct answer stands out too easily; too easy for grades 4+; requires scenario-based reasoning

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

35. mcl-68-q2 (miranda · week 3 · 6-8)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Miranda discovered a clue note with a partially smudged location: "Meet by the ____ after lunch."

Although the missing word was unreadable, a small sketch beside the sentence showed branches, leaves, and a curved trunk. Miranda used context clues from both the sentence and the drawing to infer that the intended meeting place was the old tree near the playground.

Question: What strategy did Miranda use?

- A. Context clues '
- B. Using one clue without checking others
- C. Ignoring evidence
- D. Asking everyone to stop

Reason: inference at upper band; requires scenario-based reasoning

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

36. mcl-68-q3 (miranda · week 3 · 6-8)

Mission: The Missing Clue [miranda-mystery-file-3]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Miranda found a hidden m_ssage taped behind a poster. The smudged letters made the word hard to read. Beside the note was a drawing of an envelope with writing inside. Miranda compared the picture to the blank spaces and restored the word message.

Question: Which clue best supports the restored word?

- A. The drawing of an envelope with writing inside '
- B. The poster color
- C. The time of day
- D. The hallway noise

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

42. mml-23-q3 (miranda · week 4 · 2-3)

Mission: The Missing Letters [the-missing-letters]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found a hidden m_ssage taped behind a poster. The smudged letters made the word hard to read. Beside the note was a drawing of an envelope with writing inside. Miranda compared the picture to the blank spaces and restored the word message.

Question: What word completes m_ssage?

- A. message '
- B. mesage
- C. messige
- D. messege

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

43. mml-45-q1 (miranda · week 4 · 4-5)

Mission: The Missing Letters [the-missing-letters]

Type: inference · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda examined a case file where several detective words had vanished. One entry read, "The witness gave a helpful d_scr_pt_on of the suspect." Nearby, Miranda's notes described someone's appearance in detail. She used the surrounding sentence and her notes to infer the missing word was description.

Question: According to the passage, what was missing from the case file?

- A. Letters inside detective words '
- B. The whole case file
- C. Miranda's badge
- D. The suspect's name only

Reason: clean baseline for band; requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

44. mml-45-q2 (miranda · week 4 · 4-5)

Mission: The Missing Letters [the-missing-letters]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda examined a case file where several detective words had vanished. One entry read, "The witness gave a helpful d_scr_pt_on of the suspect." Nearby, Miranda's notes described someone's appearance in detail. She used the surrounding sentence and her notes to infer the missing word was description.

Question: Which clue best supports the word description?

- A. Notes about someone's appearance in detail '
- B. A drawing of a lunch table
- C. A bell ringing
- D. A closed classroom door

Reason: correct answer stands out too easily; too easy for grades 4+; requires scenario-based reasoning

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

45. mml-45-q3 (miranda · week 4 · 4-5)

Mission: The Missing Letters [the-missing-letters]

Type: inference · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda examined a case file where several detective words had vanished. One entry read, "The witness gave a helpful d_scr_pt_on of the suspect." Nearby, Miranda's notes described someone's appearance in detail. She used the surrounding sentence and her notes to infer the missing word was description.

Question: What does "witness" mean in the passage?

- A. Someone who saw what happened '

- B. Someone who hides clues
- C. A type of backpack
- D. A school schedule

Reason: clean baseline for band; requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

46. mml-68-q1 (miranda · week 4 · 6-8)

Mission: The Missing Letters [the-missing-letters]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda recovered a partially damaged investigation log. Key terms had missing letters: "The team will inv_st_g_te the disc_p_ncy between the two witness accounts." Although the letters were gone, Miranda noted that investigate means to examine closely and discrepancy means a difference that does not match. She used both context clues and word structure to restore the corrupted terms.

Question: According to the passage, how did Miranda restore the words?

- A. She used context clues and word structure '
- B. She guessed without reading
- C. She erased the whole log
- D. She asked someone else to solve it

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

47. mml-68-q2 (miranda · week 4 · 6-8)

Mission: The Missing Letters [the-missing-letters]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda recovered a partially damaged investigation log. Key terms had missing letters: "The team will inv_st_g_te the disc_p_ncy between the two witness accounts." Although the letters were gone, Miranda noted that investigate means to examine closely and discrepancy means a difference that does not match. She used both context clues and word structure to restore the corrupted terms.

Question: Which clue best supports the word discrepancy?

- A. A difference between two witness accounts '
- B. A matching story from everyone
- C. A single empty chair
- D. A poster on the wall

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

48. mml-68-q3 (miranda · week 4 · 6-8)

Mission: The Missing Letters [the-missing-letters]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: joke_or_impossible_distractor, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda recovered a partially damaged investigation log. Key terms had missing letters: "The team will inv_st_g_te the disc_p_ncy between the two witness accounts." Although the letters were gone, Miranda noted that investigate means to examine closely and discrepancy means a difference that does not match. She used both context clues and word structure to restore the corrupted terms.

Question: What does "investigate" mean in this log?

- A. Examine closely to find answers '
- B. Ignore the problem
- C. Finish lunch early
- D. Hide the evidence

Reason: joke distractors reduce challenge; too easy for grades 4+; inference at upper band

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

49. mcc-k1-q1 (miranda · week 5 · K-1)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda looked closely at the poster on the wall. She did not just glance. She examined every corner to find a hidden clue.

Question: According to the passage, what did Miranda do to the poster?

- A. She looked at it closely '
- B. She tore it down
- C. She ignored it
- D. She painted it

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

50. mcc-k1-q2 (miranda · week 5 · K-1)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda looked closely at the poster on the wall. She did not just glance. She examined every corner to find a hidden clue.

Question: Which clue best supports what "examined" means?

- A. She looked at every corner '
- B. She ran away

- C. She ate a snack
- D. She closed her eyes

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

51. mcc-k1-q3 (miranda · week 5 · K-1)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda looked closely at the poster on the wall. She did not just glance. She examined every corner to find a hidden clue.

Question: What was Miranda trying to find?

- A. A hidden clue '
- B. A new backpack
- C. A lunch box
- D. A rain coat

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

52. mcc-23-q1 (miranda · week 5 · 2-3)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda carefully examined the poster taped near the bulletin board. The clue seemed unusual because the drawing did not match anything she had seen before. She wrote in her notebook that unusual means different from what you expect.

Question: According to the passage, why did the clue seem unusual?

- A. The drawing did not match anything Miranda had seen '
- B. The poster was the same as always
- C. Miranda forgot her notebook
- D. The bell had not rung yet

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

53. mcc-23-q2 (miranda · week 5 · 2-3)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Miranda carefully examined the poster taped near the bulletin board. The clue seemed unusual because the drawing did not match anything she had seen before. She wrote in her notebook that unusual means different from what you expect.

Question: Which clue best supports what "unusual" means?

- A. Different from what you expect '
- B. Easy to carry
- C. Very loud
- D. Already solved

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

54. mcc-23-q3 (miranda · week 5 · 2-3)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda carefully examined the poster taped near the bulletin board. The clue seemed unusual because the drawing did not match anything she had seen before. She wrote in her notebook that unusual means different from what you expect.

Question: What does "examined" mean in the passage?

- A. Looked at closely '
- B. Ignored completely
- C. Threw away
- D. Hid under a desk

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

55. mcc-45-q1 (miranda · week 5 · 4-5)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The campers searched the room for evidence after the schedule disappeared. Miranda hesitated before opening a sealed envelope because she wanted to follow the rules. Her facilitator reminded her that evidence means proof or clues that help solve a mystery.

Question: According to the passage, what were the campers searching for?

- A. Evidence '

- B. Lunch menus
- C. New shoes
- D. Art supplies only

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

56. mcc-45-q2 (miranda · week 5 · 4-5)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: The campers searched the room for evidence after the schedule disappeared. Miranda hesitated before opening a sealed envelope because she wanted to follow the rules. Her facilitator reminded her that evidence means proof or clues that help solve a mystery.

Question: Which clue best supports what "evidence" means?

- A. Proof or clues that help solve a mystery '
- B. A reward for finishing early
- C. A type of backpack
- D. A classroom rule

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

57. mcc-45-q3 (miranda · week 5 · 4-5)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: The campers searched the room for evidence after the schedule disappeared. Miranda hesitated before opening a sealed envelope because she wanted to follow the rules. Her facilitator reminded her that evidence means proof or clues that help solve a mystery.

Question: What does "hesitated" suggest about Miranda?

- A. She paused because she wanted to follow the rules '
- B. She ran away from the room
- C. She already knew the answer
- D. She refused to help

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

58. mcc-68-q1 (miranda · week 5 · 6-8)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda reviewed a case summary where the suspect's alibi seemed plausible at first. However, one witness contradicted the timeline, and Miranda had to scrutinize each detail before drawing a conclusion. She noted that plausible means believable and contradict means to say the opposite.

Question: According to the passage, what made Miranda scrutinize the details?

- A. A witness contradicted the timeline '
- B. The case was already closed
- C. Miranda lost her notebook
- D. No one gave any information

Reason: inference at upper band; clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

59. mcc-68-q2 (miranda · week 5 · 6-8)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda reviewed a case summary where the suspect's alibi seemed plausible at first. However, one witness contradicted the timeline, and Miranda had to scrutinize each detail before drawing a conclusion. She noted that plausible means believable and contradict means to say the opposite.

Question: Which clue best supports what "plausible" means?

- A. Believable at first '
- B. Completely impossible
- C. Hidden under a table
- D. Written in another language

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

60. mcc-68-q3 (miranda · week 5 · 6-8)

Mission: The Context Clue Challenge [the-context-clue-challenge]

Type: inference · Difficulty: 1/5 · Priority: high

Flags: joke_or_impossible_distractor, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda reviewed a case summary where the suspect's alibi seemed plausible at first. However, one witness contradicted the timeline, and Miranda had to scrutinize each detail before drawing a conclusion. She noted that plausible means believable and contradict means to say the opposite.

Question: What does "contradict" mean in this case?

- A. Say the opposite '
- B. Agree completely

- C. Forget the facts
- D. Hide the notebook

Reason: joke distractors reduce challenge; too easy for grades 4+; inference at upper band

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

61. mdn-k1-q1 (miranda · week 6 · K-1)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found muddy footprints near the gym. The footprints led to the library. Under a table, she found a clue taped to the wood.

Question: According to the passage, where did Miranda find footprints?

- A. Near the gym '
- B. On the bus
- C. In the cafeteria
- D. On the playground slide

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

62. mdn-k1-q2 (miranda · week 6 · K-1)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Miranda found muddy footprints near the gym. The footprints led to the library. Under a table, she found a clue taped to the wood.

Question: Which clue best supports where Miranda went next?

- A. The footprints led to the library '
- B. Miranda ate lunch
- C. The gym door was locked
- D. A bell rang

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda found muddy footprints near the gym. The footprints led to the library. Under a table, she found a clue taped to the wood.

Question: Where did Miranda find the hidden clue?

- A. Under a table '
- B. In her backpack
- C. On the roof
- D. Inside a shoe

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

64. mdn-23-q1 (miranda · week 6 · 2-3)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda spotted muddy footprints near the gym door. She followed the trail down the hallway until the prints stopped outside the library. Inside, she knelt beneath a reading table and found a folded note taped to the underside. The note said the missing schedule was hidden for a team-building surprise.

Question: According to the passage, where did the footprints stop?

- A. Outside the library '
- B. Inside the gym closet
- C. On the playground
- D. At the bus stop

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

65. mdn-23-q2 (miranda · week 6 · 2-3)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda spotted muddy footprints near the gym door. She followed the trail down the hallway until the prints stopped outside the library. Inside, she knelt beneath a reading table and found a folded note taped to the underside. The note said the missing schedule was hidden for a team-building surprise.

Question: Which clue best supports why Miranda knelt under the table?

- A. She was searching for a hidden note '
- B. She dropped her pencil
- C. She wanted to take a nap

D. She was hiding from a friend

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 2/5 · Priority: high

Flags: joke_or_impossible_distractor

Correct answer position: A

Scenario: Miranda spotted muddy footprints near the gym door. She followed the trail down the hallway until the prints stopped outside the library. Inside, she knelt beneath a reading table and found a folded note taped to the underside. The note said the missing schedule was hidden for a team-building surprise.

Question: What did the hidden note explain?

A. The schedule was hidden for a surprise '

B. The library was closed forever

C. Miranda was in trouble

D. The gym was being torn down

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

67. mdn-45-q1 (miranda · week 6 · 4-5)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda documented a trail of muddy footprints that began near the gym and continued in a straight path toward the library. The depth of the prints suggested someone had walked quickly while carrying something.

Beneath a library table, she recovered a note explaining that the schedule had been moved temporarily for a planned surprise activity.

Question: According to the passage, what did the depth of the prints suggest?

A. Someone walked quickly while carrying something '

B. Nobody had been in the hallway

C. The gym floor was dry

D. The library was empty all day

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

68. mdn-45-q2 (miranda · week 6 · 4-5)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 1/5 · Priority: high

Flags: joke_or_impossible_distractor, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: Miranda documented a trail of muddy footprints that began near the gym and continued in a straight path toward the library. The depth of the prints suggested someone had walked quickly while carrying something. Beneath a library table, she recovered a note explaining that the schedule had been moved temporarily for a planned surprise activity.

Question: Which clue best supports that the schedule was not stolen?

- A. A note said it was moved for a planned surprise '
- B. The footprints disappeared completely
- C. Miranda found no note at all
- D. The gym door was broken

Reason: joke distractors reduce challenge; too easy for grades 4+

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

69. mdn-45-q3 (miranda · week 6 · 4-5)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda documented a trail of muddy footprints that began near the gym and continued in a straight path toward the library. The depth of the prints suggested someone had walked quickly while carrying something. Beneath a library table, she recovered a note explaining that the schedule had been moved temporarily for a planned surprise activity.

Question: What does "recovered" mean in the passage?

- A. Found and took back '
- B. Threw away
- C. Forgot about
- D. Copied from a friend

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

70. mdn-68-q1 (miranda · week 6 · 6-8)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda analyzed a sequence of muddy footprints leading from the gym to the library. The trail's straight path and deep impressions suggested purposeful movement rather than random wandering. After recovering a note beneath a reading table, she inferred that the missing schedule had been relocated intentionally for a team-building surprise, not removed because of a problem.

Question: According to the passage, what did the trail's straight path suggest?

- A. Purposeful movement toward one destination '
- B. Random wandering with no goal
- C. That no one had walked there
- D. That the gym had flooded

Reason: inference at upper band; clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

71. mdn-68-q2 (miranda · week 6 · 6-8)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda analyzed a sequence of muddy footprints leading from the gym to the library. The trail's straight path and deep impressions suggested purposeful movement rather than random wandering. After recovering a note beneath a reading table, she inferred that the missing schedule had been relocated intentionally for a team-building surprise, not removed because of a problem.

Question: Which clue best supports Miranda's inference about the schedule?

- A. The note said it was relocated for a team-building surprise '
- B. The footprints were shallow and scattered
- C. Miranda found no evidence in the library
- D. The gym door was left wide open

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

72. mdn-68-q3 (miranda · week 6 · 6-8)

Mission: Miranda's Detective Notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda analyzed a sequence of muddy footprints leading from the gym to the library. The trail's straight path and deep impressions suggested purposeful movement rather than random wandering. After recovering a note beneath a reading table, she inferred that the missing schedule had been relocated intentionally for a team-building surprise, not removed because of a problem.

Question: Why is it important that Miranda inferred before reacting?

- A. Evidence helped her avoid jumping to the wrong conclusion '
- B. She wanted to ignore the note
- C. She hoped the schedule was stolen
- D. She did not need any clues

Reason: inference at upper band; clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

73. ms-k1-q1 (miranda · week 1 · K-1)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Students asked, "What are we doing next?" The schedule card was missing from the board. Miranda looked near the reading table and found the card under some folders.

Question: According to the passage, What was missing from the board?

- A. A detail from the wrong sentence
- B. The schedule card for this scenario '
- C. A word that appears but does not answer
- D. Something not mentioned in the passage

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

74. ms-k1-q2 (miranda · week 1 · K-1)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Before Focus Flame began, students kept asking, "What are we doing next?" Miranda studied the front board and noticed the morning schedule card was gone. She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: According to the passage, Where does the passage say Miranda found the card?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. Under the folders for this scenario '
- D. Something not mentioned in the passage

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

75. ms-k1-q3 (miranda · week 1 · K-1)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: math · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Before Focus Flame began, students kept asking, "What are we doing next?" Miranda studied the front board and noticed the morning schedule card was gone. She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: According to the passage, Which sentence from the passage best explains why students were confused?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. Something not mentioned in the passage
- D. They kept asking what was next '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

76. ms-23-q1 (miranda · week 1 · 2-3)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: According to the passage, Which detail tells where Miranda found the card?

- A. A detail from the wrong sentence
- B. Under the folders for this scenario '
- C. A word that appears but does not answer
- D. Something not mentioned in the passage

Reason: includes math thinking; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit |

Pick the choice that skips checking totals

78. ms-23-q3 (miranda · week 1 · 2-3)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Before Focus Flame began, students kept asking, "What are we doing next?" Miranda studied the front board and noticed the morning schedule card was gone. She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: According to the passage, Why were students confused, based on the passage?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. They did not know what was next '
- D. Something not mentioned in the passage

Reason: includes math thinking; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

79. ms-45-q1 (miranda · week 1 · 4-5)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Before Focus Flame began, students kept asking, "What are we doing next?" Miranda studied the front board and noticed the morning schedule card was gone. She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: According to the passage, which answer is best supported by evidence?

- A. A related detail that is weaker evidence
- B. A clue that sounds right but is off-topic
- C. An answer not stated or supported in the passage
- D. Students were asking what came next '

Reason: includes math thinking; clean baseline for band; requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

Correct answer position: D

Scenario: Before Focus Flame began, students kept asking, "What are we doing next?" Miranda studied the front board and noticed the morning schedule card was gone. She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: Which two clues best support Miranda's conclusion?

- A. A true detail that does not answer the question
- B. A clue from the wrong part of the passage
- C. A guess without rereading the passage
- D. It makes transitions less predictable '

Reason: includes math thinking; clean baseline for band; requires scenario-based reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

84. ms-68-q3 (miranda · week 1 · 6-8)

Mission: miranda-mystery-file-1 [miranda-mystery-file-1]

Type: math · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Before Focus Flame began, students kept asking, "What are we doing next?" Miranda studied the front board and noticed the morning schedule card was gone. She remembered the teacher carrying a stack of folders from the board area to the reading table. Miranda walked to the reading table, lifted the folders carefully, and found

one corner of the schedule card tucked underneath. She matched the card to the board space and saw that math workshop came before snack break.

Question: Which clue weakens her first idea?

- A. Used clues to reach a conclusion '
- B. A true detail that does not answer the question
- C. A clue from the wrong part of the passage
- D. A guess without rereading the passage

Reason: includes math thinking; clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

85. mst-k1-q1 (miranda · week 2 · K-1)

Mission: miranda-mystery-file-2 [miranda-mystery-file-2]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: After the ceremony, Miranda scanned the line and realized Caiden was missing. His notebook lay open on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway but did not run alone. She told the facilitator what she saw, pointed to the belongings, and helped the group retrace the last place Caiden had been seen near the stage doors.

Question: According to the passage, who was missing from the line?

- A. A detail from the wrong sentence
- B. Caiden for this scenario '
- C. A word that appears but does not answer
- D. Something not mentioned in the passage

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

86. mst-k1-q2 (miranda · week 2 · K-1)

Mission: miranda-mystery-file-2 [miranda-mystery-file-2]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: After the ceremony, Miranda scanned the line and realized Caiden was missing. His notebook lay open on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway but did not run alone. She told the facilitator what she saw, pointed to the belongings, and helped the group retrace the last place Caiden had been seen near the stage doors.

Question: According to the passage, What did Miranda see on the chair in the passage?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. Caiden's... for this scenario '
- D. Something not mentioned in the passage

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than

physical evidence | Select a true detail that is less relevant to the problem

87. mst-k1-q3 (miranda · week 2 · K-1)

Mission: miranda-mystery-file-2 [miranda-mystery-file-2]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: After the ceremony, Miranda scanned the line and realized Caiden was missing. His notebook lay open on a chair, and his water bottle had rolled under the table. Miranda heard a faint sound near the hallway but did not run alone. She told the facilitator what she saw, pointed to the belongings, and helped the group retrace the last place Caiden had been seen near the stage doors.

Question: According to the passage, Which action in the passage shows Miranda made a safe choice?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. Something not mentioned in the passage
- D. She told an adult for this scenario '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

88. mst-23-q1 (miranda · week 2 · 2-3)

Mission: miranda-mystery-file-2 [miranda-mystery-file-2]

Flags: none

Correct answer position: A

Scenario: Miranda found a clue note on the floor with one smudged word: "Meet by the ____ after lunch." Beside the blank was a small sketch of branches, leaves, and a curved trunk. Miranda compared the drawing to places around school—the cafeteria door, the library steps, and the old tree near the playground. The trunk sketch matched the playground tree, and the note mentioned lunch, which happens right before recess at that tree.

Question: According to the passage, which answer is best supported by evidence?

- A. Blurry or rubbed away for this scenario '
- B. A related detail that is weaker evidence
- C. A clue that sounds right but is off-topic
- D. An answer not stated or supported in the passage

Reason: clean baseline for band; requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

During the context clue challenge, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: Which clue weakens her first idea?

- A. Say the opposite for this scenario '
- B. A true detail that does not answer the...
- C. A clue from the wrong part of the passage
- D. A guess without rereading the passage

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

133. mdn-k1-q1 (miranda · week 6 · K-1)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Miranda found muddy footprints near the gym. The footprints led to the library. Under a table, she found a clue taped to the wood. During miranda's detective notebook, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: According to the passage, where did Miranda find footprints?

- A. A detail from the wrong sentence
- B. Near the gym for this scenario '
- C. A word that appears but does not...
- D. Something not mentioned in the passage

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

134. mdn-k1-q2 (miranda · week 6 · K-1)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Miranda found muddy footprints near the gym. The footprints led to the library. Under a table, she found a clue taped to the wood. During miranda's detective notebook, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: According to the passage, Which clue best supports where Miranda went next?

- A. A detail from the wrong sentence

- B. A word that appears but does not answer
- C. The footprints led to the library '
- D. Something not mentioned in the passage

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

135. mdn-k1-q3 (miranda · week 6 · K-1)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Miranda found muddy footprints near the gym. The footprints led to the library. Under a table, she found a clue taped to the wood. During miranda's detective notebook, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: According to the passage, Where did Miranda find the hidden clue?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. Something not mentioned in the passage
- D. Under a table for this scenario '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

136. mdn-23-q1 (miranda · week 6 · 2-3)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Miranda spotted muddy footprints near the gym door. She followed the trail down the hallway until the prints stopped outside the library. Inside, she knelt beneath a reading table and found a folded note taped to the underside. The note said the missing schedule was hidden for a team-building surprise.

Question: According to the passage, where did the footprints stop?

- A. Outside the library for this scenario '
- B. A detail from the wrong sentence
- C. A word that appears but does not answer
- D. Something not mentioned in the passage

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

137. mdn-23-q2 (miranda · week 6 · 2-3)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Miranda spotted muddy footprints near the gym door. She followed the trail down the hallway until the prints stopped outside the library. Inside, she knelt beneath a reading table and found a folded note taped to the underside. The note said the missing schedule was hidden for a team-building surprise.

Question: According to the passage, Which clue best supports why Miranda knelt under the table?

- A. A detail from the wrong sentence
- B. She was searching for a hidden note '
- C. A word that appears but does not answer
- D. Something not mentioned in the passage

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

138. mdn-23-q3 (miranda · week 6 · 2-3)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Miranda spotted muddy footprints near the gym door. She followed the trail down the hallway until the prints stopped outside the library. Inside, she knelt beneath a reading table and found a folded note taped to the underside. The note said the missing schedule was hidden for a team-building surprise.

Question: According to the passage, What did the hidden note explain?

- A. A detail from the wrong sentence
- B. A word that appears but does not answer
- C. The schedule was hidden for a surprise '
- D. Something not mentioned in the passage

Reason: Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

139. mdn-45-q1 (miranda · week 6 · 4-5)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Miranda documented a trail of muddy footprints that began near the gym and continued in a straight path toward the library. The depth of the prints suggested someone had walked quickly while carrying something.

Beneath a library table, she recovered a note explaining that the schedule had been moved temporarily for a planned surprise activity. During miranda's detective notebook, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: According to the passage, which answer is best supported by evidence?

- A. A related detail that is weaker evidence
- B. A clue that sounds right but is off-topic
- C. An answer not stated or supported in the passage
- D. Someone walked quickly while carrying something '

Reason: clean baseline for band; requires scenario-based reasoning; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

140. mdn-45-q2 (miranda · week 6 · 4-5)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 5/5 · Priority: low

Flags: none

Correct answer position: A

142. mdn-68-q1 (miranda · week 6 · 6-8)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Miranda analyzed a sequence of muddy footprints leading from the gym to the library. The trail's straight path and deep impressions suggested purposeful movement rather than random wandering. After recovering a note beneath a reading table, she inferred that the missing schedule had been relocated intentionally for a team-building surprise, not removed because of a problem. During miranda's detective notebook, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: Which two clues best support Miranda's conclusion?

- A. A true detail that does not answer the question
- B. A clue from the wrong part of the passage
- C. Purposeful movement toward one destination '
- D. A guess without rereading the passage

Reason: clean baseline for band; requires scenario-based reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

143. mdn-68-q2 (miranda · week 6 · 6-8)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

- C. A guess without rereading the passage
- D. The note said it was relocated for a team-building surprise '

Reason: clean baseline for band; Miranda evidence-based reading

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

144. mdn-68-q3 (miranda · week 6 · 6-8)

Mission: mirandas-detective-notebook [mirandas-detective-notebook]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Miranda analyzed a sequence of muddy footprints leading from the gym to the library. The trail's straight path and deep impressions suggested purposeful movement rather than random wandering. After recovering a note beneath a reading table, she inferred that the missing schedule had been relocated intentionally for a team-building

surprise, not removed because of a problem. During miranda's detective notebook, Miranda rereads the passage, marks two details, and compares clues before she decides.

Question: What should Miranda check in the passage before deciding?

- A. Evidence helped her avoid jumping to the wrong conclusion '
- B. A true detail that does not answer the question
- C. A clue from the wrong part of the passage
- D. A guess without rereading the passage

Reason: Miranda evidence-based reading

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

UNCLE-T — Detailed Audit

1. ut-q1 (uncle-t · week ? · adult)

Mission: Coaching Through Mistakes [mission-1]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Mistakes don't mean a kid is failing. Sometimes a mistake is the moment they need a coach the most.

Let's practice turning mistakes into courage.

Question: What is the best coaching response?

- A. "Yeah, that was bad."
- B. "You made a mistake, but mistakes help us learn." '
- C. "Stop being dramatic."
- D. "You should quit."

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. ut-q2 (uncle-t · week ? · adult)

Mission: Coaching Through Mistakes [mission-1]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Mistakes don't mean a kid is failing. Sometimes a mistake is the moment they need a coach the most.

Let's practice turning mistakes into courage.

Question: What should an adult say first?

- A. "It's just a game. Get over it."
- B. "I can see that felt disappointing." '
- C. "You always overreact."
- D. "Don't play next time."

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

3. ut-q3 (uncle-t · week ? · adult)

Mission: Coaching Through Mistakes [mission-1]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: joke_or_impossible_distractor

Correct answer position: A

Scenario: Mistakes don't mean a kid is failing. Sometimes a mistake is the moment they need a coach the most.

Let's practice turning mistakes into courage.

Question: What is the best next move?

- A. Offer one small retry step. '
- B. Force the whole task immediately.

C. Tell them they failed.

D. Walk away forever.

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. ut-q4 (uncle-t · week ? · adult)

Correct answer position: A

Scenario: Persistence is not pushing until a child breaks down. It is helping them take the next small step with support.

Question: What question helps?

- A. "What is one small thing we can try next?" '
- B. "Why are you failing?"

- C. "Should we give up?"
- D. "Why are you behind?"

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

23. ut3-q7 (uncle-t · week ? · adult)

Mission: Helping Kids Keep Going [mission-3]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Uncle T / Dr. Victoria mentorship moment 7 — What should the adult name.

Question: What should the adult name?

- A. Courage '
- B. Failure
- C. Weakness
- D. Distraction

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

24. ut3-q8 (uncle-t · week ? · adult)

Mission: Helping Kids Keep Going [mission-3]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Persistence is not pushing until a child breaks down. It is helping them take the next small step with support.

Question: What does persistence mean?

- A. Trying again with support '
- B. Never needing help
- C. Always being perfect
- D. Avoiding hard things

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

VICTORIA — Detailed Audit

1. dv-q1 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Uncle T / Dr. Victoria mentorship moment 1 — What is the most helpful first thought.

Question: What is the most helpful first thought?

- A. The student doesn't care.
- B. The student may need help re-engaging. '
- C. The student is lazy.
- D. The student should be punished.

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. dv-q2 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Uncle T / Dr. Victoria mentorship moment 2 — What is the best response.

Question: What is the best response?

- A. "You're irresponsible."
- B. Ask what system might help them remember. '
- C. Give up on helping.
- D. Compare them to another child.

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

3. dv-q3 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Uncle T / Dr. Victoria mentorship moment 3 — What should an adult focus on first.

Question: What should an adult focus on first?

- A. The behavior only.
- B. Understanding what caused the frustration. '
- C. Immediate punishment.
- D. Ignoring it.

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. dv-q4 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Uncle T / Dr. Victoria mentorship moment 4 — What might be happening.

Question: What might be happening?

- A. They may feel overwhelmed. '
- B. They are trying to cause trouble.
- C. They dislike adults.
- D. Nothing.

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

5. dv-q5 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Uncle T / Dr. Victoria mentorship moment 5 — What is a supportive response.

Question: What is a supportive response?

- A. Repeat directions calmly. '
- B. Rush them.
- C. Skip them.
- D. Embarrass them.

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

6. dv-q6 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: Uncle T / Dr. Victoria mentorship moment 6 — What should an adult consider.

Question: What should an adult consider?

- A. They may be anxious or uncomfortable. '
- B. They dislike everyone.
- C. They are rude.
- D. They should be forced immediately.

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

7. dv-q7 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Uncle T / Dr. Victoria mentorship moment 7 — What helps most.

Question: What helps most?

- A. Practice and guidance. '
- B. Shame.
- C. Criticism.
- D. Public correction.

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

8. dv-q8 (victoria · week ? · adult)

Mission: Looking Beyond the Behavior [mission-1]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Uncle T / Dr. Victoria mentorship moment 8 — What mindset should adults adopt.

Question: What mindset should adults adopt?

- A. Every child develops differently. '
- B. Every child should be exactly the same.
- C. Differences should be ignored.
- D. Differences are weaknesses.

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

9. dv2-q1 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What is the most supportive response?

- A. "Stop complaining."
- B. "Let's try the first step together." '

C. "Everyone else can do it."

D. "You should already know this."

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

10. dv2-q2 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: B

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What should an adult try first?

A. Assume they are being disrespectful.

B. Calmly remind them of the listening expectation. '

C. Embarrass them in front of the group.

D. Ignore them all day.

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

11. dv2-q3 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What response supports growth?

A. "Mistakes help us learn. Let's look at it together." '

B. "You ruined it."

C. "You always do this."

D. "Just forget it."

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

12. dv2-q4 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What might help before correcting them harshly?

- A. Offer a small movement break. '
- B. Tell them they are bad.
- C. Remove them immediately.
- D. Compare them to a quiet student.

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

13. dv2-q5 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What is a helpful adult response?

- A. "You should have listened."
- B. "Would you like me to repeat the directions?" '
- C. "Figure it out."
- D. "Never mind."

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

14. dv2-q6 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What support can help?

- A. Give a simple explanation and name the next step. '
- B. Say, "Too bad."
- C. Ignore their reaction.
- D. Tell them change is easy.

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

15. dv2-q7 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sequencing · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, joke_or_impossible_distractor

Correct answer position: B

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What should an adult do first?

- A. Force them in immediately.
- B. Ask what would help them feel ready. '
- C. Say they are being rude.
- D. Leave them out forever.

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

16. dv2-q8 (victoria · week ? · adult)

Mission: Responding with Support [mission-2]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: B

Scenario: Once we look beyond the behavior, the next step is choosing a response that helps the child feel safe, supported, and ready to try again.

Question: What response encourages them?

- A. "Finally."
- B. "I noticed you tried again. That shows courage." '
- C. "That took too long."
- D. "Don't mess up again."

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

17. dv3-q1 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: B

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What support is most likely to help?

- A. More reminders after mistakes
- B. Create a visual checklist '
- C. Take away privileges immediately
- D. Ignore it

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

18. dv3-q2 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What environment support helps most?

- A. Give the entire project at once
- B. Break it into smaller steps '
- C. Tell them to work harder
- D. Reduce all expectations

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. dv3-q3 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What may help?

- A. A short work timer '
- B. More distractions
- C. A louder room
- D. More pressure

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

20. dv3-q4 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What support helps?

- A. Color-coded folders '
- B. More worksheets
- C. Less structure
- D. Random storage

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

21. dv3-q5 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What could help?

- A. Quiet workspace '
- B. Extra noise
- C. More interruptions
- D. No support

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

22. dv3-q6 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What support helps?

- A. Visual routine chart '
- B. Daily lectures

C. Punishment

D. Guessing

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

23. dv3-q7 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What may help?

A. Countdown warnings '

B. Sudden changes

C. Surprises

D. Criticism

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

24. dv3-q8 (victoria · week ? · adult)

Mission: Building Focus-Friendly Environments [mission-3]

Type: comparison · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Sometimes children do not need more pressure. They need better systems. Let's practice creating environments that make focus, routines, and follow-through easier.

Question: What mindset should adults adopt?

A. Build systems before expecting consistency '

B. They simply do not care

C. They are lazy

D. They should figure it out alone

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

25. dv4-q1 (victoria · week ? · adult)

Mission: Helping Children Through Big Feelings [mission-4]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Big feelings are not moments to win against a child. They are moments to help a child feel safe enough to regulate, reconnect, and try again.

Question: What should the adult prioritize first?

- A. Getting a full explanation immediately
- B. Helping the child feel safe and calm '
- C. Demanding an apology
- D. Finishing the task at any cost

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

26. dv4-q2 (victoria · week ? · adult)

Mission: Helping Children Through Big Feelings [mission-4]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Big feelings are not moments to win against a child. They are moments to help a child feel safe enough to regulate, reconnect, and try again.

Question: What is the most supportive adult interpretation?

- A. They are trying to manipulate everyone.
- B. Correction may have felt bigger than expected. '
- C. They should be ignored.
- D. They are choosing to be difficult.

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

27. dv4-q3 (victoria · week ? · adult)

Mission: Helping Children Through Big Feelings [mission-4]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Big feelings are not moments to win against a child. They are moments to help a child feel safe enough to regulate, reconnect, and try again.

Question: Which response is most helpful?

- A. "That's not true. Stop saying that."
- B. "It sounds like you feel really hurt right now." '
- C. "You're being dramatic."
- D. "Just ignore everyone."

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

28. dv4-q4 (victoria · week ? · adult)

Mission: Helping Children Through Big Feelings [mission-4]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: C

Scenario: Big feelings are not moments to win against a child. They are moments to help a child feel safe enough to regulate, reconnect, and try again.

Question: What should the adult avoid?

- A. Checking safety
- B. Giving space with supervision
- C. Publicly chasing and shaming them '
- D. Reconnecting calmly later

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

29. dv4-q5 (victoria · week ? · adult)

Mission: Helping Children Through Big Feelings [mission-4]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: Big feelings are not moments to win against a child. They are moments to help a child feel safe enough to regulate, reconnect, and try again.

Question: What skill may need support?

- A. Task initiation and frustration tolerance '
- B. Laziness
- C. Disrespect
- D. Lack of character

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

30. dv4-q6 (victoria · week ? · adult)

Mission: Helping Children Through Big Feelings [mission-4]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: Big feelings are not moments to win against a child. They are moments to help a child feel safe enough to regulate, reconnect, and try again.

Question: What is the best order of support?

- A. Correct, lecture, demand

- B. Calm, connect, then coach '
- C. Ignore, punish, move on
- D. Shame, compare, repeat

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

36. dv5-q4 (victoria · week ? · adult)

Mission: Supporting Different Learning Styles [mission-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Children learn through different pathways. Your job is not to make every mind identical—it is to notice what helps each child access learning.

Question: What does this show?

- A. They may use visual thinking '
- B. They are avoiding learning
- C. They are being disrespectful
- D. They should stop immediately

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

37. dv5-q5 (victoria · week ? · adult)

Mission: Supporting Different Learning Styles [mission-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Children learn through different pathways. Your job is not to make every mind identical—it is to notice what helps each child access learning.

Question: What would help?

- A. Short steps with pauses '
- B. More talking without breaks
- C. Faster directions
- D. Criticism

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

38. dv5-q6 (victoria · week ? · adult)

Mission: Supporting Different Learning Styles [mission-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Children learn through different pathways. Your job is not to make every mind identical—it is to notice what helps each child access learning.

Question: What should the adult do?

- A. Recognize different thinking paths '
- B. Force one method only

- C. Ignore the success
- D. Shame the difference

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

39. dv5-q7 (victoria · week ? · adult)

Mission: Supporting Different Learning Styles [mission-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Children learn through different pathways. Your job is not to make every mind identical—it is to notice what helps each child access learning.

Question: What support is best?

- A. Give thinking time '
- B. Rush them
- C. Answer for them every time
- D. Call them slow

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

40. dv5-q8 (victoria · week ? · adult)

Mission: Supporting Different Learning Styles [mission-5]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Children learn through different pathways. Your job is not to make every mind identical—it is to notice what helps each child access learning.

Question: Which mindset best supports different learning styles?

- A. Different supports help different minds learn '
- B. All children must learn the exact same way
- C. Supports are unfair
- D. Differences should be hidden

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

ZEKE — Detailed Audit

1. zkm1-k1-q1 (zeke · week 1 · K-1)

Mission: The New Table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: What should Zeke say first. Scene: In the cafeteria, Zeke pauses near a table with an open seat, new-table lunch spot (K-1).

Question: What should Zeke say first?

- A. Can I play too? '
- B. Move over now
- C. This game looks boring
- D. I am taking that chair

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

2. zkm1-k1-q2 (zeke · week 1 · K-1)

Mission: The New Table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The kids say yes. Scene: In the cafeteria, Zeke pauses near a table with an open seat, open-seat card game (K-1).

Question: The kids say yes. What should Zeke do next?

- A. Sit down and listen to how the game works '
- B. Grab the cards and change the rules
- C. Pause and notice one more detail first
- D. Walk away because they said yes too slowly

Reason: appropriate simplicity for K-1

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

3. zkm1-k1-q3 (zeke · week 1 · K-1)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: One kid looks shy at the table. Scene: In the cafeteria, Zeke pauses near a table with an open seat, welcome-wave corner (K-1).

Question: One kid looks shy at the table. What kind move can Zeke make?

- A. Say hi and ask their name '
- B. Ignore them and only talk to the loudest kid
- C. Tell them to go sit somewhere else

D. Copy everything they do without speaking

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

4. zkm1-23-q1 (zeke · week 1 · 2-3)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke wants to join the game. Scene: During recess team time, Zeke listens while the group figures out next steps, new-table lunch spot (2-3).

Question: Zeke wants to join the game. What is the best move?

A. Ask politely and wait for an answer '

B. Grab the cards

C. Tell everyone he is the boss

D. Walk away without trying

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

5. zkm1-23-q2 (zeke · week 1 · 2-3)

Mission: The New Table [zeke-new-table]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The group looks busy. Scene: During recess team time, Zeke listens while the group figures out next steps, open-seat card game (2-3).

Question: The group looks busy. What friendly words could Zeke try?

A. Can I join the next round? '

B. You have to let me play now

C. Your game looks stupid

D. Say nothing and stare until someone notices

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

6. zkm1-23-q3 (zeke · week 1 · 2-3)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: B

Scenario: Someone says "maybe later.". Scene: During recess team time, Zeke listens while the group figures out next steps, welcome-wave corner (2-3).

Question: Someone says "maybe later." What should Zeke do?

- A. Ask for a time to check back in
- B. Wait politely and try again when there is a pause '
- C. Find another activity, then try once more later
- D. Take the cards anyway

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

7. zkm1-45-q1 (zeke · week 1 · 4-5)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 1/5 · Priority: high

Flags: potentially_obvious_answer, correct_answer_too_obvious, reading_level_below_band, too_easy_for_grade_4_plus

Correct answer position: A

Scenario: The group is in the middle of a round. Scene: At the group project table, Zeke balances his idea with the team's plan, new-table lunch spot (4-5).

Question: The group is in the middle of a round. What should Zeke do?

- A. Wait for a pause, then ask to join the next round '
- B. Interrupt and demand a turn
- C. Sit down without asking
- D. Say the rules are bad

Reason: correct answer stands out too easily; too easy for grades 4+

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

8. zkm1-45-q2 (zeke · week 1 · 4-5)

Mission: The New Table [zeke-new-table]

Type: reading_comprehension · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke notices everyone is focused on the game. Scene: At the group project table, Zeke balances his idea with the team's plan, open-seat card game (4-5).

Question: Zeke notices everyone is focused on the game. What social clue is Zeke reading?

- A. They need a moment before new players join '
- B. They definitely hate him already
- C. They want him to grab a chair silently
- D. They are trying to make him leave school

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

9. zkm1-45-q3 (zeke · week 1 · 4-5)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: A

Scenario: The group welcomes Zeke but one kid does not smile. Scene: At the group project table, Zeke balances his idea with the team's plan, welcome-wave corner (4-5).

Question: The group welcomes Zeke but one kid does not smile. What is a respectful move?

- A. Join in and include that kid with a friendly hello '
- B. Call them out for being rude
- C. Only talk to the kids who smiled first
- D. Complain that the group is not fun enough

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

10. zkm1-68-q1 (zeke · week 1 · 6-8)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What shows strong social confidence. Scene: Before a team captain huddle, Zeke reads the room and the roster, new-table lunch spot (6-8).

Question: What shows strong social confidence?

- A. Asking to join without pressuring the group '
- B. Acting like rejection would ruin everything
- C. Taking control immediately
- D. Pretending he does not care

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

11. zkm1-68-q2 (zeke · week 1 · 6-8)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke gets a polite "we're full for this round.". Scene: Before a team captain huddle, Zeke reads the room and the roster, open-seat card game (6-8).

Question: Zeke gets a polite "we're full for this round." What is the confident response?

- A. Say thanks and ask to join the next round '
- B. Argue until someone gives up their seat
- C. Mock the group for being exclusive
- D. Thank them and ask when the next round opens

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

12. zkm1-68-q3 (zeke · week 1 · 6-8)

Mission: The New Table [zeke-new-table]

Type: multiple_choice · Difficulty: 3/5 · Priority: high

Flags: reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: Zeke sees another student hovering near the table too. Scene: Before a team captain huddle, Zeke reads the room and the roster, welcome-wave corner (6-8).

Question: Zeke sees another student hovering near the table too. What shows social leadership?

- A. Invite them to ask together or save them a spot if the group says yes '
- B. Ignore them because spots are limited
- C. Tell them they are too late
- D. Claim the last seat and block them out

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

13. zkm2-k1-q1 (zeke · week 2 · K-1)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: potentially_obvious_answer, joke_or_impossible_distractor, answer_length_imbalance

Correct answer position: B

Scenario: What should Zeke do if his teammate is open. Scene: In the cafeteria, Zeke pauses near a table with an open seat, pass-the-ball circle (K-1).

Question: What should Zeke do if his teammate is open?

- A. Keep it forever
- B. Pass the ball '
- C. Dribble once, then check for an open teammate
- D. Throw the ball out so no one plays

Reason: joke distractors reduce challenge

Rewrite: Replace joke/impossible distractors with one obvious-but-not-silly wrong answer and two plausible weaker strategies. Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

14. zkm2-k1-q2 (zeke · week 2 · K-1)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: It is Zeke's turn to dribble. Scene: In the cafeteria, Zeke pauses near a table with an open seat, team game sideline (K-1).

Question: It is Zeke's turn to dribble. What is sharing?

- A. Keep dribbling until the game ends
- B. Give others a turn with the ball '
- C. Pass after checking who is ready
- D. Throw the ball away so no one gets it

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

15. zkm2-k1-q3 (zeke · week 2 · K-1)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: Maya asks for the ball. Scene: In the cafeteria, Zeke pauses near a table with an open seat, open-player lane (K-1).

Question: Maya asks for the ball. What should Zeke do?

- A. Pass when it helps the team '
- B. Say no every time
- C. Hold it too long and miss the pass window
- D. Look up and decide before passing

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

16. zkm2-23-q1 (zeke · week 2 · 2-3)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Why is passing a strong choice. Scene: During recess team time, Zeke listens while the group figures out next steps, pass-the-ball circle (2-3).

Question: Why is passing a strong choice?

- A. It gives the team a better chance '
- B. It means Zeke is weak
- C. It makes the ball disappear
- D. It can create a better chance for the team

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

17. zkm2-23-q2 (zeke · week 2 · 2-3)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Zeke is running fast but hears Maya call his name. Scene: During recess team time, Zeke listens while the group figures out next steps, team game sideline (2-3).

Question: Zeke is running fast but hears Maya call his name. What should he notice?

- A. Maya is open and ready for a pass '
- B. The crowd wants him to stop running
- C. Maya wants to take the ball home
- D. Running can still include smart passing choices

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

18. zkm2-23-q3 (zeke · week 2 · 2-3)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: After Zeke passes and Maya scores,. Scene: During recess team time, Zeke listens while the group figures out next steps, open-player lane (2-3).

Question: After Zeke passes and Maya scores, what should Zeke do?

- A. Celebrate with the team '
- B. Say he should have kept the ball
- C. Walk off the court angry
- D. Take credit and ignore Maya

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

19. zkm2-45-q1 (zeke · week 2 · 4-5)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: comparison · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, reading_level_below_band

Correct answer position: A

Scenario: Zeke wants to be the hero, but Maya has a better shot. Scene: At the group project table, Zeke balances his idea with the team's plan, pass-the-ball circle (4-5).

Question: Zeke wants to be the hero, but Maya has a better shot. What should he choose?

- A. Pass to Maya because it helps the team '
- B. Shoot anyway to prove himself
- C. Pretend he did not see her
- D. Blame Maya for being open

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

20. zkm2-45-q2 (zeke · week 2 · 4-5)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: comparison · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke has a decent shot but two teammates are in better spots. Scene: At the group project table, Zeke balances his idea with the team's plan, team game sideline (4-5).

Question: Zeke has a decent shot but two teammates are in better spots. What is the team-first choice?

- A. Pass to whoever has the best chance to score '
- B. Take one extra second to find the highest-percentage play
- C. Hold the ball until the timer runs out
- D. Dribble in circles to look impressive

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

21. zkm2-45-q3 (zeke · week 2 · 4-5)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The team loses even after a good pass. Scene: At the group project table, Zeke balances his idea with the team's plan, open-player lane (4-5).

Question: The team loses even after a good pass. What should Zeke remember?

- A. Sharing the ball was still the right teamwork move '
- B. One miss can still come from the right decision
- C. Maya failed so it was his fault for trusting her
- D. Only winners on the team deserve the ball

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

22. zkm2-68-q1 (zeke · week 2 · 6-8)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What makes Zeke's pass a strong leadership move. Scene: Before a team captain huddle, Zeke reads the room and the roster, pass-the-ball circle (6-8).

Question: What makes Zeke's pass a strong leadership move?

- A. He notices the best option and trusts his teammate '
- B. He keeps the ball so only he can score

C. He passes to avoid taking a risky shot himself

D. He waits until defenders collapse on him first

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

23. zkm2-68-q2 (zeke · week 2 · 6-8)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The defense double-teams Zeke. Scene: Before a team captain huddle, Zeke reads the room and the roster, team game sideline (6-8).

Question: The defense double-teams Zeke. What strategic move shows trust?

A. Pass quickly to the open teammate before the trap closes '

B. Keep dribbling until he is exhausted

C. Blame the coach for the play

D. Stop playing so someone else has to figure it out

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

24. zkm2-68-q3 (zeke · week 2 · 6-8)

Mission: Pass the Ball [zeke-pass-the-ball]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A teammate misses after Zeke's pass. Scene: Before a team captain huddle, Zeke reads the room and the roster, open-player lane (6-8).

Question: A teammate misses after Zeke's pass. What helps the team recover?

A. Encourage them and stay ready for the next play '

B. Criticize them in front of everyone

C. Refuse to pass to them again

D. Tell the group the loss was entirely on them

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

25. zkm3-k1-q1 (zeke · week 3 · K-1)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: What helps the group work together. Scene: In the cafeteria, Zeke pauses near a table with an open seat, poster project table (K-1).

Question: What helps the group work together?

- A. Have one speaker at a time and assign roles
- B. Take turns talking '
- C. Raise a hand and wait for your turn
- D. Tear up the project page

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

26. zkm3-k1-q2 (zeke · week 3 · K-1)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: inference · Difficulty: 4/5 · Priority: low

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Two kids want to color at the same time. Scene: In the cafeteria, Zeke pauses near a table with an open seat, group-plan clipboard (K-1).

Question: Two kids want to color at the same time. What should Zeke suggest?

- A. You go first, then me '
- B. Fight for the crayons
- C. Nobody gets to color
- D. Set turns for shared materials

Reason: appropriate simplicity for K-1; Zeke early teamwork reasoning

Rewrite:

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

27. zkm3-k1-q3 (zeke · week 3 · K-1)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Someone keeps talking over others. Scene: In the cafeteria, Zeke pauses near a table with an open seat, everyone-talks-at-once desk (K-1).

Question: Someone keeps talking over others. What can Zeke say?

- A. Let's take turns so everyone can share '
- B. Talk louder than them
- C. Tell the teacher immediately without trying
- D. Give up and do nothing

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

28. zkm3-23-q1 (zeke · week 3 · 2-3)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: What should Zeke suggest. Scene: During recess team time, Zeke listens while the group figures out next steps, poster project table (2-3).

Question: What should Zeke suggest?

- A. Let's pick jobs for each person '
- B. I will do everything myself
- C. Nobody gets to help
- D. Let's argue about the glue

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

29. zkm3-23-q2 (zeke · week 3 · 2-3)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Three kids want to draw. Scene: During recess team time, Zeke listens while the group figures out next steps, group-plan clipboard (2-3).

Question: Three kids want to draw. What job plan helps?

- A. One draws, one writes title, one gathers supplies '
- B. All three draw the same letter at once
- C. Split sections so each person has a role
- D. Skip the poster and go to recess early

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

30. zkm3-23-q3 (zeke · week 3 · 2-3)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Someone is not sure. Scene: During recess team time, Zeke listens while the group figures out next steps, everyone-talks-at-once desk (2-3).

Question: Someone is not sure what job to pick. What can Zeke do?

- A. Ask what they like doing and match a job '
- B. Tell them they cannot help

C. Give them the hardest job as punishment

D. Ignore them until the teacher notices

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

31. zkm3-45-q1 (zeke · week 3 · 4-5)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The group is stuck because everyone wants the same task. Scene: At the group project table, Zeke balances his idea with the team's plan, poster project table (4-5).

Question: The group is stuck because everyone wants the same task. What is the best solution?

A. Divide roles based on what the project needs '

B. Use a quick team vote after hearing each idea

C. Stop working until the teacher fixes it

D. Make three people do the same job

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

32. zkm3-45-q2 (zeke · week 3 · 4-5)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The poster needs a title, drawings, and facts. Scene: At the group project table, Zeke balances his idea with the team's plan, group-plan clipboard (4-5).

Question: The poster needs a title, drawings, and facts. What should Zeke help the group do?

A. Match each part to a job before anyone starts '

B. Start drawing and argue later

C. Let one person redo everyone else's work

D. Copy another group's poster exactly

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

33. zkm3-45-q3 (zeke · week 3 · 4-5)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: One teammate finishes early and has nothing to do. Scene: At the group project table, Zeke balances his idea with the team's plan, everyone-talks-at-once desk (4-5).

Question: One teammate finishes early and has nothing to do. What is a good team move?

- A. Ask what still needs help and reassign if needed '
- B. Ask if they can help with the next needed part
- C. Send them to bother another group
- D. Take credit for their finished part

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

34. zkm3-68-q1 (zeke · week 3 · 6-8)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: How can Zeke help without taking over. Scene: Before a team captain huddle, Zeke reads the room and the roster, poster project table (6-8).

Question: How can Zeke help without taking over?

- A. Ask what needs to be done and help the group assign roles '
- B. Decide everyone's role without asking
- C. Do all the important parts himself
- D. Criticize the group for being messy

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

35. zkm3-68-q2 (zeke · week 3 · 6-8)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Two teammates disagree about the layout. Scene: Before a team captain huddle, Zeke reads the room and the roster, group-plan clipboard (6-8).

Question: Two teammates disagree about the layout. What facilitation move works?

- A. Help them name the goal and pick a solution together '
- B. Side with the louder person immediately
- C. Rewrite the poster alone overnight
- D. Tell them the project is ruined

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

36. zkm3-68-q3 (zeke · week 3 · 6-8)

Mission: The Group Project Glitch [zeke-group-project-glitch]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The group falls behind because nobody tracked deadlines. Scene: Before a team captain huddle, Zeke reads the room and the roster, everyone-talks-at-once desk (6-8).

Question: The group falls behind because nobody tracked deadlines. What should Zeke suggest?

- A. Quick check-in on who owns what and what is left '
- B. Blame the teacher for assigning groups
- C. Drop the hardest section entirely
- D. Let one person carry the whole grade for everyone

Reason: inference at upper band

Rewrite:

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

37. zkm4-k1-q1 (zeke · week 4 · K-1)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: What can Zeke say. Scene: In the cafeteria, Zeke pauses near a table with an open seat, hurt-joke hallway (K-1).

Question: What can Zeke say?

- A. Say something mean back
- B. That was not kind '
- C. Take a breath, then use a calm voice
- D. Pretend hurting words are funny

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

38. zkm4-k1-q2 (zeke · week 4 · K-1)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The hurt student looks sad. Scene: In the cafeteria, Zeke pauses near a table with an open seat, laugh-that-stings moment (K-1).

Question: The hurt student looks sad. What kind move can Zeke make?

- A. Check on them with a gentle "Are you okay?" '
- B. Point at them so everyone looks

- C. Copy the mean joke
- D. Walk past like nothing happened

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

39. zkm4-k1-q3 (zeke · week 4 · K-1)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke wants to help stop the joke. Scene: In the cafeteria, Zeke pauses near a table with an open seat, friendship repair step (K-1).

Question: Zeke wants to help stop the joke. What brave words work?

- A. Please stop. That hurts feelings. '
- B. Say a bigger mean joke back
- C. Shout until the cafeteria shakes
- D. Take a breath and ask an adult for support if needed

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

40. zkm4-23-q1 (zeke · week 4 · 2-3)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: What is a brave way to help. Scene: During recess team time, Zeke listens while the group figures out next steps, hurt-joke hallway (2-3).

Question: What is a brave way to help?

- A. Say, "Let's not make fun of them." '
- B. Join the joke
- C. Point and laugh
- D. Pretend nobody got hurt

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

41. zkm4-23-q2 (zeke · week 4 · 2-3)

Mission: The Brave Voice [zeke-brave-voice]

Type: math · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Some kids keep giggling. Scene: During recess team time, Zeke listens while the group figures out next steps, laugh-that-stings moment (2-3).

Question: Some kids keep giggling. What can Zeke add?

- A. That joke is not okay. Let's talk about something else. '
- B. Keep laughing so he fits in
- C. Make fun of the person who made the joke publicly
- D. Run to the principal without saying anything first

Reason: includes math thinking

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Estimate quickly without adding the numbers | Choose the option that ignores the time limit | Pick the choice that skips checking totals

42. zkm4-23-q3 (zeke · week 4 · 2-3)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The student. Scene: During recess team time, Zeke listens while the group figures out next steps, friendship repair step (2-3).

Question: The student who was teased walks away. What should Zeke do?

- A. Go with them or invite them back respectfully '
- B. Stay with the group that laughed
- C. Text everyone about what happened
- D. Pretend he did not notice them leave

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

43. zkm4-45-q1 (zeke · week 4 · 4-5)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: What should Zeke do if he wants to redirect the group. Scene: At the group project table, Zeke balances his idea with the team's plan, hurt-joke hallway (4-5).

Question: What should Zeke do if he wants to redirect the group?

- A. Calmly say the joke is not okay and cha '
- B. Embarrass the person who made the joke
- C. Pause and notice one more detail first
- D. Pause and notice one more detail first

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

44. zkm4-45-q2 (zeke · week 4 · 4-5)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The joke-maker says "It was just funny.". Scene: At the group project table, Zeke balances his idea with the team's plan, laugh-that-stings moment (4-5).

Question: The joke-maker says "It was just funny." What is a respectful reply?

- A. Funny can still hurt someone. Let's stop. '
- B. That joke hurt someone; please stop
- C. Fine, keep going then
- D. Laugh harder to avoid conflict

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

45. zkm4-45-q3 (zeke · week 4 · 4-5)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke wants to support the student. Scene: At the group project table, Zeke balances his idea with the team's plan, friendship repair step (4-5).

Question: Zeke wants to support the student who was hurt without making a scene. What works?

- A. Ask quietly if they want help or company '
- B. Announce their feelings to the whole cafeteria
- C. Challenge everyone to a debate
- D. Post about it online before talking to anyone

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

46. zkm4-68-q1 (zeke · week 4 · 6-8)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What response shows courage and social skill. Scene: Before a team captain huddle, Zeke reads the room and the roster, hurt-joke hallway (6-8).

Question: What response shows courage and social skill?

- A. Name the harm respectfully and support the student '
- B. Publicly shame everyone involved

C. Stay silent because it is easier

D. Make a harsher joke back

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

47. zkm4-68-q2 (zeke · week 4 · 6-8)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The group gets tense after Zeke speaks up. Scene: Before a team captain huddle, Zeke reads the room and the roster, laugh-that-stings moment (6-8).

Question: The group gets tense after Zeke speaks up. What keeps dignity on both sides?

A. Stay calm and focus on the hurt, not attacking the joker '

B. Keep arguing until someone cries

C. DARE people to keep joking

D. Threaten to expose everyone's secrets

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

48. zkm4-68-q3 (zeke · week 4 · 6-8)

Mission: The Brave Voice [zeke-brave-voice]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Later, Zeke talks to the student. Scene: Before a team captain huddle, Zeke reads the room and the roster, friendship repair step (6-8).

Question: Later, Zeke talks to the student who made the joke. What shows mature courage?

A. Explain why the joke hurt and ask them to repair it '

B. Take space, then have a respectful follow-up talk

C. Gather a crowd to confront them again

D. Pretend nothing happened so popularity stays intact

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

49. zkm5-k1-q1 (zeke · week 5 · K-1)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: What should Zeke do first. Scene: In the cafeteria, Zeke pauses near a table with an open seat, saved-seat promise spot (K-1).

Question: What should Zeke do first?

- A. Say sorry '
- B. Blame the chair
- C. Say it does not matter
- D. Walk away

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

50. zkm5-k1-q2 (zeke · week 5 · K-1)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's friend is still quiet. Scene: In the cafeteria, Zeke pauses near a table with an open seat, quiet-upset bench (K-1).

Question: Zeke's friend is still quiet. What helps next?

- A. Ask if they want to talk '
- B. Make a joke about seats
- C. Ignore them and keep playing
- D. Say they should not be upset

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

51. zkm5-k1-q3 (zeke · week 5 · K-1)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What is repair. Scene: In the cafeteria, Zeke pauses near a table with an open seat, friendship fix table (K-1).

Question: What is repair?

- A. Helping fix the hurt '
- B. Checking in and asking what would help now
- C. Blaming the chair
- D. Running away

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

52. zkm5-23-q1 (zeke · week 5 · 2-3)

Mission: Friendship Repair [zeke-friendship-repair]

Type: comparison · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What makes Zeke's apology better. Scene: During recess team time, Zeke listens while the group figures out next steps, saved-seat promise spot (2-3).

Question: What makes Zeke's apology better?

- A. Listening to how his friend feels '
- B. Saying sorry while running away
- C. Explaining why his friend should not care
- D. Changing the subject fast

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

53. zkm5-23-q2 (zeke · week 5 · 2-3)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke says sorry but keeps playing his game. Scene: During recess team time, Zeke listens while the group figures out next steps, quiet-upset bench (2-3).

Question: Zeke says sorry but keeps playing his game. What is missing?

- A. Really listening to his friend '
- B. Saying sorry louder
- C. Buying a new chair
- D. Walking away faster

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

54. zkm5-23-q3 (zeke · week 5 · 2-3)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Your friend says they felt left out. Scene: During recess team time, Zeke listens while the group figures out next steps, friendship fix table (2-3).

Question: Your friend says they felt left out. What should Zeke do?

- A. Listen and ask what would help '
- B. Tell them to cheer up

C. Change the subject

D. Pause and notice one more detail first

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

55. zkm5-45-q1 (zeke · week 5 · 4-5)

Mission: Friendship Repair [zeke-friendship-repair]

Type: sel_decision · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, reading_level_below_band, answer_length_imbalance

Correct answer position: A

Scenario: What should Zeke say. Scene: At the group project table, Zeke balances his idea with the team's plan, saved-seat promise spot (4-5).

Question: What should Zeke say?

A. I said I would save you a seat, and I did not. I'm sorry. '

B. You are too sensitive

C. I forgot, so it does not count

D. Other people made me do it

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice. Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is one tiny brave step. Scene: In the cafeteria, Zeke pauses near a table with an open seat, tryout courage corner (K-1).

Question: What is one tiny brave step?

- A. Writing his name down '
- B. Doing the whole show right now
- C. Trying one small step even while nervous
- D. Laughing at people who try

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

64. zkm6-23-q1 (zeke · week 6 · 2-3)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What helps Zeke feel more ready. Scene: During recess team time, Zeke listens while the group figures out next steps, talent signup sheet (2-3).

Question: What helps Zeke feel more ready?

- A. Practice once with someone he trusts '
- B. Think of one practice step and schedule it
- C. Tell everyone he is already perfect
- D. Quit before trying

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

65. zkm6-23-q2 (zeke · week 6 · 2-3)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke feels nervous before the talent show. Scene: During recess team time, Zeke listens while the group figures out next steps, flippy-stomach stage door (2-3).

Question: Zeke feels nervous before the talent show. What helps?

- A. Practicing with a trusted friend '
- B. Planning a short practice with a trusted person
- C. Telling everyone he is perfect
- D. Quitting before trying

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

66. zkm6-23-q3 (zeke · week 6 · 2-3)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What does practice do for courage. Scene: During recess team time, Zeke listens while the group figures out next steps, tryout courage corner (2-3).

Question: What does practice do for courage?

- A. Helps courage get warmed up '
- B. Can still include nerves while building skill
- C. Makes trying not count
- D. Proves you should not try

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

67. zkm6-45-q1 (zeke · week 6 · 4-5)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Zeke feels nervous but still wants to try. Scene: At the group project table, Zeke balances his idea with the team's plan, talent sign up sheet (4-5).

Question: Zeke feels nervous but still wants to try. What should he remember?

- A. Nervous does not mean stop '
- B. Nervous means he will fail
- C. Brave people can feel nervous and still act
- D. He should only try easy things

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

68. zkm6-45-q2 (zeke · week 6 · 4-5)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's hands are shaky before signup. Scene: At the group project table, Zeke balances his idea with the team's plan, flippy-stomach stage door (4-5).

Question: Zeke's hands are shaky before signup. What is a helpful move?

- A. Breathe and take the one step anyway '
- B. Wait until fear disappears
- C. Pretend he does not care
- D. Only do things that feel easy

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

69. zkm6-45-q3 (zeke · week 6 · 4-5)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Nervous feelings show up. Scene: At the group project table, Zeke balances his idea with the team's plan, tryout courage corner (4-5).

Question: Nervous feelings show up. What is true?

- A. Brave people can feel nervous and still try '
- B. Nervous can mean "go slowly" instead of "stop"
- C. Only fearless people try new things
- D. Trying easy things is the only courage

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

70. zkm6-68-q1 (zeke · week 6 · 6-8)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What shows real courage. Scene: Before a team captain huddle, Zeke reads the room and the roster, talent signup sheet (6-8).

Question: What shows real courage?

- A. Taking a value-based step even while nervous '
- B. Choosing a small value-based step now

C. Acting like nothing matters

D. Avoiding anything with risk

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

71. zkm6-68-q2 (zeke · week 6 · 6-8)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke wants to perform but fear says "skip it.". Scene: Before a team captain huddle, Zeke reads the room and the roster, flippy-stomach stage door (6-8).

Question: Zeke wants to perform but fear says "skip it." What helps?

A. Choosing the step that matches what he values '

B. Acting on what matters even while fear is present

C. Acting like it does not matter

D. Avoiding every risk

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

72. zkm6-68-q3 (zeke · week 6 · 6-8)

Mission: The Courage Challenge [zeke-courage-challenge]

Type: multiple_choice · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What is courage. Scene: Before a team captain huddle, Zeke reads the room and the roster, tryout courage corner (6-8).

Question: What is courage?

A. Direction toward what matters, even with fear present '

B. Having zero fear

C. Performing only for others

D. Continuing toward goals while managing nerves

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

73. zkm7-k1-q1 (zeke · week 7 · K-1)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What kind choice can Zeke make. Scene: In the cafeteria, Zeke pauses near a table with an open seat, captain clipboard huddle (K-1).

Question: What kind choice can Zeke make?

- A. Invite the student to play '
- B. Leave them out
- C. Say only fast kids matter
- D. Pick the same friends every time

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

74. zkm7-k1-q2 (zeke · week 7 · K-1)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A kid is standing alone at the edge of the game. Scene: In the cafeteria, Zeke pauses near a table with an open seat, pick-last roster board (K-1).

Question: A kid is standing alone at the edge of the game. What can Zeke do?

- A. Invite them to join '
- B. Pick only his best friends
- C. Say fast kids only
- D. Ignore them

Reason: appropriate simplicity for K-1; Zeke early teamwork reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

75. zkm7-k1-q3 (zeke · week 7 · K-1)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: inference · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Why include everyone. Scene: In the cafeteria, Zeke pauses near a table with an open seat, team leader mat (K-1).

Question: Why include everyone?

- A. Teams get stronger when more people belong '
- B. Only fast kids should play
- C. Leaving people out is fine
- D. Same friends every time is best

Reason: thin scenario for inference; appropriate simplicity for K-1

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Focus on what happened after the main event | Choose the action someone took rather than physical evidence | Select a true detail that is less relevant to the problem

76. zkm7-23-q1 (zeke · week 7 · 2-3)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: What should Zeke say. Scene: During recess team time, Zeke listens while the group figures out next steps, captain clipboard huddle (2-3).

Question: What should Zeke say?

- A. Come join us. We need anothe '
- B. You probably cannot play
- C. Pause and notice one more detail first
- D. Only my friends can join

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

77. zkm7-23-q2 (zeke · week 7 · 2-3)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The kid picked last looks nervous. Scene: During recess team time, Zeke listens while the group figures out next steps, pick-last roster board (2-3).

Question: The kid picked last looks nervous. What helps?

- A. Zeke asks them to join the team '
- B. Say they probably cannot play
- C. Pick the same friends again
- D. Walk away from the game

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

78. zkm7-23-q3 (zeke · week 7 · 2-3)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is part of a captain's job. Scene: During recess team time, Zeke listens while the group figures out next steps, team leader mat (2-3).

Question: What is part of a captain's job?

- A. Help everyone feel they can contribute '
- B. Win by leaving people out

C. Rotate turns so different teammates contribute

D. Let one person do everything

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

79. zkm7-45-q1 (zeke · week 7 · 4-5)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: How can Zeke be a fair captain. Scene: At the group project table, Zeke balances his idea with the team's plan, captain clipboard huddle (4-5).

Question: How can Zeke be a fair captain?

A. Notice strengths and give everyone a role '

B. Only pass to his closest friends

C. Ignore quieter teammates

D. Let one person do everything

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

80. zkm7-45-q2 (zeke · week 7 · 4-5)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke only passes to his closest friends. Scene: At the group project table, Zeke balances his idea with the team's plan, pick-last roster board (4-5).

Question: Zeke only passes to his closest friends. What is the problem?

A. It limits the team's ideas and growth '

B. Fair chances help uncover hidden strengths

C. Fairness does not matter in games

D. Winning is all that counts

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

81. zkm7-45-q3 (zeke · week 7 · 4-5)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: A quiet teammate has a good idea. Scene: At the group project table, Zeke balances his idea with the team's plan, team leader mat (4-5).

Question: A quiet teammate has a good idea. What should Zeke do?

- A. Ask for their idea and give them a role '
- B. Ignore quieter voices
- C. Set a quick structure so each voice is heard
- D. Do everything himself

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

82. zkm7-68-q1 (zeke · week 7 · 6-8)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is inclusive leadership. Scene: Before a team captain huddle, Zeke reads the room and the roster, captain clipboard huddle (6-8).

Question: What is inclusive leadership?

- A. Creating conditions where everyone can contribute '
- B. Winning while ignoring people
- C. Building clear roles and fair opportunities
- D. Making every decision alone

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

83. zkm7-68-q2 (zeke · week 7 · 6-8)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke wants to win but sees someone always picked last. Best leadership move. Scene: Before a team captain huddle, Zeke reads the room and the roster, pick-last roster board (6-8).

Question: Zeke wants to win but sees someone always picked last. Best leadership move?

- A. Create chances for them to contribute and belong '
- B. Win while ignoring them
- C. Design plays that include newer teammates too
- D. Make all decisions alone

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

84. zkm7-68-q3 (zeke · week 7 · 6-8)

Mission: The Team Captain Test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What is belonging on a team. Scene: Before a team captain huddle, Zeke reads the room and the roster, team leader mat (6-8).

Question: What is belonging on a team?

- A. Everyone feels they can contribute something meaningful '
- B. Only stars matter
- C. Inclusion slows teams down
- D. Captains decide everything alone

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

85. zkm8-k1-q1 (zeke · week 8 · K-1)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What can each teammate share. Scene: In the cafeteria, Zeke pauses near a table with an open seat, final huddle circle (K-1).

Question: What can each teammate share?

- A. One feeling about the game '
- B. A mean comment
- C. One helpful observation from the game
- D. No reflection and immediate blame

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

86. zkm8-k1-q2 (zeke · week 8 · K-1)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke asks. Scene: In the cafeteria, Zeke pauses near a table with an open seat, proud-and-frustrated line (K-1).

Question: Zeke asks how everyone feels. What is a good answer?

- A. I felt proud when we worked together '
- B. A mean comment about someone

- C. One feeling and one thing they learned
- D. Nothing at all

Reason: appropriate simplicity for K-1

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

87. zkm8-k1-q3 (zeke · week 8 · K-1)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What does a huddle help the team do. Scene: In the cafeteria, Zeke pauses near a table with an open seat, last challenge recap (K-1).

Question: What does a huddle help the team do?

- A. Understand how everyone feels '
- B. Blame each other
- C. Talk briefly about one success and one next step
- D. Only celebrate winning

Reason: appropriate simplicity for K-1; Zeke early teamwork reasoning

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

88. zkm8-23-q1 (zeke · week 8 · 2-3)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: high

Flags: potentially_obvious_answer, answer_length_imbalance

Correct answer position: A

Scenario: What should Zeke ask in the huddle. Scene: During recess team time, Zeke listens while the group figures out next steps, final huddle circle (2-3).

Question: What should Zeke ask in the huddle?

- A. What went well, and what can we improve? '
- B. Who should we blame?
- C. Who was the worst?
- D. What is one thing we should try differently next time?

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

89. zkm8-23-q2 (zeke · week 8 · 2-3)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: The team lost but tried hard. Scene: During recess team time, Zeke listens while the group figures out next steps, proud-and-frustrated line (2-3).

Question: The team lost but tried hard. What should Zeke ask?

- A. What went well, and what can we improve? '
- B. Who messed up the most?
- C. Who should we blame?
- D. How can we include everyone better next round?

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

90. zkm8-23-q3 (zeke · week 8 · 2-3)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 2/5 · Priority: high

Flags: correct_answer_too_obvious, answer_length_imbalance

Correct answer position: A

Scenario: One teammate says they felt left out. Scene: During recess team time, Zeke listens while the group figures out next steps, last challenge recap (2-3).

Question: One teammate says they felt left out. What helps?

- A. Listen and think how to include them next time '
- B. Tell them they are wrong
- C. Change the subject
- D. Say winning matters more

Reason: correct answer stands out too easily

Rewrite: Make two distractors realistic alternatives; avoid making the correct answer the only positive option.

Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

91. zkm8-45-q1 (zeke · week 8 · 4-5)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: One teammate says they felt ignored. Scene: At the group project table, Zeke balances his idea with the team's plan, final huddle circle (4-5).

Question: One teammate says they felt ignored. What should the team do?

- A. Listen and plan how to inclu '
- B. Tell them they are wrong
- C. Change the subject
- D. Say winning matters more

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

92. zkm8-45-q2 (zeke · week 8 · 4-5)

Mission: The Final Huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: potentially_obvious_answer

Correct answer position: A

Scenario: Some teammates are proud, some frustrated. Scene: At the group project table, Zeke balances his idea with the team's plan, proud-and-frustrated line (4-5).

Question: Some teammates are proud, some frustrated. What should Zeke do?

- A. Let everyone share and listen '
- B. Only let the captain talk
- C. Pretend it was perfect
- D. Blame the frustrated ones

Reason: Balanced difficulty for grade band

Rewrite:

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

93. zkm8-45-q3 (zeke · week 8 · 4-5)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is team reflection. Scene: At the group project table, Zeke balances his idea with the team's plan, last challenge recap (4-5).

Question: What is team reflection?

- A. Looking back to learn, not to blame '
- B. Finding who to punish
- C. Avoiding hard topics
- D. Only celebrating wins

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

94. zkm8-68-q1 (zeke · week 8 · 6-8)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What makes a team reflection useful. Scene: Before a team captain huddle, Zeke reads the room and the roster, final huddle circle (6-8).

Question: What makes a team reflection useful?

- A. Honest feedback connected to a clear next action '

- B. Everyone pretending it was perfect
- C. Only the captain talking
- D. Addressing hard feedback respectfully

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

95. zkm8-68-q2 (zeke · week 8 · 6-8)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: A teammate shares they felt ignored during the challenge. Best team response. Scene: Before a team captain huddle, Zeke reads the room and the roster, proud-and-frustrated line (6-8).

Question: A teammate shares they felt ignored during the challenge. Best team response?

- A. Listen, validate, and plan a concrete next step '
- B. Dismiss their experience
- C. Change topic quickly
- D. Prioritize winning over belonging

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

96. zkm8-68-q3 (zeke · week 8 · 6-8)

Mission: The Final Huddle [zeke-final-huddle]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What turns reflection into growth. Scene: Before a team captain huddle, Zeke reads the room and the roster, last challenge recap (6-8).

Question: What turns reflection into growth?

- A. Honest feedback linked to a clear next action '
- B. Pretending everything was fine
- C. Only the captain talking
- D. Turning feedback into a specific team action

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

97. zkm1-k1-q1 (zeke · week 1 · K-1)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: What should Zeke say first. Scene: In the cafeteria, Zeke pauses near a table with an open seat, new-table lunch spot (K-1).

Question: Which move helps the group work together?

- A. A kind idea that skips hearing everyone out
- B. Can I play too? for this scenario '
- C. A fast choice that helps one person but not the...
- D. A choice that shuts teammates out

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

98. zkm1-k1-q2 (zeke · week 1 · K-1)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The kids say yes. Scene: In the cafeteria, Zeke pauses near a table with an open seat, open-seat card game (K-1).

Question: Which step helps the team feel ready?

- A. Sit down and listen to how the game works '
- B. Grab the cards and change the rules
- C. Pause and notice one more detail first
- D. Walk away because they said yes too slowly

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

99. zkm1-k1-q3 (zeke · week 1 · K-1)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: One kid looks shy at the table. Scene: In the cafeteria, Zeke pauses near a table with an open seat, welcome-wave corner (K-1).

Question: Which idea helps a friend join in?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group
- C. A choice that shuts teammates out
- D. Say hi and ask their name for this scenario '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

100. zkm1-23-q1 (zeke · week 1 · 2-3)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: Zeke wants to join the game. Scene: During recess team time, Zeke listens while the group figures out next steps, new-table lunch spot (2-3).

Question: Which move helps the group solve the problem?

- A. Ask politely and wait for an answer '
- B. Grab the cards
- C. Tell everyone he is the boss
- D. Walk away without trying

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

101. zkm1-23-q2 (zeke · week 1 · 2-3)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The group looks busy. Scene: During recess team time, Zeke listens while the group figures out next steps, open-seat card game (2-3).

Question: Which step helps the team listen first?

- A. Can I join the next round? '
- B. You have to let me play now
- C. Your game looks stupid
- D. Say nothing and stare until someone notices

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

102. zkm1-23-q3 (zeke · week 1 · 2-3)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: Someone says "maybe later.". Scene: During recess team time, Zeke listens while the group figures out next steps, welcome-wave corner (2-3).

Question: Which plan helps two ideas fit together?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group

C. Wait politely and try again when there is a pause '

D. A choice that shuts teammates out

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

103. zkm1-45-q1 (zeke · week 1 · 4-5)

Mission: zeke-new-table [zeke-new-table]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: D

Scenario: The group is in the middle of a round. Scene: At the group project table, Zeke balances his idea with the team's plan, new-table lunch spot (4-5).

Question: Which choice best compares two fair plans for the team?

A. A kind idea that skips hearing everyone out

B. A fast choice that helps one person but not the group

C. A choice that shuts teammates out

D. Wait for a pause, then ask... for this scenario '

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

- D. A choice that shuts teammates out for this scenario

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

131. zkm3-68-q2 (zeke · week 3 · 6-8)

Mission: zeke-group-project-glitch [zeke-group-project-glitch]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Two teammates disagree about the layout. Scene: Before a team captain huddle, Zeke reads the room and the roster, group-plan clipboard (6-8).

Question: Which plan balances the team tradeoff best?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group
- C. A choice that shuts teammates out
- D. Help them name the goal and pick a solution together '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

132. zkm3-68-q3 (zeke · week 3 · 6-8)

Mission: zeke-group-project-glitch [zeke-group-project-glitch]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: The group falls behind because nobody tracked deadlines. Scene: Before a team captain huddle, Zeke reads the room and the roster, everyone-talks-at-once desk (6-8).

Question: Which choice best compares two fair plans for the team?

- A. Quick check-in on who owns what and what is left '
- B. A kind idea that skips hearing everyone out
- C. A fast choice that helps one person but not the group
- D. A choice that shuts teammates out

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

- D. Nervous does not mean stop for this scenario '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

164. zkm6-45-q2 (zeke · week 6 · 4-5)

Mission: zeke-courage-challenge [zeke-courage-challenge]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: Zeke's hands are shaky before signup. Scene: At the group project table, Zeke balances his idea with the team's plan, flippy-stomach stage door (4-5).

Question: Which plan balances the team tradeoff best?

- A. Breathe and take the one step anyway '
- B. A kind idea that skips hearing everyone out
- C. A fast choice that helps one person but not the...
- D. A choice that shuts teammates out

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

165. zkm6-45-q3 (zeke · week 6 · 4-5)

Mission: zeke-courage-challenge [zeke-courage-challenge]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: B

Scenario: Nervous feelings show up. Scene: At the group project table, Zeke balances his idea with the team's plan, tryout courage corner (4-5).

Question: Which choice best compares two fair plans for the team?

- A. A kind idea that skips hearing everyone out
- B. Brave people can feel nervous and still try '
- C. A fast choice that helps one person but not the group
- D. A choice that shuts teammates out

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

166. zkm6-68-q1 (zeke · week 6 · 6-8)

Mission: zeke-courage-challenge [zeke-courage-challenge]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: C

Scenario: What shows real courage. Scene: Before a team captain huddle, Zeke reads the room and the roster, talent signup sheet (6-8).

Question: Which choice best compares two fair plans for the team?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group

C. Taking a value-based step even while nervous '

D. A choice that shuts teammates out

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

167. zkm6-68-q2 (zeke · week 6 · 6-8)

Mission: zeke-courage-challenge [zeke-courage-challenge]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: D

Scenario: Zeke wants to perform but fear says "skip it.". Scene: Before a team captain huddle, Zeke reads the room and the roster, flippy-stomach stage door (6-8).

Question: Which courageous plan best compares performing on his values with skipping the tryout?

A. A kind idea that skips hearing everyone out

B. A fast choice that helps one person but not the group

C. A choice that shuts teammates out

D. Choosing the step that matches what he values '

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

168. zkm6-68-q3 (zeke · week 6 · 6-8)

Mission: zeke-courage-challenge [zeke-courage-challenge]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is courage. Scene: Before a team captain huddle, Zeke reads the room and the roster, tryout courage corner (6-8).

Question: Which plan balances the team tradeoff best?

A. Direction toward what matters, even... '

B. A kind idea that skips hearing everyone out

C. A fast choice that helps one person but not the...

D. A choice that shuts teammates out

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

169. zkm7-k1-q1 (zeke · week 7 · K-1)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: What kind choice can Zeke make. Scene: In the cafeteria, Zeke pauses near a table with an open seat, captain clipboard huddle (K-1).

Question: Which step helps the team feel ready?

- A. A kind idea that skips hearing everyone out
- B. Invite the student to play for this scenario '
- C. A fast choice that helps one person but not the group
- D. A choice that shuts teammates out

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

170. zkm7-k1-q2 (zeke · week 7 · K-1)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: A kid is standing alone at the edge of the game. Scene: In the cafeteria, Zeke pauses near a table with an open seat, pick-last roster board (K-1).

Question: Which idea helps a friend join in?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group
- C. Invite them to join for this scenario '
- D. A choice that shuts teammates out

Reason: appropriate simplicity for K-1; Zeke early teamwork reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

171. zkm7-k1-q3 (zeke · week 7 · K-1)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: Why include everyone. Scene: In the cafeteria, Zeke pauses near a table with an open seat, team leader mat (K-1).

Question: Which choice helps everyone feel included?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group
- C. A choice that shuts teammates out
- D. Teams get stronger when more people belong '

Reason: appropriate simplicity for K-1

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.
Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

172. zkm7-23-q1 (zeke · week 7 · 2-3)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What should Zeke say. Scene: During recess team time, Zeke listens while the group figures out next steps, captain clipboard huddle (2-3).

Question: Which step helps the team listen first?

- A. Come join us. We need anothe '
- B. You probably cannot play
- C. Pause and notice one more detail first
- D. Only my friends can join

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

173. zkm7-23-q2 (zeke · week 7 · 2-3)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: B

Scenario: The kid picked last looks nervous. Scene: During recess team time, Zeke listens while the group figures out next steps, pick-last roster board (2-3).

Question: Which plan helps two ideas fit together?

- A. A kind idea that skips hearing everyone out
- B. Zeke asks them to join the team '
- C. A fast choice that helps one person but not the...
- D. A choice that shuts teammates out

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

174. zkm7-23-q3 (zeke · week 7 · 2-3)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: What is part of a captain's job. Scene: During recess team time, Zeke listens while the group figures out next steps, team leader mat (2-3).

Question: Which move helps the team recover together?

- A. Help everyone feel they can contribute '
- B. Win by leaving people out

C. Rotate turns so different teammates contribute

D. Let one person do everything

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

175. zkm7-45-q1 (zeke · week 7 · 4-5)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: How can Zeke be a fair captain. Scene: At the group project table, Zeke balances his idea with the team's plan, captain clipboard huddle (4-5).

Question: Which plan balances the team tradeoff best?

A. A kind idea that skips hearing everyone out

B. A fast choice that helps one person but not the group

C. A choice that shuts teammates out

D. Notice strengths and give everyone a role '

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

176. zkm7-45-q2 (zeke · week 7 · 4-5)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: insufficient_scenario_evidence

Correct answer position: A

Scenario: Zeke only passes to his closest friends. Scene: At the group project table, Zeke balances his idea with the team's plan, pick-last roster board (4-5).

Question: Which choice best compares two fair plans for the team?

A. It limits the team's ideas and growth '

B. A kind idea that skips hearing everyone out

C. A fast choice that helps one person but not the group

D. A choice that shuts teammates out

Reason: thin scenario for inference

Rewrite: Add one more concrete clue to the scenario so inference requires reading, not guessing.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

177. zkm7-45-q3 (zeke · week 7 · 4-5)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 3/5 · Priority: medium

Flags: reading_level_below_band

Correct answer position: B

Scenario: A quiet teammate has a good idea. Scene: At the group project table, Zeke balances his idea with the team's plan, team leader mat (4-5).

Question: What leadership move helps most without ignoring anyone?

- A. A kind idea that skips hearing everyone out
- B. Ask for their idea and give them a role '
- C. A fast choice that helps one person but not the group
- D. A choice that shuts teammates out

Reason: Balanced difficulty for grade band

Rewrite: Increase vocabulary and sentence complexity to match the grade band.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

178. zkm7-68-q1 (zeke · week 7 · 6-8)

Mission: zeke-team-captain-test [zeke-team-captain-test]

Type: sel_decision · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: What is inclusive leadership. Scene: Before a team captain huddle, Zeke reads the room and the roster, captain clipboard huddle (6-8).

Question: What leadership move helps most without ignoring anyone?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group
- C. Creating conditions where everyone can contribute '
- D. A choice that shuts teammates out

Reason: clean baseline for band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Wait and hope the feeling passes on its own | Do the easiest part first without a plan | Ask for help only after trying one small step

Mission: zeke-final-huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 4/5 · Priority: low

Flags: none

Correct answer position: D

Scenario: What does a huddle help the team do. Scene: In the cafeteria, Zeke pauses near a table with an open seat, last challenge recap (K-1).

Question: Which kind words help the team first?

A. A kind idea that skips hearing everyone out

B. A fast choice that helps one person but not the group

C. A choice that shuts teammates out

D. Understand how everyone feels for this scenario '

Reason: appropriate simplicity for K-1; Zeke early teamwork reasoning

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

184. zkm8-23-q1 (zeke · week 8 · 2-3)

Mission: zeke-final-huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: medium

Flags: answer_length_imbalance

Correct answer position: A

Scenario: What should Zeke ask in the huddle. Scene: During recess team time, Zeke listens while the group figures out next steps, final huddle circle (2-3).

Question: Which response balances courage and teamwork?

A. What went well, and what can we improve? '

B. Who should we blame?

C. Who was the worst?

D. What is one thing we should try differently next time?

Reason: Balanced difficulty for grade band

Rewrite: Balance option length so the correct answer is not the only long/detailed choice.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

185. zkm8-23-q2 (zeke · week 8 · 2-3)

Mission: zeke-final-huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: A

Scenario: The team lost but tried hard. Scene: During recess team time, Zeke listens while the group figures out next steps, proud-and-frustrated line (2-3).

Question: Which choice includes a quiet teammate?

- A. What went well, and what can we improve? '
- B. Who messed up the most?
- C. Who should we blame?
- D. How can we include everyone better next round?

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision

186. zkm8-23-q3 (zeke · week 8 · 2-3)

Mission: zeke-final-huddle [zeke-final-huddle]

Type: sequencing · Difficulty: 3/5 · Priority: low

Flags: none

Correct answer position: C

Scenario: One teammate says they felt left out. Scene: During recess team time, Zeke listens while the group figures out next steps, last challenge recap (2-3).

Question: Which response keeps the group working together?

- A. A kind idea that skips hearing everyone out
- B. A fast choice that helps one person but not the group
- C. Listen and think how to... for this scenario '
- D. A choice that shuts teammates out

Reason: Balanced difficulty for grade band

Rewrite: Question meets baseline quality checks. Optional polish: vary correct-answer position in future edits.

Suggested distractors: Choose a reasonable step that does not match the scenario best | Pick a strategy that helps a little but misses the main goal | Select an option that delays the decision
